1
00:00:02,360 --> 00:00:11,589

We are the explorers.

2
00:00:11,589 --> 00:00:15,749

\hWe have a need to find what is out there.

3
00:00:15,749 --> 00:00:16,749

\h\h

4
00:00:16,749 --> 00:00:18,870

It is a drive inside each and every one of us.

5
00:00:18,870 --> 00:00:25,390

The drive to wonder....to push the boundaries ...and to explore.

6
00:00:25,390 --> 00:00:29,880

We expanded across our lands, settling new frontiers.

7
00:00:29,880 --> 00:00:35,540

We took to the oceans and learned that we could cross treacherous expanses in the pursuit

8
00:00:35,540 --> 00:00:36,750

of discovery.

9
00:00:36,750 --> 00:00:40,860

And then, we took to the skies and flew.

10
00:00:40,860 --> 00:00:43,440

But that wasn't enough.

11
00:00:43,440 --> 00:00:49,500

We left the planet...and redefined what was possible.

12

00:00:49,500 --> 00:00:51,550

We flew in space.

13

00:00:51,550 --> 00:00:54,060

We walked in space.

14

00:00:54,060 --> 00:00:57,020

What once was a melodramatic flight of fantasy...became reality.

15

00:00:57,020 --> 00:01:05,290

Then a new generation of spaceships captured hearts

16

00:01:05,290 --> 00:01:07,340

and minds for three decades...

17

00:01:07,340 --> 00:01:15,880

and helped build a castle in the sky that is our lasting home in space.

18

00:01:15,880 --> 00:01:17,740

We have always looked up.

19

00:01:17,740 --> 00:01:22,560

For centuries, we wondered what was on the other side of the sky,

20

00:01:22,560 --> 00:01:26,170

and we have begun to answer that question.

21

00:01:26,170 --> 00:01:31,051

We have learned that all the exploration humankind has achieved is only a beginning.

22

00:01:31,051 --> 00:01:32,051

Right now, men and women are working on the next steps to go farther than we have ever

23

00:01:32,051 --> 00:01:33,051
gone before.

24
00:01:33,051 --> 00:01:34,051
New vessels will carry us and new destinations
await us.

25
00:01:34,051 --> 00:01:35,051
\h\h

26
00:01:35,051 --> 00:01:36,051
Everything we have ever accomplished leads
to this moment in time,

27
00:01:36,051 --> 00:01:37,051
where exploration will now take us to the
planets and the stars.

28
00:01:37,051 --> 00:01:58,650
Our nearest neighbors in the night sky have
beckoned us, invited us, dared us to reach

29
00:01:58,650 --> 00:02:05,869
for them.

30
00:02:05,869 --> 00:02:07,880
We are the explorers.

31
00:02:07,880 --> 00:02:15,599
\hThroughout our history, we have taken both
small steps and giant leaps in that pursuit.

32
00:02:15,599 --> 00:02:17,849
Our next destination awaits.
