

1
00:00:18,310 --> 00:00:14,910
all we can

2
00:00:31,189 --> 00:00:18,320
get experience but what's after doing

3
00:00:31,199 --> 00:00:56,630
um

4
00:00:56,640 --> 00:01:07,109
hi

5
00:01:07,119 --> 00:01:24,390
dear friends let's move in

6
00:01:24,400 --> 00:01:37,109
oh

7
00:01:37,119 --> 00:01:47,590
okay

8
00:01:47,600 --> 00:02:09,589
i always tell people

9
00:02:09,599 --> 00:02:41,830
foreign

10
00:02:41,840 --> 00:03:16,710
they're not already

11
00:03:16,720 --> 00:03:42,869
this is very wide

12
00:03:42,879 --> 00:04:10,550
is

13
00:04:10,560 --> 00:04:41,110

foreign

14

00:04:41,120 --> 00:04:56,469

yes

15

00:04:56,479 --> 00:05:20,310

anthony

16

00:05:26,950 --> 00:05:21,830

families please

17

00:05:26,960 --> 00:06:18,950

please move slightly

18

00:06:27,189 --> 00:06:20,870

especially for you

19

00:06:27,199 --> 00:06:30,629

so now i have some questions for you

20

00:06:33,670 --> 00:06:32,390

what's your impressions so what do you

21

00:06:34,870 --> 00:06:33,680

think what do you think about your

22

00:06:37,670 --> 00:06:34,880

launch

23

00:06:40,550 --> 00:06:37,680

we're fully ready we're happy we're glad

24

00:06:44,150 --> 00:06:42,309

please look at the cameras

25

00:06:50,390 --> 00:06:44,160

what camera why respond the person who

26
00:06:53,830 --> 00:06:52,150
how many experiments are planned what

27
00:06:55,909 --> 00:06:53,840
are the most interesting for you what

28
00:06:57,670 --> 00:06:55,919
are you expecting from them

29
00:07:00,550 --> 00:06:57,680
all of them are important for us

30
00:07:03,029 --> 00:07:00,560
around 50 are planned

31
00:07:04,790 --> 00:07:03,039
so we would really like to fulfill all

32
00:07:07,029 --> 00:07:04,800
of them so that those who ordered them

33
00:07:08,870 --> 00:07:07,039
are happy

34
00:07:09,909 --> 00:07:08,880
personally for you what we'd like to try

35
00:07:11,990 --> 00:07:09,919
to do

36
00:07:15,830 --> 00:07:12,000
i'll go and try everything then i'll

37
00:07:20,629 --> 00:07:17,189
i'm going to

38
00:07:22,230 --> 00:07:20,639

write a blog or to take pictures or what

39

00:07:25,189 --> 00:07:22,240

we'll try to

40

00:07:27,749 --> 00:07:25,199

write a blog if you have a possibility

41

00:07:30,230 --> 00:07:27,759

probably we'll be sending downlinking as

42

00:07:32,230 --> 00:07:30,240

many photos as possible videos for the

43

00:07:34,309 --> 00:07:32,240

family and friends

44

00:07:35,990 --> 00:07:34,319

colleagues

45

00:07:38,629 --> 00:07:36,000

are going to

46

00:07:41,430 --> 00:07:38,639

meet new year's in orbit how going to a

47

00:07:43,110 --> 00:07:41,440

greater family how going to

48

00:07:44,790 --> 00:07:43,120

talk to them

49

00:07:46,790 --> 00:07:44,800

well we'll try to maintain communication

50

00:07:48,070 --> 00:07:46,800

as much as possible i don't think we're

51

00:07:49,990 --> 00:07:48,080

bored

52

00:07:52,309 --> 00:07:50,000

and it's great to

53

00:07:56,950 --> 00:07:52,319

have new years in space i will keep

54

00:08:01,589 --> 00:07:58,390

do you have that feeling you're just

55

00:08:04,550 --> 00:08:03,270

if not then the one to expect this

56

00:08:06,550 --> 00:08:04,560

feeling to

57

00:08:08,469 --> 00:08:06,560

show up

58

00:08:10,790 --> 00:08:08,479

i think this thing is there once you've

59

00:08:14,629 --> 00:08:10,800

become a part of the cosmonaut core

60

00:08:19,189 --> 00:08:14,639

just need to make a few final steps on

61

00:08:32,870 --> 00:08:21,510

how often will we be able to talk to

62

00:08:36,469 --> 00:08:35,110

there is no mediator we have good

63

00:08:38,230 --> 00:08:36,479

friends and

64

00:08:40,310 --> 00:08:38,240

our friends are always there for us for

65

00:08:42,630 --> 00:08:40,320

nasa tv for kevin you're leaving today

66

00:08:44,149 --> 00:08:42,640

from star city russia for two weeks for

67

00:08:45,590 --> 00:08:44,159

for baikonur kazakhstan how are you

68

00:08:47,509 --> 00:08:45,600

going to be spending your remaining two

69

00:08:49,110 --> 00:08:47,519

weeks down there prior to launch

70

00:08:50,790 --> 00:08:49,120

well the reason we're leaving today is

71

00:08:52,310 --> 00:08:50,800

uh so that we can get down there for our

72

00:08:53,990 --> 00:08:52,320

fit check tomorrow our first series of

73

00:08:55,990 --> 00:08:54,000

fit checks it'll be the first time we

74

00:08:58,070 --> 00:08:56,000

see the real spacecraft

75

00:08:59,509 --> 00:08:58,080

in in baikonur so we'll climb in

76
00:09:00,630 --> 00:08:59,519
tomorrow in flight suits have a chance

77
00:09:03,110 --> 00:09:00,640
to spend some time looking over the

78
00:09:04,710 --> 00:09:03,120
spacecraft and in shirt sleeves if you

79
00:09:06,630 --> 00:09:04,720
will and then we'll put on our

80
00:09:08,230 --> 00:09:06,640
spacesuits in the afternoon and we'll

81
00:09:09,910 --> 00:09:08,240
strap in just like we would for a little

82
00:09:11,829 --> 00:09:09,920
launch and we'll be able to look over

83
00:09:13,269 --> 00:09:11,839
the exterior of the spacecraft we'll do

84
00:09:15,350 --> 00:09:13,279
one more fit check like that just a

85
00:09:17,910 --> 00:09:15,360
little bit later but by then the

86
00:09:19,269 --> 00:09:17,920
spacecraft will be underneath the shroud

87
00:09:20,230 --> 00:09:19,279
ready to put on the rocket so we won't

88
00:09:22,230 --> 00:09:20,240

be able to see the outside of the

89

00:09:23,670 --> 00:09:22,240

spacecraft and that'll be after a final

90

00:09:25,269 --> 00:09:23,680

loading and everything is done as well

91

00:09:27,030 --> 00:09:25,279

so we'll be able to see how everything

92

00:09:29,269 --> 00:09:27,040

is going to look when we crawl in

93

00:09:31,269 --> 00:09:29,279

for launch day there's also a period of

94

00:09:34,150 --> 00:09:31,279

quarantine so we're just kind of having

95

00:09:35,430 --> 00:09:34,160

some some rest and relaxation but also

96

00:09:37,750 --> 00:09:35,440

we'll study every day with our

97

00:09:39,990 --> 00:09:37,760

instructors that come down with us and

98

00:09:42,230 --> 00:09:40,000

be fully as fully prepared as we can be

99

00:09:44,310 --> 00:09:42,240

when launch day comes relaxed

100

00:09:48,630 --> 00:09:44,320

prepared current and uh and all ready to

101
00:09:48,640 --> 00:09:52,230
kevin and russian players

102
00:09:57,509 --> 00:09:53,990
do you have any kind of fear that it's

103
00:10:00,949 --> 00:09:59,670
no no fear because we've learned

104
00:10:11,750 --> 00:10:00,959
everything

105
00:10:15,990 --> 00:10:13,509
are there any differences between flying

106
00:10:17,030 --> 00:10:16,000
as a backup crew and as primer crew

107
00:10:19,269 --> 00:10:17,040
of course

108
00:10:22,790 --> 00:10:19,279
remember backups we came back home and

109
00:10:28,230 --> 00:10:24,870
but there probably was a possibility no

110
00:10:34,470 --> 00:10:30,310
this time we're going to fly that time

111
00:10:34,480 --> 00:10:48,790
thank you very much

112
00:10:48,800 --> 00:11:12,389
foreign

113
00:11:12,399 --> 00:11:29,509

oh never
