

1
00:00:36,470 --> 00:00:31,910
now i am going to be handing gifts

2
00:00:41,750 --> 00:00:39,430
european space agency

3
00:00:56,790 --> 00:00:41,760
andre kuipers

4
00:00:56,800 --> 00:01:00,950
please tell them

5
00:01:06,630 --> 00:01:04,149
these are our traditional gifts

6
00:01:08,710 --> 00:01:06,640
for a non-standard team based on our

7
00:01:10,710 --> 00:01:08,720
tradition allow me

8
00:01:13,350 --> 00:01:10,720
on behalf of the crew first of all to

9
00:01:15,429 --> 00:01:13,360
thank all of you who gathered here on

10
00:01:17,910 --> 00:01:15,439
the ground

11
00:01:18,870 --> 00:01:17,920
of karaganda on the earth of karaganda

12
00:01:21,670 --> 00:01:18,880
to

13
00:01:24,149 --> 00:01:21,680

express gratitude

14

00:01:26,870 --> 00:01:24,159

for your efforts and to extend the

15

00:01:28,710 --> 00:01:26,880

warmest wishes to all of you and they're

16

00:01:31,270 --> 00:01:28,720

promising that next time they're going

17

00:01:34,390 --> 00:01:31,280

to come out and greet you unfortunately

18

00:01:35,749 --> 00:01:34,400

today there was a not very typical case

19

00:01:39,030 --> 00:01:35,759

for us

20

00:01:41,590 --> 00:01:39,040

nevertheless the crew had a very long

21

00:01:44,550 --> 00:01:41,600

day they have performed a number of

22

00:01:46,630 --> 00:01:44,560

activities and the lensing was difficult

23

00:01:47,910 --> 00:01:46,640

so therefore it was a decision of the

24

00:01:51,109 --> 00:01:47,920

crew

25

00:01:55,830 --> 00:01:51,119

and unfortunately uh they are not here

26

00:01:58,630 --> 00:01:57,510

i would like to also

27

00:01:59,830 --> 00:01:58,640

give the

28

00:02:01,429 --> 00:01:59,840

podium

29

00:02:03,990 --> 00:02:01,439

to the

30

00:02:06,950 --> 00:02:04,000

commander of the russian air force the

31

00:02:11,350 --> 00:02:06,960

second subdivision gen major general

32

00:02:15,910 --> 00:02:13,750

dear friends

33

00:02:18,869 --> 00:02:15,920

i represent

34

00:02:20,470 --> 00:02:18,879

those very pilots who have

35

00:02:22,790 --> 00:02:20,480

made sure

36

00:02:24,949 --> 00:02:22,800

that evacuation of the cosmonauts took

37

00:02:25,990 --> 00:02:24,959

place from the lensing site

38

00:02:28,470 --> 00:02:26,000

uh

39

00:02:29,990 --> 00:02:28,480
rose aviation the second

40

00:02:33,190 --> 00:02:30,000
division

41

00:02:34,470 --> 00:02:33,200
of uh russian the air force

42

00:02:40,070 --> 00:02:34,480
and

43

00:02:42,949 --> 00:02:40,080
evacuation of cosmonauts from the sites

44

00:02:44,630 --> 00:02:42,959
this is our traditional gift uh they

45

00:02:52,710 --> 00:02:44,640
probably would want something sweet

46

00:02:59,670 --> 00:02:54,550
of course we will convey it to them for

47

00:02:59,680 --> 00:03:07,830
all the best to your best wishes

48

00:03:11,430 --> 00:03:09,990
of course i can answer but only in

49

00:03:12,630 --> 00:03:11,440
general

50

00:03:15,670 --> 00:03:12,640
that they

51
00:03:17,750 --> 00:03:15,680
have performed over 40 scientific

52
00:03:19,910 --> 00:03:17,760
experiment experiments who personally

53
00:03:22,229 --> 00:03:19,920
participate in

54
00:03:24,149 --> 00:03:22,239
scientific and technological experiments

55
00:03:25,910 --> 00:03:24,159
and

56
00:03:26,949 --> 00:03:25,920
his special

57
00:03:29,589 --> 00:03:26,959
goal

58
00:03:34,309 --> 00:03:33,190
to photograph the earth's surface

59
00:03:37,990 --> 00:03:34,319
during a

60
00:03:40,070 --> 00:03:38,000
response to a contingency situation

61
00:03:43,509 --> 00:03:40,080
and he has fulfilled all the goals of

62
00:03:45,509 --> 00:03:43,519
his flight program also based on his

63
00:03:47,509 --> 00:03:45,519

program

64

00:03:50,070 --> 00:03:47,519

he worked he participated in the

65

00:03:53,270 --> 00:03:50,080

activities with visiting vehicles and

66

00:03:54,550 --> 00:03:53,280

supported an eva

67

00:03:56,710 --> 00:03:54,560

and

68

00:03:58,830 --> 00:03:56,720

the program

69

00:04:01,750 --> 00:03:58,840

you know because it was slightly

70

00:04:04,309 --> 00:04:01,760

changed the laundry and the lending and

71

00:04:07,910 --> 00:04:04,319

launch program was slightly changed and

72

00:04:10,390 --> 00:04:07,920

so the duration was slightly extended

73

00:04:13,830 --> 00:04:10,400

over by over

74

00:04:16,710 --> 00:04:13,840

a month and that had an impact on the

75

00:04:19,990 --> 00:04:16,720

activities of the entire station however

76

00:04:21,189 --> 00:04:20,000

all the goals were fulfilled and

77

00:04:24,790 --> 00:04:21,199

there are even

78

00:04:28,950 --> 00:04:24,800

additional achievements in the area of

79

00:04:33,909 --> 00:04:30,790

and what what do you think because of

80

00:04:35,909 --> 00:04:33,919

the extended duration at the station is

81

00:04:38,550 --> 00:04:35,919

that why they feel

82

00:04:40,390 --> 00:04:38,560

worse well i don't know worse or better

83

00:04:43,670 --> 00:04:40,400

but

84

00:04:44,710 --> 00:04:43,680

the statistics statistical

85

00:04:47,350 --> 00:04:44,720

mean

86

00:04:49,590 --> 00:04:47,360

this flight is not anything phenomenal

87

00:04:50,629 --> 00:04:49,600

it has been tested

88

00:04:52,070 --> 00:04:50,639

and

89

00:04:55,670 --> 00:04:52,080

our

90

00:05:05,670 --> 00:04:55,680

prevention means that they have on board

91

00:05:09,350 --> 00:05:07,510

the vehicle commander

92

00:05:12,150 --> 00:05:09,360

bears a huge

93

00:05:16,070 --> 00:05:12,160

load responsibility for the

94

00:05:19,990 --> 00:05:18,230

and the results of preparation of the

95

00:05:21,990 --> 00:05:20,000

vehicle

96

00:05:23,189 --> 00:05:22,000

for a flight

97

00:05:25,270 --> 00:05:23,199

so

98

00:05:27,830 --> 00:05:25,280

the last day

99

00:05:30,629 --> 00:05:27,840

a person doesn't get any sleep before

100

00:05:30,639 --> 00:05:33,749

and

101

00:05:39,110 --> 00:05:35,830

therefore there is nothing

102

00:05:41,909 --> 00:05:39,120

unusual about the state and such a state

103

00:05:43,590 --> 00:05:41,919

after landing

104

00:05:48,629 --> 00:05:43,600

so everything is

105

00:05:48,639 --> 00:05:54,710

dear journalist journalist zero gifts

106

00:05:54,720 --> 00:05:59,590

thank you for your hospitality

107

00:06:06,309 --> 00:06:03,189

you know that the first cosmonaut uralux

108

00:06:07,590 --> 00:06:06,319

gagarin flew into space in 1960 but

109

00:06:09,830 --> 00:06:07,600

starting with

110

00:06:13,270 --> 00:06:09,840

1960

111

00:06:14,150 --> 00:06:13,280

two it's been over 50 years

112

00:06:16,390 --> 00:06:14,160

since

113

00:06:18,309 --> 00:06:16,400

we've been flying into space among them

114

00:06:23,909 --> 00:06:18,319

there was a woman

115

00:06:26,629 --> 00:06:23,919

and today is a special day for us

116

00:06:28,390 --> 00:06:26,639

uh because uh russian customs because

117

00:06:31,830 --> 00:06:28,400

the crew of the australians have landed

118

00:06:35,029 --> 00:06:31,840

on our karaganda land

119

00:06:36,629 --> 00:06:35,039

and we are proud to be hosts

120

00:06:39,110 --> 00:06:36,639

to this event

121

00:06:42,390 --> 00:06:40,309

may we

122

00:06:51,189 --> 00:06:42,400

send our best wishes wishes of best

123

00:06:51,199 --> 00:07:27,270

please give it to them

124

00:07:54,950 --> 00:07:28,830

thank

125

00:08:01,029 --> 00:07:58,150

you tell me

126

00:08:03,990 --> 00:08:01,039

well very weak and uh

127

00:08:06,150 --> 00:08:04,000

it's very hard to walk i cannot really

128

00:08:08,950 --> 00:08:06,160

walk people have to support me

129

00:08:10,950 --> 00:08:08,960

i feel first of all great that the the

130

00:08:14,869 --> 00:08:10,960

mission was a great success and we

131

00:08:18,469 --> 00:08:14,879

landed nominally so that is very nice

132

00:08:20,230 --> 00:08:18,479

so that is i'm pleased but i uh i really

133

00:08:21,589 --> 00:08:20,240

physically feel much worse than the

134

00:08:24,230 --> 00:08:21,599

first flight

135

00:08:27,430 --> 00:08:24,240

so it will take a long time to recover

136

00:08:28,950 --> 00:08:27,440

it's a very uh i get very dizzy when i

137

00:08:31,990 --> 00:08:28,960

move my head

138

00:08:34,310 --> 00:08:32,000

and uh the walking is uh really i have

139

00:08:37,430 --> 00:08:34,320

to learn walking from the beginning so
