

1
00:00:21,920 --> 00:00:32,069
so

2
00:00:32,079 --> 00:02:24,790
come on

3
00:02:24,800 --> 00:03:30,789
yes

4
00:03:30,799 --> 00:03:40,390
no more than that

5
00:03:48,710 --> 00:03:42,470
all right

6
00:03:48,720 --> 00:04:00,229
look at me please

7
00:04:03,830 --> 00:04:02,309
you see that pipe this pipe goes in

8
00:04:27,590 --> 00:04:03,840
there and then

9
00:04:27,600 --> 00:04:43,110
let me try this side

10
00:04:48,070 --> 00:04:45,270
so what's the quality of the material

11
00:04:53,350 --> 00:04:49,830
when it

12
00:04:58,790 --> 00:04:55,510
and we're at what we call the second fit

13
00:05:01,110 --> 00:04:58,800

check and the backup crew is right up

14

00:05:03,110 --> 00:05:01,120

there inside our soyuz and uh pablo and

15

00:05:05,430 --> 00:05:03,120

sasha myself we just visited a progress

16

00:05:07,590 --> 00:05:05,440

that will visit us in april

17

00:05:08,710 --> 00:05:07,600

has a new treadmill in there so we check

18

00:05:10,870 --> 00:05:08,720

that out

19

00:05:12,870 --> 00:05:10,880

and it's just such a cool feeling to be

20

00:05:14,870 --> 00:05:12,880

so close to launch and be s and to see

21

00:05:16,790 --> 00:05:14,880

our very own spaceship

22

00:05:19,350 --> 00:05:16,800

right there that we're gonna climb in

23

00:05:21,830 --> 00:05:19,360

all the cargo's loaded is ready to go

24

00:05:23,430 --> 00:05:21,840

encapsulated in its fairings and uh the

25

00:05:25,510 --> 00:05:23,440

next time we see

26

00:05:27,830 --> 00:05:25,520

this spaceship we'll be on launch day

27

00:05:30,070 --> 00:05:27,840

with our suits climbing in for real so

28

00:05:32,150 --> 00:05:30,080

the three of us are really excited me in

29

00:05:34,710 --> 00:05:32,160

particular i can't wait to get get going

30

00:05:36,469 --> 00:05:34,720

and get up to the space station and join

31

00:05:51,189 --> 00:05:36,479

chris and tom to be part of expedition

32

00:05:51,199 --> 00:06:18,150

oh my god on the 28th

33

00:06:18,160 --> 00:06:27,510

please

34

00:06:27,520 --> 00:06:46,390

chris

35

00:06:48,710 --> 00:06:47,350

how many

36

00:06:56,950 --> 00:06:48,720

three

37

00:06:56,960 --> 00:07:08,950

five seconds

38

00:07:13,350 --> 00:07:12,070

yes we did check the whole

39

00:07:18,710 --> 00:07:13,360

vehicle

40

00:07:23,350 --> 00:07:18,720

absolutely ready we looked at all the

41

00:07:26,950 --> 00:07:24,550

we

42

00:07:29,029 --> 00:07:26,960

did check out where all on board

43

00:07:31,909 --> 00:07:29,039

procedures are located

44

00:07:33,830 --> 00:07:31,919

we don't have any negative commons

45

00:07:35,510 --> 00:07:33,840

spacecraft oh it's fantastic i can't

46

00:07:37,350 --> 00:07:35,520

wait to climb in it on launch day it's

47

00:07:39,029 --> 00:07:37,360

so exciting to be here and

48

00:07:40,309 --> 00:07:39,039
