

1  
00:00:30,230 --> 00:00:28,550  
it will be observed by observatories

2  
00:00:33,110 --> 00:00:30,240  
around the world and we'll get a lot of

3  
00:00:35,510 --> 00:00:33,120  
good information on its spectral type

4  
00:00:37,270 --> 00:00:35,520  
chemical composition possibly spectrum

5  
00:00:39,350 --> 00:00:37,280  
of it and the radar data will give us
