life support is a pilot's last defense

5
00:00:24,150 --> 00:00:22,640
of life saving

6
00:00:25,830 --> 00:00:24,160
what they say is who are you gonna trust

7
00:00:28,230 --> 00:00:25,840
when you lose your thrust

8
00:00:30,390 --> 00:00:28,240
they have to know what they have to do

9
00:00:33,350 --> 00:00:30,400
in order to stay alive if they have to

10
00:00:35,670 --> 00:00:33,360
eject and the proper positioning the

11
00:00:37,270 --> 00:00:35,680
proper techniques and if there's

12
00:00:39,190 --> 00:00:37,280
anything wrong

13
00:00:40,709 --> 00:00:39,200

with their equipment

14

00:00:43,270 --> 00:00:40,719

versus their parachute if they have the

15

00:00:46,229 --> 00:00:43,280

line over what they have to do

16

00:00:48,790 --> 00:00:46,239

to correct that in order to stay alive

17

00:00:51,750 --> 00:00:48,800

i'm half hawaiian half samoan

18

00:00:53,350 --> 00:00:51,760

my dad's hawaii my mom samoan growing up

19

00:00:56,389 --> 00:00:53,360

in hawaii

20

00:00:58,229 --> 00:00:56,399

the culture is so rich there you learn

21

00:01:01,110 --> 00:00:58,239

how to fish you learn how to live off

22

00:01:04,149 --> 00:01:01,120

the land we learned how to dance hula

23

00:01:06,070 --> 00:01:04,159

and we sang it was part of the i

24

00:01:08,630 --> 00:01:06,080

wouldn't say a requirement but it was

25

00:01:11,750 --> 00:01:08,640

almost a must growing up that you did

26
00:01:14,310 --> 00:01:11,760
some type of culture related thing

27
00:01:16,789 --> 00:01:14,320
i'm a family person you know i love to

28
00:01:18,870 --> 00:01:16,799
do family things with my family i have

29
00:01:20,710 --> 00:01:18,880
six kids

30
00:01:24,390 --> 00:01:20,720
five grandchildren

31
00:01:25,749 --> 00:01:24,400
the experiences i've had at nasa

32
00:01:27,990 --> 00:01:25,759
it's amazing

33
00:01:30,789 --> 00:01:28,000
i never thought i'd be working with the

34
00:01:31,590 --> 00:01:30,799
astronauts and part of our job was to go

35
00:01:33,109 --> 00:01:31,600
out

36
00:01:35,270 --> 00:01:33,119
and retrieve the astronauts from the

37
00:01:36,950 --> 00:01:35,280
space shuttle when they landed here and

38
00:01:38,710 --> 00:01:36,960

we had to

39

00:01:40,550 --> 00:01:38,720

shadow them around to make sure they're

40

00:01:43,510 --> 00:01:40,560

okay the other parts of it is the

41

00:01:45,670 --> 00:01:43,520

airborne science and we get to travel to

42

00:01:47,670 --> 00:01:45,680

different places

43

00:01:50,069 --> 00:01:47,680

i feel a sense of accomplishment anytime

44

00:01:52,069 --> 00:01:50,079

the pilot comes back give you the thumbs
