Johnny F. Stephenson
Director
Office of Statewide Assessment and Certification

1
00:00:10,160 --> 00:00:16,240

"I'm Sandra Turner and I'm a team lead here at NASA Marshall Space Flight Center.

2
00:00:16,240 --> 00:00:25,020

\hMy team consists of several different things: \hprotocol for one, special events, community

3
00:00:25,020 --> 00:00:27,370

relations and industry relations.

4
00:00:27,370 --> 00:00:33,610

\hComing to work for NASA Marshall Space Flight Center was sort of a natural for me because

5
00:00:33,610 --> 00:00:36,690

I was born and raised in Huntsville, Ala.

6
00:00:36,690 --> 00:00:44,280

\hActually it wasn't NASA that I first came to, it was the Guided Missile Development

7
00:00:44,280 --> 00:00:46,050

Division it was called.

8
00:00:46,050 --> 00:00:48,510

\hAnd that was in 1956.

9
00:00:48,510 --> 00:00:56,340

\hAnd I came to work as a secretary in the fabrication laboratory ordering parts for

10
00:00:56,340 --> 00:00:59,710

the Jupiter and Saturn vehicles.

11
00:00:59,710 --> 00:01:06,100

I worked with the process engineering section with several engineers and I thought they

12

00:01:06,100 --> 00:01:12,150

were the smartest people I had ever seen.

13

00:01:12,150 --> 00:01:18,940

\hDuring my time here, I can't say it strongly enough, but I think I've had the most exciting

14

00:01:18,940 --> 00:01:21,380

jobs in the agency.

15

00:01:21,380 --> 00:01:23,740

\hI really do.

16

00:01:23,740 --> 00:01:31,600

\hAll of them, the protocol job and the executive secretarial jobs have all exposed me to so

17

00:01:31,600 --> 00:01:37,290

much and have afforded me so many opportunities to meet people from all over the world.
