

1
00:02:30,570 --> 00:02:26,130
so the landing was nominal yes

2
00:02:37,980 --> 00:02:30,580
everything was nominal everything is

3
00:02:42,200 --> 00:02:37,990
ready the vehicle ended up right so they

4
00:02:44,940 --> 00:02:42,210
already took two crew members out and

5
00:02:48,780 --> 00:02:44,950
the search and rescue service was on the

6
00:08:58,390 --> 00:02:48,790
spot they saw the vehicle and they

7
00:09:02,540 --> 00:09:00,800
dear friends colleagues please your

8
00:09:05,030 --> 00:09:02,550
questions to the crew how I feeling

9
00:09:08,090 --> 00:09:05,040
how's your mood the mood is great we're

10
00:09:08,930 --> 00:09:08,100
ready to work so many people came to see

11
00:09:11,450 --> 00:09:08,940
us off

12
00:09:14,300 --> 00:09:11,460
and of course the mood is great I'm

13
00:09:17,870 --> 00:09:14,310

excited tell us about the mission

14

00:09:19,750 --> 00:09:17,880

program and it's all the yeah coaches

15

00:09:24,050 --> 00:09:19,760

the specialists he's not here but

16

00:09:26,870 --> 00:09:24,060

talking about the mission girls they are

17

00:09:29,120 --> 00:09:26,880

very interesting the mission the

18

00:09:31,790 --> 00:09:29,130

expedition is full of different tasks

19

00:09:33,140 --> 00:09:31,800

we'll have a few spacewalks

20

00:09:37,640 --> 00:09:33,150

there will be different transportation

21

00:09:41,090 --> 00:09:37,650

vehicles coming from Europe NASA Russian

22

00:09:43,910 --> 00:09:41,100

vehicles could you please tell us are

23

00:09:47,690 --> 00:09:43,920

you going to be celebrating the pancake

24

00:09:50,330 --> 00:09:47,700

thing of course of course we'll be

25

00:09:52,550 --> 00:09:50,340

celebrating tomorrow is going to be a

26

00:09:55,550 --> 00:09:52,560

rather difficult day for us it's given

27

00:09:57,740 --> 00:09:55,560

to be Soyuz fit check and will be busy

28

00:09:59,060 --> 00:09:57,750

till very late in the day but if we have

29

00:10:03,650 --> 00:09:59,070

some time of course we will be

30

00:10:07,070 --> 00:10:03,660

celebrating do you have any pancakes on

31

00:10:07,790 --> 00:10:07,080

board while they're freeze-dried my

32

00:10:09,890 --> 00:10:07,800

volodymyrovych

33

00:10:14,330 --> 00:10:09,900

are you going to celebrate the day of

34

00:10:21,170 --> 00:10:14,340

Magadan yes it coincides with another

35

00:10:23,480 --> 00:10:21,180

holiday what they polar bear yes here we

36

00:10:25,190 --> 00:10:23,490

are on the final day in Star City we

37

00:10:28,310 --> 00:10:25,200

just had a farewell breakfast inside

38

00:10:30,410 --> 00:10:28,320

this cosmonaut Olivia had a few pictures

39

00:10:31,610 --> 00:10:30,420
out here in front of this historical

40

00:10:34,650 --> 00:10:31,620
place and we're about to board the bus

41

00:10:36,330 --> 00:10:34,660
and head to which are Kazakhstan

42

00:10:38,520 --> 00:10:36,340
because of the weather at the juggle

43

00:10:40,050 --> 00:10:38,530
airplanes a little bit so myself and the

44

00:10:41,820 --> 00:10:40,060
prime crew will be heading out now and

45

00:10:43,200 --> 00:10:41,830
Mike will be waiting for a few hours but

46

00:10:45,420 --> 00:10:43,210
another plane to come pick him up so

47

00:10:46,590 --> 00:10:45,430
we'll link back up in Kazakhstan and

48

00:10:48,300 --> 00:10:46,600
have our first fit check tomorrow

49

00:10:51,930 --> 00:10:48,310
morning and get on with business - the

50

00:10:53,460 --> 00:10:51,940
countdown to our launch on the 29th here

51

00:11:06,940 --> 00:10:53,470

in Kazakhstan so thanks for watching
