

1
00:00:04,799 --> 00:00:23,990
atlantis was the fourth space shuttle

2
00:00:27,830 --> 00:00:25,910
this view from atop the vehicle assembly

3
00:00:38,709 --> 00:00:27,840
building

4
00:00:56,470 --> 00:00:40,470
where there will be a signing ceremony

5
00:00:56,480 --> 00:03:16,470
you need

6
00:03:21,589 --> 00:03:19,910
we see atlantis making its way up

7
00:03:23,430 --> 00:03:21,599
this procession will

8
00:03:25,589 --> 00:03:23,440
lead shuttle atlantis

9
00:03:28,149 --> 00:03:25,599
across state road 405 to the viewing

10
00:03:28,159 --> 00:03:51,270
where atlantis will stop

11
00:03:51,280 --> 00:04:04,550
so

12
00:05:30,550 --> 00:04:06,630
the color guard is being followed by the

13
00:05:30,560 --> 00:06:03,430

so

14

00:06:08,309 --> 00:06:06,550

i don't preside over an agency that's in

15

00:06:09,749 --> 00:06:08,319

the history business that's not what

16

00:06:10,950 --> 00:06:09,759

nasa does we're not a history

17

00:06:12,390 --> 00:06:10,960

organization

18

00:06:13,350 --> 00:06:12,400

we're in the business of creating the

19

00:06:14,950 --> 00:06:13,360

future

20

00:06:16,469 --> 00:06:14,960

and we're in the business of taking

21

00:06:18,629 --> 00:06:16,479

science fiction and turning it into

22

00:06:21,110 --> 00:06:18,639

science fact and i think most of you

23

00:06:22,710 --> 00:06:21,120

here realize that that's what we do

24

00:06:28,150 --> 00:06:22,720

we take things that people say are

25

00:06:33,909 --> 00:06:30,710

this magnificent ship behind me

26
00:06:36,150 --> 00:06:33,919
is tangible representation of of a great

27
00:06:38,150 --> 00:06:36,160
nation our hopes and dreams

28
00:06:39,830 --> 00:06:38,160
we couldn't be where we are poised for

29
00:06:41,909 --> 00:06:39,840
tomorrow's progress

30
00:06:43,189 --> 00:06:41,919
without the space shuttle

31
00:06:45,590 --> 00:06:43,199
and they're more exciting things

32
00:06:47,430 --> 00:06:45,600
happening right now here at ksc as well

33
00:06:49,110 --> 00:06:47,440
as around the agency

34
00:06:50,230 --> 00:06:49,120
a little over a year after the shuttle

35
00:06:52,710 --> 00:06:50,240
retired

36
00:06:54,230 --> 00:06:52,720
just this week we completed the first

37
00:06:55,990 --> 00:06:54,240
commercial resupply mission to the

38
00:06:57,909 --> 00:06:56,000

international space station

39

00:06:59,110 --> 00:06:57,919

little company called spacex launched

40

00:07:01,510 --> 00:06:59,120

dragon

41

00:07:03,510 --> 00:07:01,520

from right over there at cape canaveral

42

00:07:05,830 --> 00:07:03,520

it's the first of many such launches and

43

00:07:07,990 --> 00:07:05,840

we're well on track to once again launch

44

00:07:12,629 --> 00:07:08,000

american astronauts from u.s soil in the

45

00:07:17,830 --> 00:07:15,029

i want to thank all the crews

46

00:07:19,990 --> 00:07:17,840

here today who flew atlantis in space

47

00:07:22,710 --> 00:07:20,000

i want to thank the workforce that sent

48

00:07:23,670 --> 00:07:22,720

her successfully to orbit again and

49

00:07:25,270 --> 00:07:23,680

again

50

00:07:26,870 --> 00:07:25,280

and also want to thank the american

51

00:07:29,749 --> 00:07:26,880

public at large

52

00:07:31,589 --> 00:07:29,759

for making this impos this incredible

53

00:07:34,150 --> 00:07:31,599

dream and achievement

54

00:07:36,390 --> 00:07:34,160

possible that we all share today

55

00:07:38,950 --> 00:07:36,400

our best days are ahead of us

56

00:07:40,790 --> 00:07:38,960

with the shuttle as our tailwind

57

00:07:43,670 --> 00:07:40,800

godspeed atlantis

58

00:07:47,589 --> 00:07:43,680

on your next mission of inspiration and

59

00:07:51,670 --> 00:07:50,150

although it's the end of atlantis flying

60

00:07:53,830 --> 00:07:51,680

in space

61

00:07:56,230 --> 00:07:53,840

it's not the end it's not the end for

62

00:07:58,950 --> 00:07:56,240

ksc we're charging into the future

63

00:08:02,150 --> 00:07:58,960

preparing for commercial operations to

64

00:08:04,629 --> 00:08:02,160

low earth orbit for exploration once

65

00:08:06,869 --> 00:08:04,639

again beyond our home planet continuing

66

00:08:09,909 --> 00:08:06,879

to meet nasa's science missions with our

67

00:08:16,070 --> 00:08:09,919

expandable rockets to get our science

68

00:08:20,869 --> 00:08:18,629

from me to all of you

69

00:08:24,150 --> 00:08:20,879

my heartfelt thanks

70

00:08:27,189 --> 00:08:24,160

for your dedication your drive your hard

71

00:08:29,350 --> 00:08:27,199

work your spirit of discovery that has

72

00:08:32,230 --> 00:08:29,360

made all of this possible

73

00:08:34,790 --> 00:08:32,240

and continues to make ksc and nasa the

74

00:08:40,230 --> 00:08:34,800

great place that it is to work as we

75

00:08:44,389 --> 00:08:41,230

the

76

00:08:45,870 --> 00:08:44,399

rockets red glare

77

00:08:49,190 --> 00:08:45,880

the bombs

78

00:08:51,030 --> 00:08:49,200

bursting in air

79

00:08:52,829 --> 00:08:51,040

gave proof

80

00:08:59,509 --> 00:08:52,839

through the

81

00:09:02,150 --> 00:08:59,519

night that our flag was still there

82

00:09:04,269 --> 00:09:02,160

oh say does

83

00:09:05,829 --> 00:09:04,279

that star

84

00:09:18,870 --> 00:09:05,839

spangled

85

00:09:24,630 --> 00:09:21,750

and the

86

00:09:24,640 --> 00:09:34,949

break

87

00:09:34,959 --> 00:09:38,550

thank you colonel

88

00:09:43,350 --> 00:09:41,110

thanks cheryl uh thanks to all of you

89

00:09:46,150 --> 00:09:43,360

things this team has accomplished in the

90

00:09:48,310 --> 00:09:46,160

last 30 years and is going to continue

91

00:09:49,509 --> 00:09:48,320

and chris is always so eloquent when he

92

00:09:51,350 --> 00:09:49,519

talks

93

00:09:53,509 --> 00:09:51,360

bob is always and i'm not calling names

94

00:09:55,430 --> 00:09:53,519

but i was looking for my crew members

95

00:09:57,350 --> 00:09:55,440

who were with me on atlantis and there's

96

00:10:00,230 --> 00:09:57,360

somebody back there and all that but

97

00:10:03,030 --> 00:10:00,240

it's great to be here um dave and i were

98

00:10:05,030 --> 00:10:03,040

we were among the crew and the backups

99

00:10:25,670 --> 00:10:05,040

who had the privilege of celebrating the

100

00:10:25,680 --> 00:10:44,790

foreign

101

00:10:44,800 --> 00:11:10,870

um
