00:00:07,349 --> 00:00:06,070
the right and the left buttons

2
00:00:08,790 --> 00:00:07,359
what did you say

3
00:00:13,270 --> 00:00:08,800
what do we need to do

4
00:00:17,670 --> 00:00:15,509
and our first view from cameras on the

5
00:00:20,470 --> 00:00:17,680
international space station of the soyuz

6
00:00:21,910 --> 00:00:20,480
as it continues what so far has been a

7
00:00:24,710 --> 00:00:21,920
flawless approach

8
00:00:28,150 --> 00:00:24,720
for docking to the poisk module the two

9
00:00:30,310 --> 00:00:28,160
spacecraft traveling 254 statute miles

10
00:00:32,470 --> 00:00:30,320
just off the northeast coast of south

11
00:00:35,430 --> 00:00:32,480
america moving from southwest to

12
00:00:41,830 --> 00:00:35,440
northeast in an orbit inclined 51.6

13
00:00:50,310 --> 00:00:42,830

440

14

00:00:59,110 --> 00:00:52,709

the angular size

15

00:01:03,270 --> 00:01:01,430

the soyuz are continuing an automated

16

00:01:05,509 --> 00:01:03,280

approach to the core's automated

17

00:01:07,910 --> 00:01:05,519

rendezvous system

18

00:01:09,109 --> 00:01:07,920

it is honing in on the beginning of the

19

00:01:13,109 --> 00:01:09,119

fly around

20

00:01:15,670 --> 00:01:13,119

which will get underway just momentarily

21

00:01:18,070 --> 00:01:15,680

in the zvezda service module at the

22

00:01:19,510 --> 00:01:18,080

control panel in the unlikely event

23

00:01:22,390 --> 00:01:19,520

something would happen with the core

24

00:01:25,190 --> 00:01:22,400

system yuri malenchenko is standing by

25

00:01:27,749 --> 00:01:25,200

to operate the toru or tele-robotically

26

00:01:30,469 --> 00:01:27,759

operated rendezvous unit

27

00:01:33,030 --> 00:01:30,479

to manually fly the soyuz in but so far

28

00:01:35,109 --> 00:01:33,040

so good everything functioning perfectly

29

00:01:37,190 --> 00:01:35,119

with the o6m spacecraft under the

30

00:01:43,270 --> 00:01:37,200

command of oleg novitskiy in the center

31

00:01:48,230 --> 00:01:45,590

and of course this view from station

32

00:01:50,389 --> 00:01:48,240

cameras of the soyuz spacecraft as

33

00:01:51,670 --> 00:01:50,399

its pre-programmed

34

00:01:54,149 --> 00:01:51,680

approach

35

00:01:56,230 --> 00:01:54,159

begins to put the brakes on if you will

36

00:01:59,109 --> 00:01:56,240

for the start of station keeping not

37

00:02:01,910 --> 00:01:59,119

quite there yet just a few meters to go

38

00:02:03,429 --> 00:02:01,920

the soyuz solar arrays uh precisely

39

00:02:05,270 --> 00:02:03,439

aligned

40

00:02:07,270 --> 00:02:05,280

for final approach

41

00:02:11,990 --> 00:02:07,280

and the eventual contact and capture

42

00:02:17,110 --> 00:02:13,670

can you see the station through the

43

00:02:18,550 --> 00:02:17,120

vehicle is everything fine

44

00:02:19,990 --> 00:02:18,560

everything is fine

45

00:02:21,910 --> 00:02:20,000

and the visiting vehicle officer at

46

00:02:23,750 --> 00:02:21,920

mission control in houston reports the

47

00:02:27,190 --> 00:02:23,760

beginning of station keeping at a

48

00:02:29,910 --> 00:02:27,200

distance of about 197 meters

49

00:02:31,670 --> 00:02:29,920

the soyuz will remain still now to

50

00:02:33,350 --> 00:02:31,680

enable russian flight controllers here

51
00:02:36,229 --> 00:02:33,360
at the russian mission control center in

52
00:02:37,990 --> 00:02:36,239
karayof an opportunity to assess the

53
00:02:40,790 --> 00:02:38,000
alignment of the forward docking probe

54
00:02:43,030 --> 00:02:40,800
with the poise docking port that you see

55
00:02:44,949 --> 00:02:43,040
just above the crosshairs on this

56
00:02:55,670 --> 00:02:44,959
engineering view from the soyuz external

57
00:02:59,670 --> 00:02:57,509
at the bottom of your screen you're

58
00:03:01,190 --> 00:02:59,680
looking at the zarya module the first

59
00:03:02,790 --> 00:03:01,200
component the first element of the

60
00:03:06,390 --> 00:03:02,800
international space station that was

61
00:03:07,910 --> 00:03:06,400
launched on november 20th 1998 atop a

62
00:03:10,949 --> 00:03:07,920
proton rocket from the baikonur

63
00:03:12,070 --> 00:03:10,959

cosmodrome its solar rays folded like an

64

00:03:14,869 --> 00:03:12,080

accordion

65

00:03:16,630 --> 00:03:14,879

never to be used again the zarya drawing

66

00:03:18,390 --> 00:03:16,640

power not only from the russian segment

67

00:03:20,309 --> 00:03:18,400

through the solar rays on the zvezda

68

00:03:21,750 --> 00:03:20,319

service module but also from the us

69

00:03:26,869 --> 00:03:21,760

segment of the international space

70

00:03:26,879 --> 00:03:41,750

we can see the docking assembly clearly

71

00:03:51,830 --> 00:03:45,190

everything is fine or a good trajectory

72

00:03:56,789 --> 00:03:54,309

yuri malenchenko in the zvezda service

73

00:03:58,470 --> 00:03:56,799

module offering a quick reading to

74

00:04:00,550 --> 00:03:58,480

nowitzki

75

00:04:02,149 --> 00:04:00,560

indicating that everything looks normal

76

00:04:04,229 --> 00:04:02,159

from their perspective inside the

77

00:04:12,229 --> 00:04:04,239

international space station the two

78

00:04:12,239 --> 00:04:19,189

and 0.6 range range rate

79

00:04:22,550 --> 00:04:20,629

two and a half

00:04:39,990 --> 00:04:22,560

squares is the angular size of the

81

00:04:40,000 --> 00:04:44,629

and the video is stable

83

00:04:50,639 --> 00:04:55,909

range is approximately 35.

84

00:05:01,430 --> 00:04:58,469

20 meters now separating the soyuz from

85

00:05:03,029 --> 00:05:01,440

its docking port on the poisk module as

86

00:05:05,029 --> 00:05:03,039

both the soyuz and the international

87

00:05:07,350 --> 00:05:05,039

space station approach

88

00:05:16,469 --> 00:05:07,360

the target is lowered by one degree

92

00:05:47,360 --> 00:05:54,310

the target is aligned and the cross

93

00:06:00,710 --> 00:05:56,390

just four meters away standing by for

94

00:06:00,720 --> 00:06:06,550

range is approximately four

95

00:06:20,710 --> 00:06:08,230

the target is at the center the

96

00:06:25,350 --> 00:06:23,510

the target is at the center we are

97

00:06:27,350 --> 00:06:25,360

expecting

docking confirmed contact and capture

00:06:35,029 --> 00:06:31,600

confirmed at 7 29 a.m central time 4 29

send their greetings to everybody on

132

00:09:35,350 --> 00:09:30,880

board the international space station

133

00:09:38,389 --> 00:09:36,949

the expression on your face is an

134

00:09:41,030 --> 00:09:38,399

most definitely it's more spacious and

153
00:10:40,550 --> 00:10:38,959
much more comfortable than

154
00:10:44,550 --> 00:10:40,560
the little tiny home that brought us

155
00:10:49,269 --> 00:10:46,630
hello my dear son

156
00:10:51,269 --> 00:10:49,279
hello guys

157
00:10:53,430 --> 00:10:51,279
hi mom

158
00:10:55,509 --> 00:10:53,440
do not cry

159
00:10:58,550 --> 00:10:55,519
see how happy we are you should be happy

160
00:11:04,790 --> 00:11:01,829
i don't mean to cry but um

161
00:11:06,389 --> 00:11:04,800
congratulations on

162
00:11:08,550 --> 00:11:06,399
your achievements

163
00:11:09,910 --> 00:11:08,560

one of two most important

164

00:11:12,870 --> 00:11:09,920

uh tasks

165

00:11:15,269 --> 00:11:12,880

hot launch and successful docking

166

00:11:16,550 --> 00:11:15,279

we hope you enjoy your stay on board the

167

00:11:19,110 --> 00:11:16,560

space station

168

00:11:21,030 --> 00:11:19,120

and we can't wait for your return

169

00:11:22,949 --> 00:11:21,040

thank you thank you so much

170

00:11:26,550 --> 00:11:22,959

greetings and regards to everybody we

171

00:11:31,030 --> 00:11:29,110

i see you're in a good mood great

172

00:11:33,910 --> 00:11:31,040

spirits

173

00:11:37,269 --> 00:11:33,920

let me check that we are very excited to

174

00:11:37,279 --> 00:12:05,670

godspeed uh we are with you in spirits

175

00:12:11,350 --> 00:12:08,470

are our faces still looking like

176

00:12:13,350 --> 00:12:11,360

the faces of your fathers

177

00:12:16,069 --> 00:12:13,360

well they're a little more plump than we

178

00:12:19,750 --> 00:12:16,079

are used to but um we couldn't recognize

179

00:12:26,470 --> 00:12:24,230

it looks funny as well

180

00:12:30,790 --> 00:12:26,480

that's okay my goal is to lose a few

181

00:12:36,150 --> 00:12:33,670

so uh how was your ride over there

182

00:12:39,030 --> 00:12:36,160

well i have to admit it was a little bit

183

00:12:42,870 --> 00:12:39,040

difficult uh the first day but then it

184

00:12:47,269 --> 00:12:45,030

it was tolerable

185

00:12:49,990 --> 00:12:47,279

but we could totally see that

186

00:12:54,069 --> 00:12:50,000

the g difference

187

00:12:56,150 --> 00:12:54,079

how are the fish doing still alive

188

00:12:58,790 --> 00:12:56,160

the fish are still alive aki already

189

00:13:04,150 --> 00:12:58,800

checked on them he was very worried

190

00:13:04,160 --> 00:13:29,829

hello

191

00:13:35,509 --> 00:13:32,550

i wish you the best i wish you good luck

192

00:13:37,590 --> 00:13:35,519

and a very soft landing when you do

193

00:13:39,590 --> 00:13:37,600

decide to return

194

00:13:40,870 --> 00:13:39,600

take care and all the best too

195

00:13:42,550 --> 00:13:40,880

thank you so much

196

00:13:43,829 --> 00:13:42,560

hey dad you're looking good

197

00:13:45,829 --> 00:13:43,839

how was your two day ride your launch

198

00:13:49,910 --> 00:13:45,839

was awesome how was your tv ride what

199

00:13:54,550 --> 00:13:52,389

well the uh i hope it looked awesome as

200

00:13:55,350 --> 00:13:54,560

it felt it was uh just an incredible

201

00:13:57,829 --> 00:13:55,360

ride

202

00:13:59,430 --> 00:13:57,839

uh very similar to uh the jeez and stuff

203

00:14:01,509 --> 00:13:59,440

on the shuttle but lots of different

204

00:14:06,949 --> 00:14:01,519

noises vibrations and

205

00:14:06,959 --> 00:14:12,069

did you do some of your puzzles

206

00:14:15,189 --> 00:14:13,670

i didn't get around to any puzzles there

207

00:14:17,509 --> 00:14:15,199

were lots of other good things to do

208

00:14:19,670 --> 00:14:17,519

lots of good things to investigate and

209

00:14:21,750 --> 00:14:19,680

i'll tell you all about it later but no

210

00:14:23,670 --> 00:14:21,760

no time for puzzles we had a great time

211

00:14:26,870 --> 00:14:23,680

it really went fast for me but two days

212

00:14:30,069 --> 00:14:26,880

went really really quickly

213

00:14:33,670 --> 00:14:30,079

yeah i thought it would

214

00:14:36,389 --> 00:14:34,790

hey heidi

215

00:14:39,269 --> 00:14:36,399

hey we uh

216

00:14:41,910 --> 00:14:39,279

the launch was really amazing we were we

217

00:14:44,310 --> 00:14:41,920

were got an incredible view

218

00:14:45,990 --> 00:14:44,320

perfect day really nice and we've got we

219

00:14:51,990 --> 00:14:46,000

finally got to meet oleg and yukini's

220

00:14:56,470 --> 00:14:54,550

oh that's good so you guys had a uh had

221

00:14:57,990 --> 00:14:56,480

a great day that day on a good trip home

222

00:14:59,590 --> 00:14:58,000

i heard there was some snow in moscow

223

00:15:02,710 --> 00:14:59,600

did you guys see it

224

00:15:04,470 --> 00:15:02,720

yeah we did we saw a little snow

225

00:15:06,150 --> 00:15:04,480

it's been it's been really great i think

226

00:15:07,829 --> 00:15:06,160

everybody's sad that we have to go back

227

00:15:12,949 --> 00:15:07,839

tomorrow but

228

00:15:17,509 --> 00:15:14,629

yeah i understand and you get to see sir

229

00:15:17,519 --> 00:15:23,590

one more time

230

00:15:29,749 --> 00:15:25,590

did you say did you get the gladden tour

231

00:15:35,030 --> 00:15:31,749

yeah we had we had a little tour of star

232

00:15:36,949 --> 00:15:35,040

city we got to see um the buoyancy lab

233

00:15:38,790 --> 00:15:36,959

and the uh

234

00:15:41,509 --> 00:15:38,800

and some of the some of the great places

235

00:15:43,749 --> 00:15:41,519

you got to train it was really neat

236

00:15:50,550 --> 00:15:43,759

so and we saw we saw the dancing show

237

00:15:54,150 --> 00:15:52,550

are you guys just about good at all then

238

00:15:55,910 --> 00:15:54,160

that's really uh that's really awesome

239

00:15:57,749 --> 00:15:55,920

i'm glad you guys are all gonna see

240

00:15:59,829 --> 00:15:57,759

uh star city it's been my home away from

241

00:16:01,189 --> 00:15:59,839

home for the last two and a half years

242

00:16:03,509 --> 00:16:01,199

yeah

243

00:16:04,629 --> 00:16:03,519

yep well you guys all six of you look

244

00:16:09,670 --> 00:16:04,639

really good

245

00:16:13,030 --> 00:16:11,189

well we just met up with these guys they

246

00:16:14,790 --> 00:16:13,040

do look pretty good but i think they're

247

00:16:16,150 --> 00:16:14,800

happy to see us so maybe they get to go

248

00:16:17,670 --> 00:16:16,160

home someday but

249

00:16:20,310 --> 00:16:17,680

we're all we're all doing great we had a

250

00:16:21,990 --> 00:16:20,320

great trip up here uh oh again you have

251
00:16:24,069 --> 00:16:22,000
giddy flu at spacecraft like they've

252
00:16:25,189 --> 00:16:24,079
floated five times before so it was just

253
00:16:27,189 --> 00:16:25,199
really a flight improvement going

254
00:16:33,829 --> 00:16:27,199
smoother

255
00:16:41,189 --> 00:16:35,110
they're saying

256
00:16:44,389 --> 00:16:42,790
of course we have some things for them

257
00:16:49,749 --> 00:16:44,399
too so if we don't see the ice cream we

258
00:16:53,189 --> 00:16:51,350
you know all your brothers and sisters

259
00:16:55,509 --> 00:16:53,199
here would want to say hello so we were

260
00:16:57,910 --> 00:16:55,519
all really excited it was a a great

261
00:17:00,870 --> 00:16:57,920
lunch and a great couple of weeks here

262
00:17:02,389 --> 00:17:00,880
in moscow and kazakhstan as well

263
00:17:03,990 --> 00:17:02,399

okay well i think you got great

264

00:17:05,590 --> 00:17:04,000

treatment thanks special to they're

265

00:17:06,949 --> 00:17:05,600

calling two fish for taking care of you

266

00:17:08,710 --> 00:17:06,959

guys but i love the fact that you were

267

00:17:10,069 --> 00:17:08,720

all there to see the launch so i'm glad

268

00:17:30,950 --> 00:17:10,079

you all made it

269

00:17:35,590 --> 00:17:33,350

that uh you've adapted to your new

270

00:17:36,630 --> 00:17:35,600

environment within such a short period

271

00:17:38,710 --> 00:17:36,640

of time

272

00:17:40,870 --> 00:17:38,720

it's uh

273

00:17:43,190 --> 00:17:40,880

excellent to see that

274

00:17:44,470 --> 00:17:43,200

so how was it

275

00:17:48,230 --> 00:17:44,480

well that

276

00:17:51,110 --> 00:17:48,240

it was uh kind of difficult

277

00:17:52,549 --> 00:17:51,120

during the first day and then it leveled

278

00:17:53,990 --> 00:17:52,559

out it got better

279

00:17:55,990 --> 00:17:54,000

and tolerable

280

00:17:58,549 --> 00:17:56,000

today we're feeling great and we're

281

00:18:00,310 --> 00:17:58,559

actually hanging on to some foot

282

00:18:02,710 --> 00:18:00,320

brackets

283

00:18:03,909 --> 00:18:02,720

so that we wouldn't fly away out of the

284

00:18:05,270 --> 00:18:03,919

view

285

00:18:08,950 --> 00:18:05,280

of the camera

286

00:18:10,789 --> 00:18:08,960

and i have your two daughters here zenya

287

00:18:16,070 --> 00:18:10,799

just wanted to hand it over to them for

288

00:18:21,430 --> 00:18:18,789

we saw your lunch it was breathtaking

289

00:18:24,470 --> 00:18:21,440

and uh we see that i think you grew a

290

00:18:26,870 --> 00:18:24,480

little uh maybe stretched out

291

00:18:29,510 --> 00:18:26,880

you look excellent and we hope that you

292

00:18:31,830 --> 00:18:29,520

can always see us in your window

293

00:18:34,390 --> 00:18:31,840

know that we're with you in spirits and

294

00:18:37,029 --> 00:18:34,400

uh when we look up we'll know that

295

00:18:39,350 --> 00:18:37,039

you're up there watching over us

296

00:18:41,590 --> 00:18:39,360

and uh we can see happiness written all

297

00:18:45,750 --> 00:18:41,600

over your faces so uh we're we're very

298

00:18:45,760 --> 00:18:49,590

oh and behave

299

00:18:54,390 --> 00:18:52,710

i will hand it over to alisa and she

300

00:18:56,870 --> 00:18:54,400

will take it from here

301
00:18:58,310 --> 00:18:56,880
hello dad

302
00:19:00,549 --> 00:18:58,320

304
00:19:07,270 --> 00:19:02,320

00:19:42,310 --> 00:19:39,360

another because she's

315

00:19:46,950 --> 00:19:43,679

basically

316

00:19:48,789 --> 00:19:46,960

forcing the phone out of my hands

317

00:19:50,390 --> 00:19:48,799

daddy hello

318

00:20:11,350 --> 00:19:50,400
