half past two that's not very good

68

00:16:24,329 --> 00:15:27,850

it's so cold I see your microphone has a

74

00:17:38,210 --> 00:17:09,659

at nine so it's good huh huh I could go

75

00:17:46,710 --> 00:17:38,220

skiing if that's not leave yes yea

76

00:17:56,760 --> 00:17:46,720

rather remember way a tree is first

77

00:17:59,220 --> 00:17:56,770

pontiff planted there yes a little bit

78

00:18:13,919 --> 00:17:59,230

my these me

79

00:18:50,680 --> 00:18:13,929

00:19:01,750 --> 00:18:55,920

good with proposing so what if think

82

00:19:04,340 --> 00:19:01,760

about new years and space also we should

83

00:19:06,620 --> 00:19:04,350

have no idea really I know that there is

84

00:19:09,140 --> 00:19:06,630

a box flying up with us with the

85

00:19:11,930 --> 00:19:09,150

presents from family and friends sure

86

00:19:15,340 --> 00:19:11,940

this will be the second time for a new

87

00:19:18,049 --> 00:19:15,350

year in space it's a great place to be

88

00:19:20,780 --> 00:19:18,059

what do you think about you well I think

89

00:19:22,669 --> 00:19:20,790

we have a fairly low new year because

90

00:19:24,890 --> 00:19:22,679

there's a lot of different places on the

91

00:19:26,950 --> 00:19:24,900

planet every time it's another new here

92

00:19:33,259 --> 00:19:26,960

so we gonna have new year for 24 hours

93

00:19:46,340 --> 00:19:37,230

so feisty one sure you thank you very

118

00:23:31,400 --> 00:23:27,540

120

00:23:37,490 --> 00:23:34,470

Twista samosas push the cursor quickly

121

00:23:42,230 --> 00:23:37,500

enough Mon I trained they command takes

122

00:23:45,500 --> 00:23:42,240

a long time basically the decibel nice

123

00:23:48,410 --> 00:23:45,510

one second is enough you you come

124

00:23:50,510 --> 00:23:48,420

on for me ruin very sassy that I'm gonna

125

00:23:52,910 --> 00:23:50,520

have come and if we are building a

126
00:23:55,910 --> 00:23:52,920
series of command there's always a one

127
00:23:59,150 --> 00:23:55,920
second gap between them that we are

128
00:24:01,460 --> 00:23:59,160
switching to go back to and practically

129
00:24:03,260 --> 00:24:01,470
speaking we're ready to switch it on to

130
00:24:07,130 --> 00:24:03,270
activate it earlier so that you have

131
00:24:13,530 --> 00:24:07,140
everything at your disposal at once all

132
00:24:13,540 --> 00:24:33,909
as I said

133
00:24:33,919 --> 00:24:43,230
please watch your step

134
00:24:43,240 --> 00:25:32,549

141

00:26:36,960 --> 00:26:34,360

know Sierra popular in a beauty mark was

142

00:26:39,030 --> 00:26:36,970

surprised at the dates but truly pet the

143

00:26:41,160 --> 00:26:39,040

key for designer name is Nick Natasha

144

00:26:45,780 --> 00:26:41,170

did even like the Rope at the height of

145

00:26:49,320 --> 00:26:45,790

50 meters there were built roads just

146

00:26:55,220 --> 00:26:49,330

like this and in 1957 this particular

147

00:27:00,210 --> 00:26:55,230

device was created no justification for

148

00:27:03,630 --> 00:27:00,220

their stars and this is where cosmonauts

149

00:27:07,590 --> 00:27:03,640

are from yesterday and now I've got to

150

00:27:11,460 --> 00:27:07,600

show you something else this picture was

151

00:27:14,870 --> 00:27:11,470

written off a very famous photo of Yuri

152

00:27:17,400 --> 00:27:14,880

Gagarin and Sergei Korolev yeah because

153

00:27:22,410 --> 00:27:17,410

this is something which was used in

154

00:27:24,720 --> 00:27:22,420

order to train landing visible by local

155

00:27:27,690 --> 00:27:24,730

you and testers this is very important

156

00:27:30,360 --> 00:27:27,700

part of the Cosmodrome as well and this

157

00:27:32,730 --> 00:27:30,370

is a room devoted to Soyuz is that not

158

00:27:34,290 --> 00:27:32,740

govern to tell anything to you here

159

00:27:43,649 --> 00:27:34,300

because you'll probably know much more

160

00:27:43,659 --> 00:27:55,799

like history on that wall with

161

00:28:03,750 --> 00:27:59,440

open it change the answer to kind of boy

162

00:28:07,360 --> 00:28:03,760

you even owe it to warts and all right

163

00:28:36,880 --> 00:28:07,370

just non-existent oh where is your

164

00:28:40,630 --> 00:28:36,890

signature hey thank you no suggestion

165

00:28:45,520 --> 00:28:40,640

purposes and now I welcome you to go to

166

00:28:51,039 --> 00:28:45,530

next room you know Edna my ninja yes yes

167

00:29:03,609 --> 00:29:01,930

Oh Krista food in the toilet no Lana's

168

00:29:06,310 --> 00:29:03,619

at the summer but she drew conazo a

169

00:29:08,289 --> 00:29:06,320

movie with my said this is the greatest

170

00:29:13,149 --> 00:29:08,299

friend of our Museum I didn't know this

171

00:29:16,239 --> 00:29:13,159

work was very intensive and very

172

00:29:34,269 --> 00:29:16,249

important and then a picture from outer

173

00:29:40,129 --> 00:29:37,129

watching you saw that anymore Sam it's

174

00:29:44,149 --> 00:29:40,139

extremely heavy andres used by yuri

175

00:29:46,460 --> 00:29:44,159

gagarin himself Perdita new features

176

00:29:54,350 --> 00:29:46,470

additional photography button would it

177

00:29:56,509 --> 00:29:54,360

attack over in 1086 but not to the left

178

00:30:00,799 --> 00:29:56,519

you can see launch pads for extremely

179

00:30:05,119 --> 00:30:00,809

heavy rocket rockets to the right is the

180

00:30:07,430 --> 00:30:05,129

backup for Gagarin I mean even the

181

00:30:39,650 --> 00:30:07,440

Swedish reunion bed and they own the

182

00:30:48,180 --> 00:30:46,040

until well going to write something and

183

00:30:50,070 --> 00:30:48,190

Sergey the one who stick and touches

184

00:31:01,370 --> 00:30:50,080

right now he was the one who made that

185

00:31:05,330 --> 00:31:01,380
