

1

00:00:02,460 --> 00:00:09,870

August 2012 ... millions of eyes -- on the
Curiosity Rover speeding toward Mars at 13-thousand

2

00:00:09,870 --> 00:00:10,870

miles per hour ...

3

00:00:10,870 --> 00:00:14,960

"We are seeing G's on the order of 11 or 12
earth G's."

4

00:00:14,960 --> 00:00:19,730

With seven minutes -- and a single chance
for a one of a kind landing ...

5

00:00:19,730 --> 00:00:20,730

"Touchdown confirmed, we're safe on Mars.

6

00:00:20,730 --> 00:00:21,730

(applause)"

7

00:00:21,730 --> 00:00:25,100

The rest is history!

8

00:00:25,100 --> 00:00:30,020

Celebrate a year of Curiosity on Mars -- August
6 from The Jet Propulsion Laboratory and NASA
