

1
00:00:07,510 --> 00:00:03,750
station this is houston are you ready

2
00:00:10,870 --> 00:00:08,790
at houston station we're ready for the

3
00:00:12,709 --> 00:00:10,880
event

4
00:00:15,190 --> 00:00:12,719
weather channel this is mission control

5
00:00:17,750 --> 00:00:15,200
houston please call a station for a

6
00:00:19,269 --> 00:00:17,760
voice check with the snow 41 in boston

7
00:00:21,429 --> 00:00:19,279
your temperatures actually come up this

8
00:00:24,870 --> 00:00:21,439
morning take you over here into illinois

9
00:00:27,029 --> 00:00:24,880
indiana kentucky missouri the quad

10
00:00:28,550 --> 00:00:27,039
cities up and down wisconsin look at

11
00:00:31,509 --> 00:00:28,560
these temperatures in the teens but

12
00:00:33,990 --> 00:00:31,519
chicago we're at 33 that cold air has

13
00:00:35,510 --> 00:00:34,000

yet to get here in chicago but it's very

14

00:00:37,990 --> 00:00:35,520

this is weather channel do you hear me

15

00:00:39,830 --> 00:00:38,000

the snow are coinciding and so when it

16

00:00:41,190 --> 00:00:39,840

comes in it's going to snow and addition

17

00:00:42,790 --> 00:00:41,200

this is the weather channel

18

00:00:44,950 --> 00:00:42,800

we've got you loud and clear snow in

19

00:00:47,110 --> 00:00:44,960

chicago is our forecast we've upped it

20

00:00:48,869 --> 00:00:47,120

just a little bit this morning six to

21

00:00:51,590 --> 00:00:48,879

ten for the channel international space

22

00:00:52,869 --> 00:00:51,600

station and we have you loud and clear

23

00:00:53,670 --> 00:00:52,879

saturday morning we'll get some lake

24

00:00:55,750 --> 00:00:53,680

effect

25

00:00:56,869 --> 00:00:55,760

do you ha weather channel station g this

26

00:00:58,790 --> 00:00:56,879

is weather channel do you hear me

27

00:01:00,630 --> 00:00:58,800

chicago your morning rush completely

28

00:01:02,069 --> 00:01:00,640

different than your evening rush weather

29

00:01:03,990 --> 00:01:02,079

channel this is international space

30

00:01:04,950 --> 00:01:04,000

station we hear you we copy loud and

31

00:01:06,789 --> 00:01:04,960

clear

32

00:01:08,310 --> 00:01:06,799

so heads up on what top of that stand by

33

00:01:09,750 --> 00:01:08,320

you'll be speaking

34

00:01:11,190 --> 00:01:09,760

st stand by you'll be talking with

35

00:01:13,190 --> 00:01:11,200

stephanie abrams for the weather channel

36

00:01:15,670 --> 00:01:13,200

standby temperatures that are well below

37

00:01:17,990 --> 00:01:15,680

freezing 22 in chicago

38

00:01:19,510 --> 00:01:18,000

24 in chicago on saturday and much of

39

00:01:20,950 --> 00:01:19,520

the great lakes seeing temperatures at

40

00:01:22,710 --> 00:01:20,960

or below seasonal averages that's your

41

00:01:24,149 --> 00:01:22,720

winter weather update heads up let's

42

00:01:26,070 --> 00:01:24,159

head back to the studio mike we're going

43

00:01:28,230 --> 00:01:26,080

somewhere that's very cold right now

44

00:01:29,749 --> 00:01:28,240

into outer space we've seen some amazing

45

00:01:31,910 --> 00:01:29,759

video this year from the international

46

00:01:34,469 --> 00:01:31,920

space station including this video of

47

00:01:36,069 --> 00:01:34,479

hurricane irene that you can see behind

48

00:01:38,230 --> 00:01:36,079

me just a beautiful sight there today

49

00:01:40,789 --> 00:01:38,240

with the opportunity to talk to the crew

50

00:01:42,789 --> 00:01:40,799

of expedition 30. joining us live is

51
00:01:44,870 --> 00:01:42,799
commander dan burbank and flight

52
00:01:46,950 --> 00:01:44,880
engineers andre

53
00:01:48,469 --> 00:01:46,960
kapers and don pettit thanks for being

54
00:01:51,190 --> 00:01:48,479
with us commander you've been on the

55
00:01:52,310 --> 00:01:51,200
space station since november how's it

56
00:01:56,709 --> 00:01:52,320
been so far and what's your current

57
00:02:01,030 --> 00:01:58,389
it's been great actually it's been very

58
00:02:02,550 --> 00:02:01,040
busy and we've been busy doing some

59
00:02:03,990 --> 00:02:02,560
science we've also been very busy

60
00:02:08,150 --> 00:02:04,000
upgrading the avionics onboard the

61
00:02:11,589 --> 00:02:09,910
all right andre kuipers how about you

62
00:02:14,229 --> 00:02:11,599
what is it like to see can you even

63
00:02:15,510 --> 00:02:14,239

describe in words what it's like to see

64

00:02:19,589 --> 00:02:15,520

earth from the international space

65

00:02:23,589 --> 00:02:21,510

yeah well it's of course very special

66

00:02:25,350 --> 00:02:23,599

and has different aspects if you look

67

00:02:28,150 --> 00:02:25,360

straight down it's a very colorful

68

00:02:30,470 --> 00:02:28,160

planet with beautiful deserts and

69

00:02:31,910 --> 00:02:30,480

beautiful turquoise waters

70

00:02:33,509 --> 00:02:31,920

if you look beside it you see the

71

00:02:36,470 --> 00:02:33,519

blackness of space and all of a sudden

72

00:02:39,430 --> 00:02:36,480

it's a it's a fragile and small planet

73

00:02:41,990 --> 00:02:39,440

so it has a lot of different aspects

74

00:02:43,750 --> 00:02:42,000

don't know how long will you stay on the

75

00:02:45,589 --> 00:02:43,760

space station for this mission and how

76
00:02:48,830 --> 00:02:45,599
long would you want to stay if you could

77
00:02:54,309 --> 00:02:52,790
choice uh we'll be here until the middle

78
00:02:55,350 --> 00:02:54,319
of may

79
00:02:56,710 --> 00:02:55,360
and

80
00:02:59,589 --> 00:02:56,720
uh what

81
00:03:01,589 --> 00:02:59,599
i would like to do if the technology

82
00:03:04,550 --> 00:03:01,599
were there would be to immigrate to

83
00:03:06,949 --> 00:03:04,560
space i'd load my family up on the next

84
00:03:09,509 --> 00:03:06,959
spaceship and move into space and never

85
00:03:11,589 --> 00:03:09,519
come back to planet earth

86
00:03:13,750 --> 00:03:11,599
well it has been an absolute thrill

87
00:03:15,750 --> 00:03:13,760
speaking to all three of you and enjoy

88
00:03:17,350 --> 00:03:15,760

your time up there at the international

89

00:03:19,589 --> 00:03:17,360

space station hopefully one day we'll

90

00:03:21,830 --> 00:03:19,599

all be able to join you as well we

91

00:03:23,430 --> 00:03:21,840

certainly appreciate it how cool is that

92

00:03:24,789 --> 00:03:23,440

we just talked to that we just talked to

93

00:03:29,350 --> 00:03:24,799

three people on the international space

94

00:03:34,390 --> 00:03:31,670

station this is houston acr thank you

95

00:03:35,589 --> 00:03:34,400

that concludes the event

96

00:03:37,990 --> 00:03:35,599

thank you weather

97

00:03:39,990 --> 00:03:38,000

channel station please stand by while we
