5
00:01:41,399 --> 00:01:39,030
lead I greet you and welcome to our

6
00:01:43,529 --> 00:01:41,409
hospitable land of Baikonur and they

systems are ready for the final

9
00:01:55,559 --> 00:01:53,560
preparation stage of life so we are

10
00:04:36,230 --> 00:01:55,569
closing the official part of the

11
00:04:36,240 --> 00:05:14,300
sign in

12
00:05:14,310 --> 00:06:13,100
you

13
00:06:13,110 --> 00:06:47,210

drag

14

00:09:31,880 --> 00:09:03,220

No

15

00:09:31,890 --> 00:09:56,300

come on beautiful

16

00:10:02,370 --> 00:09:59,310

now the questions to the American

17

00:10:05,220 --> 00:10:02,380

astronaut sunita you will have to get

18

00:10:13,460 --> 00:10:05,230

familiarized with your vehicle are you

19

00:10:19,490 --> 00:10:17,120

yes of course the station is huge now it

20

00:10:23,360 --> 00:10:19,500

will be very interesting for me to get

21

00:10:27,190 --> 00:10:23,370

to know the new station during the fit

22

00:10:29,960 --> 00:10:27,200

check it was very touching that you

23

00:10:32,120 --> 00:10:29,970

embraced each other so and it was your

24

00:10:35,480 --> 00:10:32,130

initiative it means that the team is

25

00:10:41,470 --> 00:10:35,490

very United and friendly so the man

26

00:10:48,520 --> 00:10:46,010

of course of course they are we have

27

00:10:51,440 --> 00:10:48,530

been working together for two and living

28

00:11:28,009 --> 00:10:51,450

getting close to each other for two

29

00:11:33,140 --> 00:11:31,260

thank you but thank you very much

30

00:11:49,970 --> 00:11:33,150

from the minute

31

00:11:49,980 --> 00:12:31,860

forgive us

32

00:12:31,870 --> 00:16:41,330

if you don't

33

00:17:29,160 --> 00:17:07,670

his penis Ned Ramos I get them to my god

34

00:17:37,509 --> 00:17:29,170

will stay let's get what this little

35

00:17:43,370 --> 00:17:40,669

so this is a tradition since the

36

00:17:45,490 --> 00:17:43,380

beginning of the flight program here all

37

00:17:48,740 --> 00:17:45,500

the astronauts who are going to fly

38

00:17:51,259 --> 00:17:48,750

plant a tree here and you probably saw

39

00:17:52,850 --> 00:17:51,269

where we were walking there's the older

40

00:17:55,279 --> 00:17:52,860

trees from the very beginning and then

41

00:17:59,269 --> 00:17:55,289

now we have the nutrient it symbolizes

42

00:18:07,820 --> 00:17:59,279

you know working together and what we

43

00:18:16,850 --> 00:18:07,830

can do on this planet thank you debating

44

00:18:20,480 --> 00:18:19,220

some credit for a future cope with me

45

00:18:24,700 --> 00:18:20,490

because you're very experienced

46

00:18:30,950 --> 00:18:24,710

astronaut how hard is it to work in

47

00:18:33,200 --> 00:18:30,960

space interesno vopros it's an

48

00:18:37,580 --> 00:18:33,210

interesting question of oxygens this

49

00:18:41,570 --> 00:18:37,590

it's just like like life on Earth also

50

00:18:43,789 --> 00:18:41,580

need yellow very hard reason I am still

51
00:18:47,270 --> 00:18:43,799
at dawn we know what to do on the

52
00:18:50,090 --> 00:18:47,280
station menahga we have lots of things

53
00:18:53,390 --> 00:18:50,100
on our list food is using it will be

54
00:18:56,780 --> 00:18:53,400
just like life we'll live our life

55
00:18:58,970 --> 00:18:56,790
onboard the station see create a large

56
00:19:05,539 --> 00:18:58,980
mirror booted c'mon we have a secret of

57
00:19:09,890 --> 00:19:05,549
teamwork do my with ranch hm I think it

58
00:19:12,440 --> 00:19:09,900
comes before becoming pilot first we've

59
00:19:14,990 --> 00:19:12,450
been working together for over in two

60
00:19:17,390 --> 00:19:15,000
years with just like a family we know

61
00:19:20,510 --> 00:19:17,400
each other very well the new generation

62
00:19:23,960 --> 00:19:20,520
of boomer we know where we need to help

63
00:19:28,299 --> 00:19:23,970

each other or where the person is able

64

00:19:32,990 --> 00:19:28,309

to do it on his or her own so commander

65

00:19:36,890 --> 00:19:33,000

we we are one cruel not included I could

66

00:19:39,830 --> 00:19:36,900

you said it's just like life it's how do

67

00:19:43,150 --> 00:19:39,840

you relax in this life in space can your

68

00:19:46,400 --> 00:19:43,160

snow yes it's interesting question too

69

00:19:50,299 --> 00:19:46,410

sometimes we do regular things like we

70

00:19:53,570 --> 00:19:50,309

do on words we watch movies into the

71

00:19:58,490 --> 00:19:53,580

semester but it's such a fascinating

72

00:20:03,110 --> 00:19:58,500

place and you can view look out of the

73

00:20:06,500 --> 00:20:03,120

window and my my we also take pictures

74

00:20:09,919 --> 00:20:06,510

and was much better watching she stopped

75

00:20:13,330 --> 00:20:09,929

mr. rock with camera so it's absolutely

76

00:20:16,039 --> 00:20:13,340

beautiful place and what about books

77

00:20:18,680 --> 00:20:16,049

luminaria stupid didn't I have one book

78

00:20:22,490 --> 00:20:18,690

was made at the open issues the Indy ski

79

00:20:26,470 --> 00:20:22,500

it's a bit soft nation so the Indian

80

00:20:29,409 --> 00:20:26,480

tradition and culture malinka Camille

81

00:20:34,210 --> 00:20:29,419

so it's a small book thank you with

82

00:20:36,720 --> 00:20:34,220

bossiness yes i miss a dose and told me

83

00:20:40,960 --> 00:20:36,730

that you like to sing in your free time

84

00:20:43,090 --> 00:20:40,970

would you sing us a song yes she said

85

00:20:49,299 --> 00:20:43,100

that so she should sing let's stay

86

00:20:51,070 --> 00:20:49,309

together really tell us about you so you

87

00:20:54,190 --> 00:20:51,080

don't want to sing for us a little bit

88

00:20:56,289 --> 00:20:54,200

later a bit later in space okay so we'll

89

00:23:24,350 --> 00:20:56,299

be looking forward to it thank you so

90

00:23:38,220 --> 00:23:26,080

sunny

91

00:24:09,690 --> 00:23:41,560

thank you son

92

00:24:14,680 --> 00:24:12,490

next time we'll be getting be in outer

93

00:24:16,570 --> 00:24:14,690

space suits getting in and so I think

94

00:24:23,000 --> 00:24:16,580

it's ready for us and we're ready for it

95

00:24:23,010 --> 00:24:56,320

he was it

96

00:25:00,639 --> 00:24:58,480

this is pretty darn cool this is the

97

00:25:35,769 --> 00:25:00,649

business end of the rocket and that's

98

00:25:35,779 --> 00:25:40,130

play

99

00:25:40,140 --> 00:26:42,930

so

100

00:26:48,160 --> 00:26:46,030

it's a wonderful museum you're having

101

00:26:50,740 --> 00:26:48,170

here every time I come here it's very
