so of cost like everybody else who

74

00:04:14,860 --> 00:04:13,350

you don't just have families in

75

00:04:16,940 --> 00:04:14,870

going home works apple watch a movie of

83  
00:04:41,850 --> 00:04:36,390  
course' is held by a bell and

84  
00:04:50,600 --> 00:04:44,189  
well i think it's size of a magic

85  
00:04:58,590 --> 00:04:54,239  
halloween you're getting some louis get fitter

86  
00:05:03,650 --> 00:05:00,870

00:05:08,490 --> 00:05:03,660  
entry and carbs moment so

88  
00:05:14,880 --> 00:05:12,420

j i like size of the mouse double

89

00:05:18,150 --> 00:05:14,890

christ 15 people that works pillins

90

00:05:22,220 --> 00:05:18,160

the number pilot and dignity

91

00:05:27,320 --> 00:05:25,640

yes 6 trilaminate is fantastic' to float

92

00:05:28,280 --> 00:05:27,330

work simple and being woman he is

93

00:05:32,120 --> 00:05:28,290

feeling

94

00:05:34,430 --> 00:05:32,130

but it also means that you ditch that effect

95

00:05:37,010 --> 00:05:34,440

in 1111 so if you working with

96

00:05:38,900 --> 00:05:37,020

certain expert are you might

97

00:05:40,070 --> 00:05:38,910

103  
00:05:56,510 --> 00:05:53,790  
never fine becky jury chose this go

104  
00:05:58,370 --> 00:05:56,520  
somewhere that a download look it's all

105  
00:05:59,170 --> 00:05:58,380  
two-dimensional would this is this is an

106  
00:06:02,120 --> 00:05:59,180  
issue

107  
00:06:04,880 --> 00:06:02,130  
that you have your frequin how it all the

108  
00:06:06,040 --> 00:06:04,890  
he could farm too many

109  
00:06:09,800 --> 00:06:06,050  
what is an older

110  
00:06:11,450 --> 00:06:09,810  
yes to them and specs is just who living in

111

114

00:06:22,460 --> 00:06:19,530

very concentrates

115

00:06:25,160 --> 00:06:22,470

what that is certain aspects that is

116

00:06:28,970 --> 00:06:25,170

182

00:10:03,750 --> 00:10:01,810

wipers the and here the raise specific

183

00:10:05,910 --> 00:10:03,760

work and so i realize research week was

184

00:10:08,250 --> 00:10:05,920

the effect who killed him know here

185

00:10:15,120 --> 00:10:08,260

would be the box aspects are being test it

186

00:10:24,400 --> 00:10:18,120

another device this water show and body ah

187

00:10:29,309 --> 00:10:27,730

that is absolutely lee for love experiment

188

00:10:31,800 --> 00:10:29,319

wework white

189

00:10:35,499 --> 00:10:31,810

white pencil

190

00:10:38,050 --> 00:10:35,509

with for young expert with upc experiment

191

00:10:39,850 --> 00:10:38,060

who her the pilot so how you earth

192

00:10:41,460 --> 00:10:39,860

kinney pics

193

00:10:44,710 --> 00:10:41,470

that means that

194

00:10:46,179 --> 00:10:44,720

we've vision Jiji

195

00:10:49,059 --> 00:10:46,189

blood pressure girl people who have

196

00:10:52,480 --> 00:10:49,069

blood samples three times i do ultrasonic

197

00:10:53,980 --> 00:10:52,490

scans of organs and blood vessels and

198

00:10:57,759 --> 00:10:53,990

here from her ice

199

00:11:01,559 --> 00:10:57,769

so how year if the chicken xm-i via

200

00:11:03,670 --> 00:11:01,569

operators object will one day night blue

201

00:11:05,920 --> 00:11:03,680

interesting apparently oil can an

202

00:11:10,150 --> 00:11:05,930

expert sitting there to collide more or song about

203

00:11:14,540 --> 00:11:10,160

tag apples if so sorry yes

204

00:11:19,880 --> 00:11:16,670

de promise mission have a cherry

205

00:11:25,269 --> 00:11:19,890

nigeria he solar radiation did you have

206

00:11:30,579 --> 00:11:27,759

yes absolutely have very interesting

207

00:11:33,639 --> 00:11:30,589

experiment swelling je bent colt for ten

208

00:11:36,069 --> 00:11:33,649

years at the as if the box is treaty and

209

00:11:39,100 --> 00:11:36,079

the matching al over the space station

210

00:11:41,230 --> 00:11:39,110

the measuring the radiation levels

211

00:11:44,319 --> 00:11:41,240

as soon as those requirements interesting' top i got

212

00:11:46,660 --> 00:11:44,329

you wet protected by atmosphere here and

213

00:11:47,410 --> 00:11:46,670

with old not even quipment who can see

214

00:11:50,799 --> 00:11:47,420

clearly

215

00:11:53,259 --> 00:11:50,809

became an active such a ball festival

216

00:11:56,499 --> 00:11:53,269

fantastic bottles and the least is

217

00:11:59,049 --> 00:11:56,509

that radioactive particles here the pvv

218

00:12:01,799 --> 00:11:59,059

aore tina and you see between bottle

219

00:12:04,480 --> 00:12:01,809

would collect that is something we can see

220

00:12:07,239 --> 00:12:04,490

what the als social fantastic'

221

00:12:09,730 --> 00:12:07,249

and that is the northern and

222

00:12:11,319 --> 00:12:09,740

southern lights and with a from space

223

00:12:13,989 --> 00:12:11,329

and it was very active during this

224

00:12:16,629 --> 00:12:13,999

flight so let's was a beautiful things i

225

00:12:18,040 --> 00:12:16,639

but that is something costs with radiation

226

00:12:20,889 --> 00:12:18,050

from the sun

227

00:12:22,809 --> 00:12:20,899

zoey zoey metiary two chance or i now

228

00:12:28,960 --> 00:12:22,819

point and make any decorated away and

229

00:12:34,449 --> 00:12:32,079

icarly andré and kwesi frantic laundry at home

230

00:12:35,819 --> 00:12:34,459

program can you find this i think the apple

231

00:12:41,920 --> 00:12:35,829

about an expert with

232

00:12:47,079 --> 00:12:44,199

well ex lead it is a journey question this

233

00:12:50,499 --> 00:12:47,089

is an experiment on white t-shirt indexes

234

00:12:51,610 --> 00:12:50,509

and quickly the how to do an experiment there god

235

00:12:55,420 --> 00:12:51,620

gee of flow

236

00:12:57,699 --> 00:12:55,430

angie of flow is mimicking the hall it

237

00:13:01,480 --> 00:12:57,709

would that out in a box would who did the

238

00:13:04,869 --> 00:13:01,490

experiment and white flows white and this

239

00:13:08,949 --> 00:13:04,879

atmosphere and and flows mental and then i

240

00:13:11,769 --> 00:13:08,959

an atmosphere around it so this is mimicking

241

00:13:12,610 --> 00:13:11,779

the the situation and whether the dress turned white the

242

00:13:16,240 --> 00:13:12,620

core

243

00:13:19,329 --> 00:13:16,250

it de mental and i chickens information

244

00:13:22,420 --> 00:13:19,339

for sample earthquakes a cost and

245

00:13:24,970 --> 00:13:22,430

and becomes the door the physics ar

246

00:13:27,400 --> 00:13:24,980

she becomes what's happening insight in

247

00:13:30,100 --> 00:13:27,410

south i hurt and that be similar to it's

248

00:13:33,220 --> 00:13:30,110

experiment in the flows science lab

249

00:13:35,710 --> 00:13:33,230

dvf in the coke muslim for lisa and it

250

00:13:41,950 --> 00:13:35,720

's a furry in three kings experiment

251  
00:13:52,390 --> 00:13:46,120  
okay andré look now i have the boat got

252  
00:13:58,750 --> 00:13:55,890  
who site all the biological flows physics

253  
00:14:01,330 --> 00:13:58,760  
and humor physiology experiment we

254  
00:14:03,910 --> 00:14:01,340  
ourselves technology experts oh baby weather

255  
00:14:07,390 --> 00:14:03,920  
testing the new technologies and one of

256  
00:14:10,750 --> 00:14:07,400  
those experiment specialized so bizarre

257  
00:14:14,200 --> 00:14:10,760  
is a system became tracks chips all over

258  
00:14:17,920 --> 00:14:14,210  
the world with a very interesting way to

259  
00:14:20,730 --> 00:14:17,930  
for for the the shipping industry to to

260  
00:14:24,460 --> 00:14:20,740  
know where all the chips on and this is

261  
00:14:25,540 --> 00:14:24,470  
it technology that is test it here from

262  
00:14:28,600 --> 00:14:25,550  
the space station

263  
00:14:34,380 --> 00:14:28,610

will so in this field we mean live one

264

00:14:37,950 --> 00:14:36,870

close life and check the way we can

265

00:14:40,230 --> 00:14:37,960

experience

266

00:14:42,060 --> 00:14:40,240

fat guy like pears textile we don't

267

00:14:44,130 --> 00:14:42,070

touch that one minutes you become on a

268

00:14:49,960 --> 00:14:44,140

chip' purmerend there is already ghul tapping

269

00:14:56,329 --> 00:14:53,119

you peter question i came a bit too

270

00:15:00,320 --> 00:14:57,740

again

271

00:15:02,870 --> 00:15:00,330

a confused warstein program data life

272

00:15:04,700 --> 00:15:02,880

and change the way you experience things

273

00:15:07,280 --> 00:15:04,710

bent line raging i suggest engines

274

00:15:09,020 --> 00:15:07,290

formation of you go through that revenge garden

275

00:15:10,430 --> 00:15:09,030

that take here are what china patrick

276

00:15:16,780 --> 00:15:10,440

doors are then it becomes french bull

277

00:15:23,540 --> 00:15:21,010

swim in the human telecommunications

278

00:15:24,850 --> 00:15:23,550

event app in satellite dots a

279

00:15:28,340 --> 00:15:24,860

ladder of

280

00:15:30,530 --> 00:15:28,350

interesting' possibilities lighthink bit

281

00:15:34,010 --> 00:15:30,540

too big change for simple is the gps the

282

00:15:39,290 --> 00:15:34,020

revue body it would soon this is the import

283

00:15:41,330 --> 00:15:39,300

and comforting development and concerning

284

00:15:44,530 --> 00:15:41,340

the fence yes lettingstraat have a

285

00:15:48,260 --> 00:15:44,540

around the world a week at very quickly

286

00:15:50,570 --> 00:15:48,270

online television screens it so bizarre

287

00:15:52,640 --> 00:15:50,580

even if you want to talk about and people

288

00:15:56,300 --> 00:15:52,650

who settings the who-who-who quickly get

289

00:16:02,710 --> 00:15:56,310

true true satellite but there dead well

290

00:16:16,400 --> 00:16:06,019

high grass drive by to my final issue

291

00:16:27,189 --> 00:16:19,340

okay okay final final question why they

292

00:16:33,530 --> 00:16:31,309

want to think that happens in space

293

00:16:51,889 --> 00:16:47,990

die frome de the muscles of your arms and

294

00:16:55,329 --> 00:16:51,899

lacks but if you heart muscle and so

295

00:16:59,210 --> 00:16:55,339

and become an expert man again is

296

00:17:01,519 --> 00:16:59,220

checking what the heart muscle is is I do

297

00:17:04,429 --> 00:17:01,529

so how you have an experiment cult video

298

00:17:07,250 --> 00:17:04,439

to match for simple and parts de

299

00:17:09,319 --> 00:17:07,260

experiment is so old irma app so what

300

00:17:12,079 --> 00:17:09,329

you see if there is the giant is combine

301

00:17:15,319 --> 00:17:12,089

expert my cell one site is is looking

302

00:17:17,149 --> 00:17:15,329

is the maximum oxygen uptake is to

303

00:17:19,610 --> 00:17:17,159

keep hearts quake and for

304

00:17:22,309 --> 00:17:19,620

deadlifts easy gee for or for civil

305

00:17:25,240 --> 00:17:22,319

war experiments for another country in

306

00:17:27,460 --> 00:17:25,250

this case der mark we have

307

00:17:31,899 --> 00:17:27,470

experiments how it

308

00:17:35,630 --> 00:17:31,909

how i become for brass roll over the heat

309

00:17:37,880 --> 00:17:35,640

dissipation header of the chest

310

00:17:40,159 --> 00:17:37,890

this is like there's a test to see how

311

00:17:42,140 --> 00:17:40,169

that happens in in michael gravity

312

00:17:43,820 --> 00:17:42,150

reviews

313

00:17:46,250 --> 00:17:43,830

interesting equipment for the oathcarn

314

00:17:49,760 --> 00:17:46,260

of experiment suis heften portable

315

00:17:52,330 --> 00:17:49,770

pulmonary function system with european

316

00:17:56,360 --> 00:17:52,340

die vice that who levy in the us not

317

00:17:58,250 --> 00:17:56,370

even get that one week war bike and we

318

00:18:00,860 --> 00:17:58,260

do maximum exercise for the view to

319

00:18:04,120 --> 00:18:00,870

mix and at the same time with like oh

320

00:18:07,250 --> 00:18:04,130

the temperature gradient so die safari

321

00:18:11,840 --> 00:18:07,260

free integrate the experiment intent

322

00:18:14,659 --> 00:18:11,850

here is to get this point scientist' with the

323

00:18:17,350 --> 00:18:14,669

the goal of getting better knowledge of

324

00:18:20,330 --> 00:18:17,360

how my body works our heart works and

325

00:18:27,860 --> 00:18:20,340

maybe am such cool applications or this

326

00:18:33,210 --> 00:18:30,539

okay andre-louis would understand that i

327

00:18:34,590 --> 00:18:33,220

work find for you can your child ever

328

00:18:41,600 --> 00:18:34,600

embryos

329

00:18:48,419 --> 00:18:44,970

from the arrow if i an experiment out

330

00:18:51,120 --> 00:18:48,429

this is the ronald experiment who this is

331

00:18:53,399 --> 00:18:51,130

with that often on cubica use that all so oh

332

00:18:55,759 --> 00:18:53,409

my oh my first flight

333

00:18:57,840 --> 00:18:55,769

en cubic is a very interesting

334

00:19:00,149 --> 00:18:57,850

small pilot

335

00:19:03,330 --> 00:19:00,159

this weekend must an iraq cavity in the

336

00:19:06,120 --> 00:19:03,340

ideal at european drone rack and so we

337

00:19:07,560 --> 00:19:06,130

lift for you back in the track and

338

00:19:09,750 --> 00:19:07,570

the heaven all warm white is a

339

00:19:12,180 --> 00:19:09,760

standalone and in there we lift

340

00:19:15,990 --> 00:19:12,190

wincubator weekend again for center

341

00:19:18,269 --> 00:19:16,000

future i can compare the situation where

342

00:19:20,159 --> 00:19:18,279

with samples that are under conditions

343

00:19:22,259 --> 00:19:20,169

gravity eyes but

344

00:19:25,649 --> 00:19:22,269

for sample radiation wiseguy and space

345

00:19:28,120 --> 00:19:25,659

conditions so white is way this way we

346

00:19:30,550 --> 00:19:28,130

here who do you have the means

347

00:19:32,770 --> 00:19:30,560

one and mini led on board for

348

00:19:35,650 --> 00:19:32,780

biological samples and the will be the expert

349

00:19:38,080 --> 00:19:35,660

for sample failure the die

350

00:19:39,730 --> 00:19:38,090

million system that to him that i can

351  
00:19:42,880 --> 00:19:39,740  
have all time of the font

352  
00:19:48,160 --> 00:19:42,890  
biologicals apples in the section furnies

353  
00:19:53,350 --> 00:19:51,060  
andré pdf those teachings from

354  
00:19:57,370 --> 00:19:53,360  
i ever here leaving from the

355  
00:20:02,110 --> 00:19:59,730  
that they pleasure

356  
00:20:05,760 --> 00:20:02,120  
and stacey and this is here to race year

357  
00:20:10,260 --> 00:20:08,280  
think here once

358  
00:20:12,420 --> 00:20:10,270  
and every year a new station but

359  
00:20:15,300 --> 00:20:12,430  
reflection operational video and audio

360  
00:20:17,700 --> 00:20:15,310  
comes and other your dad

361  
00:20:19,830 --> 00:20:17,710  
real that set common teal how do you find

362  
00:20:22,920 --> 00:20:19,840  
the hoi anne and truly cats wireless

363  
00:20:24,360 --> 00:20:22,930

dock imprint stalked with do

364

00:20:25,200 --> 00:20:24,370

you feel that coming out where that
