

1  
00:00:12,320 --> 00:00:27,750  
okay

2  
00:00:32,630 --> 00:00:31,109  
yes we can see the

3  
00:00:35,030 --> 00:00:32,640  
rate again

4  
00:00:37,510 --> 00:00:35,040  
we have executed this command to

5  
00:00:39,510 --> 00:00:37,520  
initiate the movement

6  
00:00:42,229 --> 00:00:39,520  
okay copy

7  
00:00:43,670 --> 00:00:42,239  
zero zero nine

8  
00:00:50,869 --> 00:00:43,680  
teams reporting as you can see that the

9  
00:00:54,950 --> 00:00:52,630  
these final few minutes

10  
00:00:56,549 --> 00:00:54,960  
of closure are extremely slow as these

11  
00:00:58,150 --> 00:00:56,559  
two vehicles

12  
00:01:00,150 --> 00:00:58,160  
basically steer each other down atv

13  
00:01:02,150 --> 00:01:00,160

continues to close in on the zvezda

14

00:01:04,469 --> 00:01:02,160

19

00:01:42,710 --> 00:01:40,720

20

00:01:55,830 --> 00:01:42,720

contact and docking of the vehicle

42

00:04:40,070 --> 00:04:38,240

itself that it was very very soft

00:04:41,510 --> 00:04:40,080

they could not actually physically see

44

00:04:45,270 --> 00:04:41,520

it out one of the windows but they were

45

00:04:46,629 --> 00:04:45,280

watching the video monitors that are

46

00:04:48,629 --> 00:04:46,639
