

1
00:00:04,470 --> 00:00:02,950
i'd like to welcome you aboard the the

2
00:00:07,190 --> 00:00:04,480
international space station i'm dan

3
00:00:08,790 --> 00:00:07,200
burbank the commander of expedition 30

4
00:00:10,549 --> 00:00:08,800
and uh we're here getting ready to to

5
00:00:12,070 --> 00:00:10,559
celebrate thanksgiving just like lots

6
00:00:15,669 --> 00:00:12,080
and lots of folks are doing in the

7
00:00:17,990 --> 00:00:15,679
united states right now back home and um

8
00:00:19,429 --> 00:00:18,000
and as wonderful as it is to live on

9
00:00:21,590 --> 00:00:19,439
board space station experience

10
00:00:23,750 --> 00:00:21,600
weightlessness have this glorious view

11
00:00:25,990 --> 00:00:23,760
uh of planet earth below us there's

12
00:00:27,349 --> 00:00:26,000
probably one downside when it especially

13
00:00:28,790 --> 00:00:27,359

when it comes towards the holidays and

14

00:00:30,230 --> 00:00:28,800

that's being away from family and

15

00:00:31,910 --> 00:00:30,240

friends and

16

00:00:33,910 --> 00:00:31,920

and the one good thing that we have

17

00:00:35,590 --> 00:00:33,920

right now is we're able to talk to um

18

00:00:38,389 --> 00:00:35,600

our family and our loved ones on a

19

00:00:40,069 --> 00:00:38,399

pretty regular basis and we can also see

20

00:00:42,389 --> 00:00:40,079

them and do a video conference with them

21

00:00:44,950 --> 00:00:42,399

on sundays but uh but still it's not

22

00:00:46,549 --> 00:00:44,960

quite the same as being there for the

23

00:00:49,270 --> 00:00:46,559

holidays with them

24

00:00:50,950 --> 00:00:49,280

we do the best we can up here and we're

25

00:00:52,470 --> 00:00:50,960

all fortunate to be here

26
00:00:54,549 --> 00:00:52,480
we're also fortunate to have some folks

27
00:00:57,029 --> 00:00:54,559
that'll cook up special meals for us and

28
00:00:58,310 --> 00:00:57,039
prepare them for us so for thanksgiving

29
00:01:01,430 --> 00:00:58,320
just like a lot of folks are going to do

30
00:01:02,389 --> 00:01:01,440
back home we're going to have

31
00:01:04,229 --> 00:01:02,399
let's see

32
00:01:10,149 --> 00:01:04,239
well we're going to have

33
00:01:10,159 --> 00:01:19,429
home-style potatoes

34
00:01:19,439 --> 00:01:31,510
cornbread dressing

35
00:01:31,520 --> 00:01:35,270
corn

36
00:01:42,389 --> 00:01:38,149
green beans plenty of vegetables

37
00:01:56,630 --> 00:01:43,350
and

38
00:01:58,310 --> 00:01:56,640

what could be better than cherry

39

00:01:59,190 --> 00:01:58,320

blueberry cobbler

40

00:02:01,030 --> 00:01:59,200

so

41

00:02:03,270 --> 00:02:01,040

again we're going to be missing all the

42

00:02:04,630 --> 00:02:03,280

family and friends back home we're going

43

00:02:06,789 --> 00:02:04,640

to hopefully get a chance to talk to

44

00:02:08,550 --> 00:02:06,799

them we're going to enjoy some great

45

00:02:10,150 --> 00:02:08,560

food we're going to enjoy a view of

46

00:02:12,150 --> 00:02:10,160

planet earth from here we're going to be

47

00:02:13,990 --> 00:02:12,160

real thankful for the opportunity to get

48

00:02:15,910 --> 00:02:14,000

to that we have to fly aboard this

49

00:02:17,350 --> 00:02:15,920

magnificent space station and we're

50

00:02:18,710 --> 00:02:17,360

going to be thankful for the love and

51
00:02:20,070 --> 00:02:18,720
the support of all the folks that we

52
00:02:21,190 --> 00:02:20,080
have back home

53
00:02:22,790 --> 00:02:21,200
so

54
00:02:23,990 --> 00:02:22,800
with you from the international space

55
00:02:25,430 --> 00:02:24,000
station

56
00:02:30,309 --> 00:02:25,440
best wishes
