

1
00:00:04,309 --> 00:00:02,629
hi i'm mike massimino and welcome to

2
00:00:07,269 --> 00:00:04,319
another episode of inside the

3
00:00:09,430 --> 00:00:07,279
international space station

4
00:00:12,390 --> 00:00:09,440
so you're more like a real estate agent

5
00:00:13,830 --> 00:00:12,400
mama i'm coming home like a snuggie feel

6
00:00:15,669 --> 00:00:13,840
free to add you know the little hack

7
00:00:18,470 --> 00:00:15,679
marks i made every day that i was up

8
00:00:21,830 --> 00:00:19,590
we're going to go into the mission

9
00:00:23,189 --> 00:00:21,840
control center into the control room and

10
00:00:25,910 --> 00:00:23,199
speak to two of my friends who are in

11
00:00:27,750 --> 00:00:25,920
space mike fossum and dan burbank and

12
00:00:29,029 --> 00:00:27,760
dan just arrived he was supposed to get

13
00:00:31,029 --> 00:00:29,039

there a couple months ago but he got

14
00:00:33,190 --> 00:00:31,039
delayed because they were concerned with

15
00:00:34,630 --> 00:00:33,200
some problems with his rocket they fixed

16
00:00:36,389 --> 00:00:34,640
all those and he launched successfully

17
00:00:37,510 --> 00:00:36,399
he's up there now with mike and i can't

18
00:00:45,430 --> 00:00:37,520
wait to see him and see how they're

19
00:00:49,430 --> 00:00:47,110
all right guys let's uh let's get

20
00:00:50,950 --> 00:00:49,440
rolling here and uh first off it's

21
00:00:52,470 --> 00:00:50,960
thanks very much again for letting us

22
00:00:55,110 --> 00:00:52,480
come and visit with you

23
00:00:57,189 --> 00:00:55,120
mike it's great to see you again and dan

24
00:00:58,950 --> 00:00:57,199
it is really a blast to see you up there

25
00:01:01,270 --> 00:00:58,960
i'm really really enjoying seeing you up

26

00:01:03,270 --> 00:01:01,280

there congratulations i gotta ask you

27

00:01:04,469 --> 00:01:03,280

dan when you launched and we watched

28

00:01:07,030 --> 00:01:04,479

your launch

29

00:01:08,310 --> 00:01:07,040

and uh it was it was a blizzard i mean

30

00:01:10,710 --> 00:01:08,320

that's the way it look it must have been

31

00:01:12,230 --> 00:01:10,720

a blizzard to you too right

32

00:01:13,429 --> 00:01:12,240

and and i was just wondering you know

33

00:01:14,710 --> 00:01:13,439

like what were you thinking about

34

00:01:16,390 --> 00:01:14,720

launching in a blizzard well you when

35

00:01:17,670 --> 00:01:16,400

they closed the hatchery like

36

00:01:20,070 --> 00:01:17,680

let's get out of here i don't want to go

37

00:01:21,590 --> 00:01:20,080

back outside because it's cold

38

00:01:23,270 --> 00:01:21,600

that's my first question what was that

39

00:01:24,950 --> 00:01:23,280

like and second

40

00:01:25,990 --> 00:01:24,960

what were you wearing because they

41

00:01:28,390 --> 00:01:26,000

looked like you were walking out to that

42

00:01:30,390 --> 00:01:28,400

launch pad and like a snuggie so i

43

00:01:31,749 --> 00:01:30,400

wasn't sure if they just woke you up or

44

00:01:34,069 --> 00:01:31,759

if you were taking that thing with you

45

00:01:35,109 --> 00:01:34,079

to watch tv with mike in space you know

46

00:01:36,469 --> 00:01:35,119

what was with that get up you were

47

00:01:38,950 --> 00:01:36,479

wearing going out to the launch pad so

48

00:01:40,950 --> 00:01:38,960

those are my questions

49

00:01:42,789 --> 00:01:40,960

yeah i mean at the launch pad i think

50

00:01:45,030 --> 00:01:42,799

all of us were thinking let's get up to

51
00:01:46,550 --> 00:01:45,040
space somewhere safe i mean it was it

52
00:01:49,030 --> 00:01:46,560
was really cold

53
00:01:51,510 --> 00:01:49,040
and really snowy down there but uh but

54
00:01:53,190 --> 00:01:51,520
and as for the the the special garb that

55
00:01:54,870 --> 00:01:53,200
we're wearing that's um

56
00:01:56,789 --> 00:01:54,880
i don't know that they've ever been worn

57
00:01:59,190 --> 00:01:56,799
before but it's a kind of a

58
00:02:01,190 --> 00:01:59,200
park a snow parka for a space suit in

59
00:02:02,630 --> 00:02:01,200
the in the soyuz rocket and it was kind

60
00:02:05,109 --> 00:02:02,640
of cool to get to be the first ones to

61
00:02:07,190 --> 00:02:05,119
ever wear those all right and for mike

62
00:02:09,109 --> 00:02:07,200
now you know dan was supposed to be up

63
00:02:11,910 --> 00:02:09,119

there a couple months ago

64

00:02:14,070 --> 00:02:11,920

and he just just arrived did you hide

65

00:02:15,430 --> 00:02:14,080

stuff so he wouldn't see the mess is

66

00:02:17,589 --> 00:02:15,440

there any surprises did you make any

67

00:02:19,510 --> 00:02:17,599

booby traps for him what what what he

68

00:02:20,949 --> 00:02:19,520

got going when right before he came

69

00:02:23,110 --> 00:02:20,959

what should he expect

70

00:02:25,270 --> 00:02:23,120

there's booby traps all over this place

71

00:02:26,309 --> 00:02:25,280

he had to dig out his crew quarters had

72

00:02:28,150 --> 00:02:26,319

been used

73

00:02:29,910 --> 00:02:28,160

his crew quarters were literally my

74

00:02:31,670 --> 00:02:29,920

closet for a couple of months hey he's

75

00:02:33,830 --> 00:02:31,680

not here he doesn't care

76

00:02:35,830 --> 00:02:33,840

and uh you know so i just uh you know

77

00:02:38,150 --> 00:02:35,840

spread my stuff into his uh his crew

78

00:02:39,670 --> 00:02:38,160

quarters it was great this is different

79

00:02:41,910 --> 00:02:39,680

than having company come over though

80

00:02:44,070 --> 00:02:41,920

because he's not company uh he's taking

81

00:02:45,509 --> 00:02:44,080

over the house and so you know we

82

00:02:46,790 --> 00:02:45,519

cleaned up what we can we're still

83

00:02:48,150 --> 00:02:46,800

cleaning up we'll be cleaning up for the

84

00:02:49,670 --> 00:02:48,160

next couple days until we close the

85

00:02:50,869 --> 00:02:49,680

hatches and then it's not my problem

86

00:02:52,550 --> 00:02:50,879

anymore

87

00:02:53,509 --> 00:02:52,560

so you're more like a real estate agent

88

00:02:55,670 --> 00:02:53,519

sorry

89

00:02:57,430 --> 00:02:55,680

no well it's a time share you get it for

90

00:02:59,350 --> 00:02:57,440

six months you hand it over to somebody

91

00:03:02,149 --> 00:02:59,360

else you know how that goes

92

00:03:04,790 --> 00:03:02,159

all right now for for both of you guys

93

00:03:07,830 --> 00:03:04,800

normally cruz would have quite a while

94

00:03:09,350 --> 00:03:07,840

to hand over a couple months i guess to

95

00:03:10,949 --> 00:03:09,360

for you guys to say hey this is how

96

00:03:12,390 --> 00:03:10,959

everything works and

97

00:03:13,589 --> 00:03:12,400

you know how did that how did that

98

00:03:14,790 --> 00:03:13,599

change what you were going to do you

99

00:03:16,149 --> 00:03:14,800

just show them how to work the kitchen

100

00:03:18,309 --> 00:03:16,159

and the toilet and the play room he

101

00:03:20,630 --> 00:03:18,319

figures out on his own well first of all

102

00:03:22,149 --> 00:03:20,640

we it started a few months ago when we

103

00:03:23,910 --> 00:03:22,159

knew that they were going to be delayed

104

00:03:25,990 --> 00:03:23,920

within a week we started actually

105

00:03:28,550 --> 00:03:26,000

videotaping some of the handovers that

106

00:03:30,470 --> 00:03:28,560

we would do up here in person i started

107

00:03:31,990 --> 00:03:30,480

carrying a camcorder around and walking

108

00:03:34,149 --> 00:03:32,000

around the house if you will here's

109

00:03:35,990 --> 00:03:34,159

here's where you beat on the garbage

110

00:03:38,710 --> 00:03:36,000

disposal to get it to work when it

111

00:03:40,949 --> 00:03:38,720

sticks and uh here's all those kind of

112

00:03:42,550 --> 00:03:40,959

things to uh to expedite the process

113

00:03:45,030 --> 00:03:42,560

because we knew we would not have much

114

00:03:47,589 --> 00:03:45,040

time yeah from my perspective you know

115

00:03:50,710 --> 00:03:47,599

our goal here is to take the few days we

116

00:03:53,350 --> 00:03:50,720

have and not sleep at all not eat at all

117

00:03:54,949 --> 00:03:53,360

only talk and it's a fire hose treatment

118

00:03:57,190 --> 00:03:54,959

as i'm trying to learn everything i can

119

00:04:00,149 --> 00:03:57,200

from from mike and sergey and satoshi

120

00:04:01,589 --> 00:04:00,159

but uh but uh we're trying to get there

121

00:04:04,070 --> 00:04:01,599

all right mike you know you've you've

122

00:04:05,589 --> 00:04:04,080

been up there for for a while over six

123

00:04:06,710 --> 00:04:05,599

months now it's time for you to come

124

00:04:08,149 --> 00:04:06,720

home and

125

00:04:09,190 --> 00:04:08,159

um

126

00:04:10,869 --> 00:04:09,200

what what are you going to be doing

127

00:04:12,149 --> 00:04:10,879

these next couple days what are you

128

00:04:13,350 --> 00:04:12,159

going to be doing but there's probably a

129

00:04:15,030 --> 00:04:13,360

list of things that you want to make

130

00:04:16,550 --> 00:04:15,040

sure you take with you what what's on

131

00:04:18,629 --> 00:04:16,560

that list of things you make sure that

132

00:04:20,469 --> 00:04:18,639

you can have with you when you come back

133

00:04:22,469 --> 00:04:20,479

uh the first would be the pictures of my

134

00:04:24,150 --> 00:04:22,479

family i had i've had pictures up here

135

00:04:26,070 --> 00:04:24,160

for the whole flight and uh you know

136

00:04:27,990 --> 00:04:26,080

they keep me company up here and one of

137

00:04:30,230 --> 00:04:28,000

the biggest deals for being gone so long

138

00:04:32,310 --> 00:04:30,240

is missing your family and so i've got

139

00:04:34,230 --> 00:04:32,320

have those things and i and i've kept

140

00:04:36,469 --> 00:04:34,240

them really close and most of them are

141

00:04:38,310 --> 00:04:36,479

already packed in the soyuz spacecraft

142

00:04:40,550 --> 00:04:38,320

for the ride home so i have you know

143

00:04:43,270 --> 00:04:40,560

those those uh those things are already

144

00:04:44,870 --> 00:04:43,280

packed uh my aggie banner that has

145

00:04:46,790 --> 00:04:44,880

adorned the the

146

00:04:49,030 --> 00:04:46,800

the the space station for the last few

147

00:04:50,950 --> 00:04:49,040

months is uh carefully packed away for

148

00:04:52,790 --> 00:04:50,960

the ride home so you know i have

149

00:04:54,469 --> 00:04:52,800

everything important and we're ready to

150

00:04:56,950 --> 00:04:54,479

go actually you don't bring much it's

151
00:04:59,990 --> 00:04:56,960
not like you're lots of suitcases coming

152
00:05:02,230 --> 00:05:00,000
up here and so uh most of the clothes

153
00:05:04,310 --> 00:05:02,240
will uh will be a part of a shooting

154
00:05:05,830 --> 00:05:04,320
star on a progress spacecraft uh someday

155
00:05:07,830 --> 00:05:05,840
soon

156
00:05:09,749 --> 00:05:07,840
dan uh what are you looking forward to

157
00:05:11,670 --> 00:05:09,759
the most i mean i know you've

158
00:05:14,070 --> 00:05:11,680
been looking forward to this mission for

159
00:05:15,590 --> 00:05:14,080
a long time what's it like to finally be

160
00:05:17,510 --> 00:05:15,600
there and what what's your what's your

161
00:05:19,990 --> 00:05:17,520
impression

162
00:05:21,749 --> 00:05:20,000
been here twice on two shuttle missions

163
00:05:24,469 --> 00:05:21,759

but uh space station was nothing like

164

00:05:26,870 --> 00:05:24,479

this not nearly this big not nearly this

165

00:05:28,790 --> 00:05:26,880

impressive and and for me

166

00:05:30,950 --> 00:05:28,800

the the two shuttle missions coming out

167

00:05:33,590 --> 00:05:30,960

of those i knew that two weeks wasn't

168

00:05:35,029 --> 00:05:33,600

quite enough to be in space and to do a

169

00:05:36,550 --> 00:05:35,039

long duration and actually be able to do

170

00:05:38,790 --> 00:05:36,560

the science on station that's going to

171

00:05:40,150 --> 00:05:38,800

be just a treat and

172

00:05:41,590 --> 00:05:40,160

one of the other things kind of on the

173

00:05:44,150 --> 00:05:41,600

personal front one of the neatest things

174

00:05:46,710 --> 00:05:44,160

is to look at the planet scrolling by

175

00:05:48,950 --> 00:05:46,720

beneath you you know from space station

176

00:05:51,909 --> 00:05:48,960

there's no window on a shuttle no window

177

00:05:53,510 --> 00:05:51,919

on the soyuz no window on any spacecraft

178

00:05:55,990 --> 00:05:53,520

we've ever had that compares to the

179

00:05:58,550 --> 00:05:56,000

cupola that we have in node three this

180

00:06:00,710 --> 00:05:58,560

incredible 360 degree panorama as you

181

00:06:02,710 --> 00:06:00,720

see the entire earth horizontal horizon

182

00:06:04,390 --> 00:06:02,720

come by beneath you and that's going to

183

00:06:05,909 --> 00:06:04,400

be really really neat

184

00:06:07,670 --> 00:06:05,919

we have a special guest i think you'll

185

00:06:09,110 --> 00:06:07,680

be able to see him coming in here

186

00:06:10,629 --> 00:06:09,120

a mystery guest

187

00:06:11,670 --> 00:06:10,639

for you guys who wanted to come and say

188

00:06:13,670 --> 00:06:11,680

hi

189

00:06:15,189 --> 00:06:13,680

hey guys hey dan welcome to the space

190

00:06:17,189 --> 00:06:15,199

station it's good to see you up there

191

00:06:18,710 --> 00:06:17,199

hey ronnie it's great to see you yeah

192

00:06:20,790 --> 00:06:18,720

thanks thanks ron man it's good to see

193

00:06:22,710 --> 00:06:20,800

you back there i think we only had just

194

00:06:24,390 --> 00:06:22,720

a quick a couple of minutes in passing

195

00:06:26,790 --> 00:06:24,400

when you got back and i was on my way

196

00:06:28,469 --> 00:06:26,800

out here but uh but uh you've left this

197

00:06:30,629 --> 00:06:28,479

place in great shape and it's awf it's

198

00:06:32,230 --> 00:06:30,639

awful awful neat to be here right now

199

00:06:34,550 --> 00:06:32,240

well it's sure good to see you guys up

200

00:06:37,189 --> 00:06:34,560

there uh both together and uh hey i

201
00:06:39,670 --> 00:06:37,199
wanted you to we you know mike uh mike

202
00:06:42,469 --> 00:06:39,680
has taken this uh time lapse photography

203
00:06:44,070 --> 00:06:42,479
to a to an art form and it's uh you know

204
00:06:45,430 --> 00:06:44,080
it's really making a big stir down here

205
00:06:46,870 --> 00:06:45,440
on the earth and uh you know we're not

206
00:06:48,710 --> 00:06:46,880
gonna have them up there anymore in a

207
00:06:50,230 --> 00:06:48,720
couple of days so we want to make sure

208
00:06:51,990 --> 00:06:50,240
that you're going to pick up and run

209
00:06:53,670 --> 00:06:52,000
with that while you're up here

210
00:06:55,830 --> 00:06:53,680
yeah he's been briefed me pretty heavily

211
00:06:57,510 --> 00:06:55,840
on on photography as well i know how to

212
00:07:00,150 --> 00:06:57,520
turn the cameras on now

213
00:07:02,070 --> 00:07:00,160

i can guarantee you that much but uh but

214

00:07:04,629 --> 00:07:02,080

it's going to be a little while before

215

00:07:05,990 --> 00:07:04,639

we start getting down linked images like

216

00:07:08,710 --> 00:07:06,000

mike's been doing and like you were

217

00:07:10,390 --> 00:07:08,720

doing before tomorrow no no way no way

218

00:07:12,629 --> 00:07:10,400

at all but anyways i got a long way to

219

00:07:14,469 --> 00:07:12,639

go on that front so so dan did you move

220

00:07:17,189 --> 00:07:14,479

into ron's room is that is that the way

221

00:07:18,870 --> 00:07:17,199

it works yeah i did and and as much of

222

00:07:20,790 --> 00:07:18,880

his stuff that i can find around here

223

00:07:22,550 --> 00:07:20,800

i've sort of cobbled together too but

224

00:07:25,189 --> 00:07:22,560

yeah i'm in i'm in ron's old hooch right

225

00:07:27,749 --> 00:07:25,199

now it's great real homey just just like

226

00:07:29,270 --> 00:07:27,759

i'd uh just like he left it i think so

227

00:07:31,270 --> 00:07:29,280

feel free to add you know the little

228

00:07:33,110 --> 00:07:31,280

hack marks i made every day that i was

229

00:07:35,749 --> 00:07:33,120

up there feel free to just keep adding

230

00:07:37,670 --> 00:07:35,759

to that if you'd like

231

00:07:40,309 --> 00:07:37,680

hey and ron has a ron was telling me

232

00:07:41,589 --> 00:07:40,319

that you know he he wrote the uh the iss

233

00:07:44,070 --> 00:07:41,599

blues right wasn't that the name of it

234

00:07:46,070 --> 00:07:44,080

ron i think and then you guys together

235

00:07:47,749 --> 00:07:46,080

mike you and he wrote a sequel to that

236

00:07:49,589 --> 00:07:47,759

you know i would call it a sequel a part

237

00:07:50,550 --> 00:07:49,599

two a sequel for a movie what do you say

238

00:07:53,510 --> 00:07:50,560

for a

239

00:07:56,230 --> 00:07:53,520

the conclusion

240

00:07:57,990 --> 00:07:56,240

is the iss blues part two

241

00:07:59,189 --> 00:07:58,000

can you hum a few bars for us is that

242

00:08:00,629 --> 00:07:59,199

ready for

243

00:08:03,350 --> 00:08:00,639

for release

244

00:08:05,749 --> 00:08:03,360

oh no no no no i was the cameraman i was

245

00:08:09,270 --> 00:08:05,759

the cameraman ronnie ronnie had the uh

246

00:08:11,270 --> 00:08:09,280

he had the blues and he had the guitar

247

00:08:13,029 --> 00:08:11,280

we had a lot of fun with that

248

00:08:14,469 --> 00:08:13,039

i haven't seen the uh i haven't seen the

249

00:08:16,550 --> 00:08:14,479

uh redo

250

00:08:18,230 --> 00:08:16,560

the uh the the finale right before you

251
00:08:20,309 --> 00:08:18,240
left i haven't seen that version yet

252
00:08:22,869 --> 00:08:20,319
yeah well without giving too much away

253
00:08:24,710 --> 00:08:22,879
you know i remember that the camera the

254
00:08:26,629 --> 00:08:24,720
guitar was taken from me

255
00:08:28,469 --> 00:08:26,639
and we had a passing of the guitar and

256
00:08:30,309 --> 00:08:28,479
that there was supposed to be a another

257
00:08:32,630 --> 00:08:30,319
song that was going to be written and

258
00:08:34,310 --> 00:08:32,640
maybe even performed for everybody uh

259
00:08:36,630 --> 00:08:34,320
before you went home and you know you

260
00:08:37,909 --> 00:08:36,640
have a couple days to go here so i'm i'm

261
00:08:40,550 --> 00:08:37,919
just curious when we're gonna we're

262
00:08:42,469 --> 00:08:40,560
gonna hear that song

263
00:08:44,149 --> 00:08:42,479

oh ouch yeah that's that's part of what

264

00:08:46,150 --> 00:08:44,159

we're working on up here while we're not

265

00:08:47,509 --> 00:08:46,160

sleeping

266

00:08:49,030 --> 00:08:47,519

yeah we'll delay the undocking if we

267

00:08:51,190 --> 00:08:49,040

need to

268

00:08:53,110 --> 00:08:51,200

you gotta have priorities

269

00:08:54,470 --> 00:08:53,120

we really appreciate your time guys we

270

00:08:56,790 --> 00:08:54,480

know you're busy and you gotta get on

271

00:08:58,710 --> 00:08:56,800

with that handover and uh and i really

272

00:09:00,470 --> 00:08:58,720

appreciate you letting us in to say hi

273

00:09:01,990 --> 00:09:00,480

but i was wondering and i know dan you

274

00:09:05,030 --> 00:09:02,000

haven't got anything prepared yet but

275

00:09:06,949 --> 00:09:05,040

you do have that that guitar handy can

276

00:09:08,790 --> 00:09:06,959

you give us some exit music or just

277

00:09:10,389 --> 00:09:08,800

something maybe you know a little just a

278

00:09:12,630 --> 00:09:10,399

little strumming on that

279

00:09:14,790 --> 00:09:12,640

on that guitar we would really we would

280

00:09:18,630 --> 00:09:14,800

281

00:09:23,030 --> 00:09:20,230

all right all right here's a little

282

00:09:25,509 --> 00:09:23,040

a little something uh by james taylor

283

00:09:27,829 --> 00:09:25,519

actually we uh we spent a little time in

284

00:09:29,670 --> 00:09:27,839

baikonur pre-launch with uh with our

285

00:09:32,070 --> 00:09:29,680

with our docs and our russian doc

286

00:09:34,949 --> 00:09:32,080

alexandrian who's on his way right now

287

00:09:37,030 --> 00:09:34,959

uh to uh to houston to be with uh with

288

00:09:38,870 --> 00:09:37,040

289

00:09:53,350 --> 00:09:38,880

of his favorites but we'll give you a

290

00:09:59,990 --> 00:09:56,470

it did rain all night the day i left the

295

00:10:17,750 --> 00:10:14,000

weather was bone dry

296

00:10:23,030 --> 00:10:17,760

the sun was so hot i froze myself

297

00:10:26,069 --> 00:10:25,190

and we'll leave it there all right all

298

00:10:28,389 --> 00:10:26,079

299

00:10:29,829 --> 00:10:28,399
