

1
00:00:07,430 --> 00:00:05,829
and our first view from external cameras

2
00:00:09,750 --> 00:00:07,440
on the international space station

3
00:00:12,070 --> 00:00:09,760
showing the soyuz vehicle you can

4
00:00:13,990 --> 00:00:12,080
clearly see its thruster firings all

5
00:00:16,470 --> 00:00:14,000
automatically commanded

6
00:00:19,029 --> 00:00:16,480
as the soyuz and the international space

7
00:00:23,269 --> 00:00:19,039
station passed 252 miles over western

8
00:00:26,230 --> 00:00:25,349
yuri malenchenko has begun his fly

9
00:00:28,230 --> 00:00:26,240
around

10
00:00:30,950 --> 00:00:28,240
to precisely align the forward docking

11
00:00:34,150 --> 00:00:30,960
probe on the soyuz with the docking port

12
00:00:35,190 --> 00:00:34,160
on the rossviet module again uh rossviet

13
00:00:36,950 --> 00:00:35,200

was the

14

00:00:38,869 --> 00:00:36,960

docking

15

00:00:41,990 --> 00:00:38,879

module if you will that was delivered to

16

00:00:43,830 --> 00:00:42,000

the nader or earth-facing port of the

17

00:00:46,790 --> 00:00:43,840

zarya module of the international space

18

00:00:51,990 --> 00:00:46,800

station on the sts-132 mission

19

00:00:55,350 --> 00:00:54,069

as the core's automated rendezvous

20

00:00:57,510 --> 00:00:55,360

system

21

00:00:59,510 --> 00:00:57,520

positions the soyuz for its precise

22

00:01:02,150 --> 00:00:59,520

alignment of the rassvet module on the

23

00:01:03,029 --> 00:01:02,160

earth-facing port of the zarya module

24

00:01:04,789 --> 00:01:03,039

in the

25

00:01:07,030 --> 00:01:04,799

lower portion of your screen you can see

26
00:01:08,550 --> 00:01:07,040
various elements of the us segment of

27
00:01:10,469 --> 00:01:08,560
the international space station just

28
00:01:13,109 --> 00:01:10,479
right at that crosshairs

29
00:01:14,469 --> 00:01:13,119
you can see the quest airlock just

30
00:01:16,070 --> 00:01:14,479
on the upper right

31
00:01:18,469 --> 00:01:16,080
quadrant

32
00:01:20,310 --> 00:01:18,479
that quest airlock to be used in late

33
00:01:22,230 --> 00:01:20,320
august in just a few weeks by sunny

34
00:01:25,109 --> 00:01:22,240
williams and aki hoshide

35
00:01:27,749 --> 00:01:25,119
for a u.s based spacewalk to replace an

36
00:01:29,350 --> 00:01:27,759
ailing main bus switching unit a power

37
00:01:32,390 --> 00:01:29,360
unit on the truss of the international

38
00:01:36,390 --> 00:01:32,400

space station and to lay some cabling

39

00:01:38,390 --> 00:01:36,400

for the arrival in late 2013 of the next

40

00:01:40,710 --> 00:01:38,400

russian module called the multipurpose

41

00:01:42,310 --> 00:01:40,720

laboratory module that will be launched

42

00:01:49,990 --> 00:01:42,320

to the international space station to

43

00:01:50,000 --> 00:01:54,550

prepare group led

44

00:02:00,230 --> 00:01:57,350

final approach parameters are nominal

45

00:02:02,789 --> 00:02:00,240

and we are aligned with the now flying

46

00:02:04,230 --> 00:02:02,799

over northwest kazakhstan just 40 meters

47

00:02:06,630 --> 00:02:04,240

away from the international space

48

00:02:07,990 --> 00:02:06,640

station the three section soyuz vehicle

49

00:02:09,749 --> 00:02:08,000

the forward section is the orbital

50

00:02:11,990 --> 00:02:09,759

module with the forward docking probe

51
00:02:15,350 --> 00:02:12,000
extended ready to come into contact with

52
00:02:17,670 --> 00:02:15,360
the rassvet module docking port the crew

53
00:02:21,030 --> 00:02:17,680
malenchenko williams and hoshide are in

54
00:02:23,190 --> 00:02:21,040
their contoured custom-made seat liners

55
00:02:24,710 --> 00:02:23,200
in the center section the descent module

56
00:02:26,790 --> 00:02:24,720
the only portion of the soyuz that

57
00:02:28,390 --> 00:02:26,800
returns to earth and at the very back

58
00:02:29,910 --> 00:02:28,400
end that white section with the solar

59
00:02:32,070 --> 00:02:29,920
rays is the instrumentation and

60
00:02:33,990 --> 00:02:32,080
propulsion module obviously where the

61
00:02:38,309 --> 00:02:34,000
propellant tanks and the engines are

62
00:02:45,030 --> 00:02:40,790
all parameters are within the range

63
00:02:49,110 --> 00:02:47,430

hockey

64

00:02:51,110 --> 00:02:49,120

you can see the coors automated

65

00:02:53,110 --> 00:02:51,120

rendezvous system the crosshairs and

66

00:02:54,550 --> 00:02:53,120

this engineering view uh just about

67

00:02:58,229 --> 00:02:54,560

perfectly aligned with the docking

68

00:02:58,239 --> 00:03:02,229

standing by for contact

69

00:03:02,239 --> 00:03:16,229

so let me show

70

00:03:22,550 --> 00:03:20,630

confirmed at 11 51 pm central time 12 51

71

00:03:24,869 --> 00:03:22,560

a.m eastern time over northeast

72

00:03:26,789 --> 00:03:24,879

kazakhstan

73

00:03:28,630 --> 00:03:26,799

so on the 37th anniversary of that

74

00:03:30,550 --> 00:03:28,640

famous handshake in space by tom

75

00:03:32,470 --> 00:03:30,560

stafford and alexi leonov during the

76

00:03:34,550 --> 00:03:32,480

apollo soyuz mission

77

00:03:39,990 --> 00:03:34,560

another union of cruise takes place to

78

00:03:40,000 --> 00:03:43,190

it is okay

79

00:03:49,110 --> 00:03:46,149

okay let me know when to switch to

80

00:03:49,120 --> 00:03:53,270

and there is the hatch opening

81

00:03:57,270 --> 00:03:55,750

okay yes that was

82

00:03:59,110 --> 00:03:57,280

returning to the international space

83

00:04:01,110 --> 00:03:59,120

station first to float in and be greeted

84

00:04:05,429 --> 00:04:01,120

by the residents of the complex sunny

85

00:04:05,439 --> 00:04:08,630

something is pausing

86

00:04:08,640 --> 00:04:11,509

okay

87

00:04:15,270 --> 00:04:13,589

i did not caught you william spent

88

00:04:17,590 --> 00:04:15,280

almost 200 days on board the

89

00:04:19,909 --> 00:04:17,600

international space station in 2006 and

90

00:04:22,069 --> 00:04:19,919

2007 and there is the veteran russian

91

00:04:23,990 --> 00:04:22,079

cosmonaut jerry malenchenko

92

00:04:26,310 --> 00:04:24,000

floating into the rassvet module being

93

00:04:29,110 --> 00:04:26,320

greeted by revan acaba and padalka all

94

00:04:33,350 --> 00:04:29,120

six crew members now together on board

95

00:04:36,550 --> 00:04:35,189

the official opening of the hatch is

96

00:04:41,189 --> 00:04:36,560

coming at

97

00:04:42,550 --> 00:04:41,199

11 23 a.m moscow time 2 23 a.m

98

00:04:45,830 --> 00:04:42,560

central time

99

00:04:47,990 --> 00:04:45,840

on tuesday morning july 17th on the 37th

100

00:04:50,710 --> 00:04:48,000

anniversary of the docking of apollo and

101
00:04:53,510 --> 00:04:50,720
soyuz in that historic mission uh more

102
00:04:55,030 --> 00:04:53,520
than three decades ago

103
00:04:59,830 --> 00:04:55,040
moscow if you can read us in space to

104
00:05:04,950 --> 00:05:03,430
guys we can see you really really clear

105
00:05:08,230 --> 00:05:04,960
how do you read us we read you loud and

106
00:05:09,990 --> 00:05:08,240
clear read you five by five

107
00:05:11,110 --> 00:05:10,000
good morning this is mr

108
00:05:14,629 --> 00:05:11,120
well first of all i wanted to

109
00:05:16,310 --> 00:05:14,639
congratulate you on a successful docking

110
00:05:18,310 --> 00:05:16,320
i wanted to say congratulations on

111
00:05:20,390 --> 00:05:18,320
having once again extended the crew to a

112
00:05:22,070 --> 00:05:20,400
full complement of six

113
00:05:24,629 --> 00:05:22,080

i'm real thrilled to see all of you in

114

00:05:27,270 --> 00:05:24,639

good health and then great spirits

115

00:05:30,070 --> 00:05:27,280

have a successful mission

116

00:05:32,150 --> 00:05:30,080

the question to the newly arrived crew

117

00:05:33,749 --> 00:05:32,160

what are the first impressions of having

118

00:05:36,830 --> 00:05:33,759

just arrived on the station what does it

119

00:05:42,390 --> 00:05:40,469

like great it's just like a homecoming

120

00:05:44,230 --> 00:05:42,400

of sorts

121

00:05:46,230 --> 00:05:44,240

but we can see right away that some

122

00:05:48,629 --> 00:05:46,240

things have changed

123

00:05:49,909 --> 00:05:48,639

but it's in great condition the crew

124

00:05:52,710 --> 00:05:49,919

looks great

125

00:05:55,670 --> 00:05:52,720

in good spirits too so we're happy to be

126

00:05:58,230 --> 00:05:57,029

what were the first things that they

127

00:06:01,749 --> 00:05:58,240

said to you because they've been waiting

128

00:06:14,629 --> 00:06:03,590

the first things they said

129

00:06:17,990 --> 00:06:16,070

it's too bad that we can't hear them say

130

00:06:19,350 --> 00:06:18,000

but if we could then we would have them

131

00:06:21,350 --> 00:06:19,360

answer the following question what do

132

00:06:24,550 --> 00:06:21,360

they have prepared for you as far as the

133

00:06:28,230 --> 00:06:24,560

welcoming ceremony today

134

00:06:31,909 --> 00:06:29,749

this is uh

135

00:06:33,189 --> 00:06:31,919

mr davidoff good to hear you and see you

136

00:06:34,550 --> 00:06:33,199

again

137

00:06:35,990 --> 00:06:34,560

what do you have them uh what do you

138

00:06:38,710 --> 00:06:36,000

have prepared for them what are the

139

00:06:43,029 --> 00:06:40,469

140

00:06:45,189 --> 00:06:43,039

141

00:06:47,510 --> 00:06:45,199

full blast everything's ready the

142

00:06:48,390 --> 00:06:47,520

vehicle's ready the station's ready

143

00:06:49,110 --> 00:06:48,400

we got

144

00:06:50,309 --> 00:06:49,120

good

145

00:06:51,350 --> 00:06:50,319

hot food

146

00:06:52,790 --> 00:06:51,360

you know because all those things are

147

00:06:54,790 --> 00:06:52,800

quite complicated on the vehicle and

148

00:06:59,270 --> 00:06:54,800

station is home

149

00:06:59,280 --> 00:07:08,950

heart rate the best pulse all the

154
00:07:41,189 --> 00:07:38,560
biometric data that we've been getting

155
00:07:46,550 --> 00:07:41,199
from you was just exactly on the money

156
00:07:51,270 --> 00:07:48,629
and congratulations on having completed

157
00:07:53,029 --> 00:07:51,280
this part of your mission

158
00:07:59,589 --> 00:07:53,039
congratulations on once again being a

159
00:08:04,390 --> 00:08:02,550
and as a quick reminder stay on

160
00:08:07,029 --> 00:08:04,400

161
00:08:08,710 --> 00:08:07,039
follow your instructions to the letter

162
00:08:12,150 --> 00:08:08,720
good luck

163
00:08:16,710 --> 00:08:15,029

congratulations this is mr krasnov

164

00:08:19,589 --> 00:08:16,720

you're on the station now

165

00:08:21,670 --> 00:08:19,599

it was a remarkable launch

166

00:08:23,670 --> 00:08:21,680

the docking event today was equally as

167

00:08:28,070 --> 00:08:23,680

remarkable

168

00:08:32,389 --> 00:08:29,510

and it's a wonderful day today because

169

00:08:35,430 --> 00:08:32,399

we are today celebrating the 37th

170

00:08:38,829 --> 00:08:35,440

anniversary of the apollo soyuz docking

171

00:08:41,350 --> 00:08:38,839

and it's very symbolic for sure

172

00:08:44,070 --> 00:08:41,360

um we've already heard a lot of good

173

00:08:46,550 --> 00:08:44,080

things from our colleagues

174

00:08:47,829 --> 00:08:46,560

from the entire international

175

00:08:50,630 --> 00:08:47,839

partnership

176

00:08:51,990 --> 00:08:50,640

for another 37 years at least of our

177

00:08:54,310 --> 00:08:52,000

international

178

00:08:56,310 --> 00:08:54,320

cooperation to develop to make great

179

00:08:58,389 --> 00:08:56,320

strides in space

180

00:09:04,310 --> 00:08:58,399

keep up the pace congratulations you're

181

because you know how i love to do this

230

00:14:16,629 --> 00:14:14,389

and mom and dad give their love

231

00:14:18,629 --> 00:14:16,639

and they had great launch events

232

00:14:22,389 --> 00:14:18,639

but tell us how how did it go how was

233

00:14:26,550 --> 00:14:24,710

our trip was fun actually it was like

234

00:14:28,790 --> 00:14:26,560

camping and now we're you know at a nice

235

00:14:29,829 --> 00:14:28,800

hotel but seriously we got a lot of

00:14:31,750 --> 00:14:29,839

sleep

237

00:14:35,110 --> 00:14:31,760

we had to do a little bit of work and a

238

00:14:37,030 --> 00:14:35,120

lot to eat so we feel pretty good

239

00:14:45,670 --> 00:14:37,040

our hair looks pretty good my hair is

240

00:14:48,870 --> 00:14:47,430

it was a lot of fun the soyuz is a

242

00:14:52,629 --> 00:14:50,720

unique vehicle and

243

00:14:54,710 --> 00:14:52,639

it's it's pretty neat to watch it do its

244

00:14:56,470 --> 00:14:54,720

thing and it you know it's it's pretty

245

00:14:58,870 --> 00:14:56,480

magical watching it come in and dock it

246

00:15:00,629 --> 00:14:58,880
