

1
00:00:42,869 --> 00:00:41,030
and we have first motion the shuttle

2
00:00:44,470 --> 00:00:42,879
carrier aircraft and space shuttle

3
00:00:47,110 --> 00:00:44,480
endeavor

4
00:00:50,549 --> 00:00:47,120
beginning to thunder down

5
00:00:53,510 --> 00:00:50,559
shuttle landing facility runway 1-5

6
00:00:56,709 --> 00:00:53,520
heading to the southeast

7
00:01:18,469 --> 00:00:56,719
taking to the skies for one last time

8
00:01:18,479 --> 00:01:31,109
so

9
00:01:41,830 --> 00:01:34,710
and wheels up unofficially at 7 22 a.m

10
00:01:44,870 --> 00:01:43,990
space shuttle endeavour soaring

11
00:01:47,510 --> 00:01:44,880
atop

12
00:01:50,230 --> 00:01:47,520
nasa's shuttle carrier aircraft about to

13
00:02:07,910 --> 00:01:50,240

begin a 20-minute flyover of the space

14

00:02:19,990 --> 00:02:10,710

the aircraft will remain about 1500 feet

15

00:02:24,630 --> 00:02:21,750

turn toward the coast

16

00:02:27,430 --> 00:02:24,640

conduct a flyover

17

00:02:30,390 --> 00:02:27,440

of kennedy space center

18

00:02:36,229 --> 00:02:30,400

cape canaveral air force station

19

00:02:36,239 --> 00:02:44,390

where onlookers are gathered

20

00:02:44,400 --> 00:02:48,470

nasa television will

21

00:02:53,750 --> 00:02:51,110

cover this entire flyover

22

00:02:55,589 --> 00:02:53,760

as best we can

23

00:02:57,990 --> 00:02:55,599

the shuttle and the shuttle carrier

24

00:02:59,750 --> 00:02:58,000

aircraft will head to the south and

25

00:03:01,350 --> 00:02:59,760

out of range of our cameras but then

26
00:03:02,869 --> 00:03:01,360
we'll come back toward kennedy space

27
00:03:04,710 --> 00:03:02,879
center for one final pass over the

28
00:03:09,750 --> 00:03:04,720
shuttle landing facility in about 20

29
00:03:13,430 --> 00:03:11,990
during this flyover the shuttle carrier

30
00:03:15,830 --> 00:03:13,440
aircraft will

31
00:03:20,229 --> 00:03:15,840
continue south along the beach

32
00:03:20,239 --> 00:03:26,710
or patrick air force base

33
00:03:30,470 --> 00:03:28,789
and then turn inland

34
00:03:34,070 --> 00:03:30,480
and fly north

35
00:03:37,910 --> 00:03:35,589
heading back toward the kennedy space

36
00:03:39,910 --> 00:03:37,920
center visitor complex

37
00:03:44,550 --> 00:03:39,920
and back to the shuttle landing facility

38
00:03:50,390 --> 00:03:47,589

wagging its wings and

39

00:04:06,949 --> 00:03:50,400

turning north and then west

40

00:04:32,150 --> 00:04:19,670

so

41

00:04:36,230 --> 00:04:34,310

it's accompanied by the pathfinder at an

42

00:05:03,110 --> 00:04:36,240

asset t-38 jet

43

00:05:03,120 --> 00:05:15,430

uh

44

00:05:19,830 --> 00:05:16,950

view once again from the shuttle landing

45

00:05:24,790 --> 00:05:21,909

as the shuttle carrier aircraft and

46

00:05:48,390 --> 00:05:24,800

endeavour

47

00:05:58,870 --> 00:05:50,150

descending toward

48

00:06:05,590 --> 00:06:00,629

once again a view from the top of the

49

00:06:12,150 --> 00:06:07,749

of you familiar as we've watched many a

50

00:06:15,510 --> 00:06:13,990

this time not a landing but a low

51

00:06:17,510 --> 00:06:15,520

flyover

52

00:06:20,150 --> 00:06:17,520

and a goodbye

53

00:06:21,749 --> 00:06:20,160

to kennedy space center from the shuttle

54

00:06:58,150 --> 00:06:21,759

carrier aircraft
