

Олег КОТОВ
Oleg KOTOV

Сергей РЯЗАНСКИЙ
Sergey RYAZANSKIY

1
00:00:12,249 --> 00:00:06,079
good afternoon everyone here stars are

2
00:00:16,310 --> 00:00:12,259
press conference of increment 37 38 I

3
00:00:24,769 --> 00:00:16,320
would like to remind you that the launch

4
00:00:28,939 --> 00:00:24,779
is in September 26th that will be Tim a

5
00:00:32,840 --> 00:00:28,949
10m so this vehicle and I would like to

6
00:00:37,220 --> 00:00:32,850
introduce the crew to you all I caught

7
00:00:41,000 --> 00:00:37,230
of soyuz commander and commander of the

8
00:00:44,030 --> 00:00:41,010
ISS sergey ryazanskiy flight engineer

9
00:00:48,380 --> 00:00:44,040
for Soyuz and for the ISS frost cosmos

10
00:00:52,130 --> 00:00:48,390
and Michael Hopkins flight engineer for

11
00:00:55,790 --> 00:00:52,140
the source vehicle and for the ISS the

12
00:00:58,160 --> 00:00:55,800
backup crew alexander skvortsov source

13
00:01:00,860 --> 00:00:58,170

commander and flight engineer for the

14

00:01:02,779 --> 00:01:00,870

ISS ross cosmos aligarh tamiya flight

15

00:01:08,800 --> 00:01:02,789

engineer for the service vehicle and the

16

00:01:14,420 --> 00:01:08,810

ISS Stephen Swanson fe2 for Soyuz and

17

00:01:19,940 --> 00:01:14,430

flight engineer for the ISS and the head

18

00:01:23,210 --> 00:01:19,950

of the GCT sergei krikalev so my address

19

00:01:27,190 --> 00:01:23,220

today will be very standard as usual I

20

00:01:31,160 --> 00:01:27,200

won't say anything new to you the

21

00:01:35,120 --> 00:01:31,170

results of the examinations of the prime

22

00:01:36,950 --> 00:01:35,130

crew and the backup crew showed that the

23

00:01:41,780 --> 00:01:36,960

crew is ready the Intergovernmental

24

00:01:46,160 --> 00:01:41,790

Commission also approved the composition

25

00:01:48,260 --> 00:01:46,170

of the crew and I have seen actual the

26

00:01:50,660 --> 00:01:48,270

reports of their training flow and

27

00:01:54,170 --> 00:01:50,670

everything looks great

28

00:01:57,740 --> 00:01:54,180

so to sum up I can say that the crew is

29

00:01:59,929 --> 00:01:57,750

absolutely prepared for the flight on

30

00:02:03,530 --> 00:01:59,939

the service vehicle and for the ISS

31

00:02:05,840 --> 00:02:03,540

mission so we have the next stage of

32

00:02:08,529 --> 00:02:05,850

preparation and their training at

33

00:02:14,150 --> 00:02:08,539

Baikonur we're looking forward to it

34

00:02:16,160 --> 00:02:14,160

thank you very much so if you have any

35

00:02:21,470 --> 00:02:16,170

questions please introduce yourself and

36

00:02:23,660 --> 00:02:21,480

then ask a question first of all I would

37

00:02:27,050 --> 00:02:23,670

like to congratulate you on the upcoming

38

00:02:30,530 --> 00:02:27,060

flight on behalf of all the people

39

00:02:33,590 --> 00:02:30,540

present here i'd like to ask alec god of

40

00:02:38,660 --> 00:02:33,600

lima but what mask will we have during

41

00:02:43,000 --> 00:02:38,670

this mission thank you can you hear me

42

00:02:49,640 --> 00:02:43,010

yes great thank you very much for such a

43

00:02:55,160 --> 00:02:49,650

unique question first it's our mascot

44

00:02:58,630 --> 00:02:55,170

maybe it's easy to show it a veteran of

45

00:03:01,670 --> 00:02:58,640

two space flights already it's a cat

46

00:03:07,849 --> 00:03:01,680

this cat will fly with me for the for

47

00:03:13,310 --> 00:03:07,859

the third time so this toy same is

48

00:03:15,220 --> 00:03:13,320

Pinker so these are the first syllables

49

00:03:17,780 --> 00:03:15,230

of the names of my children who

50

00:03:22,610 --> 00:03:17,790

presented me this cat thank you very

51
00:03:37,020 --> 00:03:35,550
can you tell money's gonna puddin can

52
00:03:39,990 --> 00:03:37,030
you hear me what would you buy shake it

53
00:03:43,860 --> 00:03:40,000
is no drama are you looking forward to

54
00:03:47,040 --> 00:03:43,870
the expensive scientific program on

55
00:03:50,340 --> 00:03:47,050
board the ISS you will be doing medical

56
00:03:53,300 --> 00:03:50,350
biological experiments me well they will

57
00:03:56,570 --> 00:03:53,310
be doing some technical experiments too

58
00:03:59,370 --> 00:03:56,580
yes I know that but I know that you want

59
00:04:03,690 --> 00:03:59,380
there will be doctors surgeons aboard

60
00:04:06,900 --> 00:04:03,700
the station so can you describe us what

61
00:04:10,979 --> 00:04:06,910
experiments you'll be involved in ok i

62
00:04:14,370 --> 00:04:10,989
will start answering this question na

63
00:04:16,440 --> 00:04:14,380

Jeong our scientific program is pretty

64

00:04:21,690 --> 00:04:16,450

standard however there are a couple of

65

00:04:23,280 --> 00:04:21,700

differences in it still will be

66

00:04:26,940 --> 00:04:23,290

performing the biological and medical

67

00:04:29,640 --> 00:04:26,950

experiments we are surgeons as you know

68

00:04:31,200 --> 00:04:29,650

so we have this background and some of

69

00:04:32,570 --> 00:04:31,210

these experiments were provided by the

70

00:04:38,310 --> 00:04:32,580

institute of medical and biological

71

00:04:40,700 --> 00:04:38,320

problems and all these scientists that

72

00:04:43,680 --> 00:04:40,710

were providing us with these experiments

73

00:04:46,550 --> 00:04:43,690

try to prepare us as much as they could

74

00:04:49,500 --> 00:04:46,560

of course we will try to do our best

75

00:04:56,719 --> 00:04:49,510

we'll try to perform our medical

76

00:05:04,080 --> 00:05:01,469

so we you know will be participating in

77

00:05:06,570 --> 00:05:04,090

the preparation of some experiments as

78

00:05:08,820 --> 00:05:06,580

well on board the station and the next

79

00:05:12,690 --> 00:05:08,830

crew will be performing these

80

00:05:16,920 --> 00:05:12,700

experiments for us we will have also

81

00:05:20,310 --> 00:05:16,930

some space walks the first spacewalk

82

00:05:24,390 --> 00:05:20,320

besides some technical tasks

83

00:05:28,140 --> 00:05:24,400

installation of scientific hardware also

84

00:05:30,230 --> 00:05:28,150

involves taking an Olympic torch to

85

00:05:33,830 --> 00:05:30,240

space with us

86

00:05:37,480 --> 00:05:33,840

from the remaining space walks will be

87

00:05:40,969 --> 00:05:37,490

devoted to the upgrading of the

88

00:05:42,680 --> 00:05:40,979

technical hardware of our station and we

89

00:05:45,230 --> 00:05:42,690

will also be preparing the Russian

90

00:05:48,499 --> 00:05:45,240

segment for the arrival of the new

91

00:05:51,490 --> 00:05:48,509

Russian module MLM I see one should

92

00:05:54,290 --> 00:05:51,500

thank you very much not enough Michael

93

00:06:01,730 --> 00:05:54,300

should I buddy Michael would you like to

94

00:06:04,760 --> 00:06:01,740

add a couple of words I so for the

95

00:06:08,600 --> 00:06:04,770

experiments that will be on the US OS

96

00:06:11,930 --> 00:06:08,610

segment nashik opinion who did not

97

00:06:14,870 --> 00:06:11,940

America insignia stands there will be

98

00:06:17,870 --> 00:06:14,880

executing over 100 different types of

99

00:06:20,930 --> 00:06:17,880

experiments that range from one who are

100

00:06:24,230 --> 00:06:20,940

very involved in to ones that were just

101
00:06:26,450 --> 00:06:24,240
indirectly involved in knots with people

102
00:06:28,820 --> 00:06:26,460
in my local dike steady me until those

103
00:06:30,620 --> 00:06:28,830
reports should orphanage but you like it

104
00:06:35,810 --> 00:06:30,630
that way to teach them a vision of the

105
00:06:39,279 --> 00:06:35,820
key tamoom and these experiments will

106
00:06:42,499 --> 00:06:39,289
range from human research experiments to

107
00:06:45,219 --> 00:06:42,509
biology to physics experiments and

108
00:06:48,110 --> 00:06:45,229
engineering demonstration is

109
00:06:50,990 --> 00:06:48,120
experimental busca de venir protein

110
00:06:54,050 --> 00:06:51,000
shake is a low key additional business

111
00:06:58,670 --> 00:06:54,060
delegation skills to the mental the

112
00:07:02,059 --> 00:06:58,680
solution thank you next question get me

113
00:07:04,969 --> 00:07:02,069

to this look Interfax news agency my

114

00:07:09,920 --> 00:07:04,979

name is my tree so I have a follow-on

115

00:07:12,559 --> 00:07:09,930

question okay for Oleg Kotov could you

116

00:07:16,550 --> 00:07:12,569

please describe in more detail how these

117

00:07:18,860 --> 00:07:16,560

spacewalks will take place what will you

118

00:07:20,749 --> 00:07:18,870

do with the Olympic torch which tasks

119

00:07:24,459 --> 00:07:20,759

will you be performing during this space

120

00:07:27,950 --> 00:07:24,469

walk and can you please describe the

121

00:07:30,350 --> 00:07:27,960

program or preparation for the Russian

122

00:07:33,890 --> 00:07:30,360

Olympics on the ISS do you have any

123

00:07:36,439 --> 00:07:33,900

special events planned on the ISS so can

124

00:07:38,420 --> 00:07:36,449

you please expand on that maybe you will

125

00:07:42,140 --> 00:07:38,430

have some press conferences maybe you

126

00:07:45,290 --> 00:07:42,150

will be giving interviews or something

127

00:07:46,700 --> 00:07:45,300

stool so will what will you do so that's

128

00:07:49,730 --> 00:07:46,710

my first question and the second

129

00:07:52,970 --> 00:07:49,740

question is am i moving we should give a

130

00:07:55,040 --> 00:07:52,980

regard the MLM module when will the

131

00:07:57,440 --> 00:07:55,050

MLM launch will at lunch by the end of

132

00:08:01,040 --> 00:07:57,450

this here if yes then how will your

133

00:08:04,070 --> 00:08:01,050

mission program change if the MLM a

134

00:08:08,300 --> 00:08:04,080

slips right but I check his my lappy

135

00:08:10,970 --> 00:08:08,310

okay even the notion is so and then how

136

00:08:14,780 --> 00:08:10,980

will your scientific program be adjusted

137

00:08:17,210 --> 00:08:14,790

to your backgrounds anybody yes you

138

00:08:19,220 --> 00:08:17,220

acted a lot of questions so please ask

139

00:08:21,110 --> 00:08:19,230

the question about the MLM and then the

140

00:08:22,700 --> 00:08:21,120

rest of the questions yes because I

141

00:08:26,330 --> 00:08:22,710

haven't remembered all the questions

142

00:08:28,580 --> 00:08:26,340

that you ask Harvey alright so the MLM

143

00:08:31,880 --> 00:08:28,590

lunch slipped to April next year

144

00:08:35,030 --> 00:08:31,890

unfortunately our increment will not see

145

00:08:37,520 --> 00:08:35,040

the arrival of the MLM however we will

146

00:08:42,050 --> 00:08:37,530

be preparing the Russian segment to be

147

00:08:44,150 --> 00:08:42,060

ready to the arrival of this module so

148

00:08:47,650 --> 00:08:44,160

probably our backup crew will be

149

00:08:51,200 --> 00:08:47,660

participating in all those events

150

00:08:56,120 --> 00:08:51,210

parties do not love you however we have

151
00:08:58,820 --> 00:08:56,130
completed the complete the training for

152
00:09:03,950 --> 00:08:58,830
the arrival of the MLM so that's all I

153
00:09:08,060 --> 00:09:03,960
can say about the MLM module nobody said

154
00:09:11,840 --> 00:09:08,070
anything about flames maybe you saw that

155
00:09:14,210 --> 00:09:11,850
there is no flame there and the company

156
00:09:16,990 --> 00:09:14,220
that manufactures these torches has

157
00:09:20,480 --> 00:09:17,000
already prepared a couple of video

158
00:09:22,480 --> 00:09:20,490
videos showing how they manufacture

159
00:09:26,570 --> 00:09:22,490
these Olympic terms just it this is

160
00:09:30,380 --> 00:09:26,580
little torch with which we we had

161
00:09:36,500 --> 00:09:30,390
special training classes in the in a

162
00:09:38,630 --> 00:09:36,510
special laboratory at gctc never so it

163
00:09:42,890 --> 00:09:38,640

was apparent evidence for us when we

164

00:09:46,730 --> 00:09:42,900

received this torch that we would have

165

00:09:49,430 --> 00:09:46,740

specific training classes to train the

166

00:09:53,110 --> 00:09:49,440

crew to use it and we will have to teach

167

00:09:56,480 --> 00:09:53,120

the crew how to use it in open space

168

00:10:03,150 --> 00:09:56,490

which procedures they have to use

169

00:10:05,010 --> 00:10:03,160

yes so I hope that it will be safe for

170

00:10:07,440 --> 00:10:05,020

the crew to use them but maybe some

171

00:10:14,970 --> 00:10:07,450

technical details will be later worked

172

00:10:18,420 --> 00:10:14,980

on already onboard the station please do

173

00:10:20,120 --> 00:10:18,430

you have any other questions salafi well

174

00:10:22,440 --> 00:10:20,130

you have any other questions for us

175

00:10:25,980 --> 00:10:22,450

greenish appear with en la problema

176

00:10:28,590 --> 00:10:25,990

beautiful retro FM morning show it's

177

00:10:32,579 --> 00:10:28,600

very good to see once again I'm very

178

00:10:35,670 --> 00:10:32,589

glad to see that you're smiling wish you

179

00:10:39,120 --> 00:10:35,680

good luck in space module on Guam

180

00:10:41,970 --> 00:10:39,130

adventuresome e good luck to all of you

181

00:10:45,150 --> 00:10:41,980

and also to the backup crew I have a

182

00:10:47,850 --> 00:10:45,160

question for you so you will be having

183

00:10:49,620 --> 00:10:47,860

your new year celebration of your

184

00:10:51,540 --> 00:10:49,630

holidays you'll spend them on board the

185

00:10:54,300 --> 00:10:51,550

station to already have Christmas tree

186

00:10:58,380 --> 00:10:54,310

with you young it's there is a permanent

187

00:11:02,000 --> 00:10:58,390

Christmas sure there yes so this will be

188

00:11:05,460 --> 00:11:02,010

my second new year that I will be

189

00:11:07,350 --> 00:11:05,470

celebrating onboard the station so there

190

00:11:09,660 --> 00:11:07,360

are christmas toys there in your toys

191

00:11:11,730 --> 00:11:09,670

they're decorations they're already on

192

00:11:15,660 --> 00:11:11,740

board the station and my understanding

193

00:11:18,210 --> 00:11:15,670

is that all crewmates all crews used

194

00:11:20,250 --> 00:11:18,220

those decorations so we're going to do

195

00:11:23,250 --> 00:11:20,260

the same yeah but i did see porn i

196

00:11:28,290 --> 00:11:23,260

figured i kiss you so will you also have

197

00:11:30,000 --> 00:11:28,300

10 day holidays as in Russia it's a

198

00:11:33,260 --> 00:11:30,010

Russian tradition to have today holidays

199

00:11:36,860 --> 00:11:33,270

well we will be celebrating the new year

200

00:11:41,760 --> 00:11:36,870

16 times because there are 16 orbits in

201
00:11:45,710 --> 00:11:41,770
24 hours well that's a joke but yes we

202
00:11:49,079 --> 00:11:45,720
will be celebrating yeah the new year

203
00:11:51,240 --> 00:11:49,089
for the time in those countries there

204
00:11:55,460 --> 00:11:51,250
presenta tips of which are already on

205
00:11:58,170 --> 00:11:55,470
board the station so Japanese Russian

206
00:12:01,949 --> 00:11:58,180
houston new year will be celebrating in

207
00:12:05,230 --> 00:12:01,959
here so you're not going to get any rest

208
00:12:11,420 --> 00:12:08,950
william no.16 orbit 16 celebrations

209
00:12:15,410 --> 00:12:11,430
choco tacos initiating the move will

210
00:12:18,110 --> 00:12:15,420
there be any other mascots besides the

211
00:12:20,350 --> 00:12:18,120
wonderful black kids what is what they

212
00:12:24,290 --> 00:12:20,360
all say taking with you to the station

213
00:12:26,630 --> 00:12:24,300

that is asian that photographs of my

214

00:12:29,930 --> 00:12:26,640

family mike is my opposed to do I know

215

00:12:36,290 --> 00:12:29,940

that Mike maybe can add something to

216

00:12:39,080 --> 00:12:36,300

this so I don't have a black cat that

217

00:12:41,540 --> 00:12:39,090

i'll be taking poisoning media chipping

218

00:12:45,020 --> 00:12:41,550

the question customer service no but i

219

00:12:48,170 --> 00:12:45,030

do have a few special mementos that i'll

220

00:12:51,080 --> 00:12:48,180

be taking up with the one very important

221

00:12:54,410 --> 00:12:51,090

is my wedding ring and the wedding band

222

00:12:57,620 --> 00:12:54,420

and my wife I I do take off the ring

223

00:12:59,990 --> 00:12:57,630

when I'm working around equipment but I

224

00:13:04,310 --> 00:13:00,000

will have a very close to the necklace

225

00:13:07,820 --> 00:13:04,320

hello yeah you got clean man my name is

226

00:13:11,510 --> 00:13:07,830

your Kirkland I part of christmas from

227

00:13:14,840 --> 00:13:11,520

the carousel TV station I have a

228

00:13:17,510 --> 00:13:14,850

question for you I met Sergey ryazanskiy

229

00:13:20,870 --> 00:13:17,520

at gctc and we were working out together

230

00:13:23,660 --> 00:13:20,880

and I had a chance to sit once again

231

00:13:27,140 --> 00:13:23,670

that cosmonauts are very well prepared

232

00:13:30,980 --> 00:13:27,150

for the station so my question is in

233

00:13:33,440 --> 00:13:30,990

which sports can you compete for example

234

00:13:37,940 --> 00:13:33,450

during the Russian Olympics so maybe

235

00:13:41,900 --> 00:13:37,950

there is a specific sport yes there are

236

00:13:45,050 --> 00:13:41,910

quite a few sports where we can be

237

00:13:49,460 --> 00:13:45,060

really good athletes we can ski we can

238

00:13:53,000 --> 00:13:49,470

run we can swim before so we were

239

00:13:58,190 --> 00:13:53,010

discussing money among ourselves which

240

00:14:02,390 --> 00:13:58,200

type of support is more like work in

241

00:14:06,620 --> 00:14:02,400

space is like synchronous swimming well

242

00:14:09,980 --> 00:14:06,630

I can see the reaction of all the people

243

00:14:12,020 --> 00:14:09,990

present here I think it's understandable

244

00:14:13,230 --> 00:14:12,030

why it is so because we are doing

245

00:14:18,139 --> 00:14:13,240

everything

246

00:14:24,620 --> 00:14:18,149

in parallel yeah maybe diving also

247

00:14:29,280 --> 00:14:24,630

because the crew has to be playing as

248

00:14:31,350 --> 00:14:29,290

team players and they very well prepared

249

00:14:38,510 --> 00:14:31,360

for that and when you talk about running

250

00:14:42,269 --> 00:14:38,520

of course if they go to the Olympics and

251
00:14:44,940 --> 00:14:42,279
the distance that they will be running

252
00:14:47,970 --> 00:14:44,950
on their treadmill on board the SS is

253
00:14:51,449 --> 00:14:47,980
longer than the Olympic distances hello

254
00:14:53,970 --> 00:14:51,459
I'm also from the carousel TV station

255
00:15:00,540 --> 00:14:53,980
akira kokori was more significant when

256
00:15:05,070 --> 00:15:00,550
will you be completely adjusted to 0 G

257
00:15:08,690 --> 00:15:05,080
so we would like to see you showing some

258
00:15:10,800 --> 00:15:08,700
tricks on board the station nobody's

259
00:15:13,410 --> 00:15:10,810
apologizing man I think we will be able

260
00:15:18,060 --> 00:15:13,420
to do that in a couple of hours after we

261
00:15:20,699 --> 00:15:18,070
launched in our Soyuz vehicle it's very

262
00:15:23,970 --> 00:15:20,709
unusual for those who fly to space for

263
00:15:26,639 --> 00:15:23,980

the first time you can do somersaults

264

00:15:28,590 --> 00:15:26,649

because it's sometimes hard for those

265

00:15:30,449 --> 00:15:28,600

people who fly to space for the first

266

00:15:37,670 --> 00:15:30,459

time to move in the direction they want

267

00:15:40,500 --> 00:15:37,680

to move sometimes they just get lost and

268

00:15:46,620 --> 00:15:40,510

they sometimes ask their colleagues

269

00:15:49,139 --> 00:15:46,630

their crewmates to help them out so I

270

00:15:51,269 --> 00:15:49,149

think that it takes maybe a couple of

271

00:15:57,600 --> 00:15:51,279

days for them to get completely adjusted

272

00:16:03,150 --> 00:15:57,610

to zero-g to be able to orient

273

00:16:05,730 --> 00:16:03,160

themselves in zero-g so when you go to

274

00:16:08,250 --> 00:16:05,740

space for the second third time you

275

00:16:12,840 --> 00:16:08,260

don't have this such a long period of

276
00:16:14,100 --> 00:16:12,850
adjustment thank you very much can you

277
00:16:16,880 --> 00:16:14,110
good

278
00:16:19,620 --> 00:16:16,890
if not the shores roster omelet

279
00:16:21,990 --> 00:16:19,630
congratulations once again we'll have a

280
00:16:23,910 --> 00:16:22,000
safe flight super cool I have a question

281
00:16:29,360 --> 00:16:23,920
why should you puffy little bilham I

282
00:16:33,269 --> 00:16:29,370
know you some of your crew members and I

283
00:16:37,290 --> 00:16:33,279
like the atmosphere that you have in

284
00:16:39,750 --> 00:16:37,300
your crew I think your old friends and I

285
00:16:42,840 --> 00:16:39,760
have a question for each of you can each

286
00:16:46,259 --> 00:16:42,850
of you please people describe your

287
00:16:49,889 --> 00:16:46,269
crewmates so can you say like the main

288
00:16:53,069 --> 00:16:49,899

voice that would best describe your

289

00:16:55,199 --> 00:16:53,079

crewmates you give this movie a lot of

290

00:16:58,470 --> 00:16:55,209

opera some support engineer my dear and

291

00:17:00,840 --> 00:16:58,480

multiple no flight engineers cannot say

292

00:17:04,559 --> 00:17:00,850

bad things about their commander yes of

293

00:17:11,850 --> 00:17:04,569

course I know that you won't say any bad

294

00:17:17,400 --> 00:17:11,860

words about anyone passing the time it's

295

00:17:19,770 --> 00:17:17,410

a very dangerous question first you can

296

00:17:22,980 --> 00:17:19,780

characterize them as professionals as

297

00:17:26,189 --> 00:17:22,990

human beings as friends there are a lot

298

00:17:29,640 --> 00:17:26,199

of words that I can say about my good

299

00:17:33,270 --> 00:17:29,650

friends my crewmates just sum it up I

300

00:17:37,320 --> 00:17:33,280

can say that I'm very lucky to have such

301

00:17:40,080 --> 00:17:37,330

a great crew the atmosphere and our crew

302

00:17:42,720 --> 00:17:40,090

is wonderful and I'm really looking

303

00:17:45,419 --> 00:17:42,730

forward to starting working all together

304

00:17:48,960 --> 00:17:45,429

on board the station to starting living

305

00:17:51,810 --> 00:17:48,970

together as friends as crewmates we are

306

00:17:54,360 --> 00:17:51,820

a great team we support each other very

307

00:17:58,950 --> 00:17:54,370

well we have very good relationships

308

00:18:01,220 --> 00:17:58,960

inside it within our crew well these are

309

00:18:03,390 --> 00:18:01,230

maybe the main words besides those

310

00:18:07,740 --> 00:18:03,400

professional characteristics that i can

311

00:18:10,169 --> 00:18:07,750

give them come on here i can say that my

312

00:18:15,210 --> 00:18:10,179

commander was a role model for me before

313

00:18:19,100 --> 00:18:15,220

I even was assigned to this crew I have

314

00:18:24,150 --> 00:18:19,110

never seen anyone working as hard as

315

00:18:25,730 --> 00:18:24,160

Mike he's the right seat he's performing

316

00:18:27,410 --> 00:18:25,740

a lot of functions

317

00:18:30,620 --> 00:18:27,420

in the service vehicle he's always ready

318

00:18:34,610 --> 00:18:30,630

to help us two sisters he's always alert

319

00:18:36,350 --> 00:18:34,620

so to say a few and he's kiss has very

320

00:18:38,330 --> 00:18:36,360

good sense of humor you know that you

321

00:18:40,490 --> 00:18:38,340

cannot live aboard the station for a

322

00:18:47,690 --> 00:18:40,500

long time without a great sense of humor

323

00:18:50,960 --> 00:18:47,700

so mike has it my turn I guess first I'm

324

00:18:54,970 --> 00:18:50,970

not quite sure how I got so lucky to be

325

00:18:57,470 --> 00:18:54,980

included on this crew dr. Gao Qi Chi

326

00:19:01,669 --> 00:18:57,480

Mukwa pitted estaba en las quickly

327

00:19:04,220 --> 00:19:01,679

adjusted football taco but no poor /

328

00:19:06,919 --> 00:19:04,230

Sergei I would just say my gosh

329

00:19:09,440 --> 00:19:06,929

extremely intelligent I said get Scudder

330

00:19:14,690 --> 00:19:09,450

stone Christina overpricing home young

331

00:19:17,630 --> 00:19:14,700

and very fine each team officially for

332

00:19:20,990 --> 00:19:17,640

all leg i would say extremely

333

00:19:23,900 --> 00:19:21,000

experienced progress mr. stone watching

334

00:19:27,080 --> 00:19:23,910

open each leg and he has a calming

335

00:19:29,930 --> 00:19:27,090

presence about him so as we go through

336

00:19:32,120 --> 00:19:29,940

training and we're doing emergencies he

337

00:19:35,090 --> 00:19:32,130

just seems to bring it down to the right

338

00:19:36,860 --> 00:19:35,100

level in your chin her features to some

339

00:19:39,799 --> 00:19:36,870

abode i just go down to check your

340

00:19:42,470 --> 00:19:39,809

sadness episode Tom Silda vigil on

341

00:19:45,320 --> 00:19:42,480

stereo to come against rice and then

342

00:19:50,299 --> 00:19:45,330

finally I think probably most important

343

00:19:53,570 --> 00:19:50,309

is his two friends you know that we had

344

00:19:57,919 --> 00:19:53,580

a competition at gctc the best question

345

00:20:00,320 --> 00:19:57,929

for the crew we didn't expect to see so

346

00:20:07,570 --> 00:20:00,330

many applications we received a couple

347

00:20:12,950 --> 00:20:07,580

of hundreds of questions and the crew

348

00:20:16,760 --> 00:20:12,960

selected 12 questions and some of these

349

00:20:19,430 --> 00:20:16,770

questions were answered already by the

350

00:20:20,780 --> 00:20:19,440

crew so we invited those people who ask

351

00:20:23,830 --> 00:20:20,790

those questions to be present during

352

00:20:27,169 --> 00:20:23,840

this press conference I would like to

353

00:20:30,530 --> 00:20:27,179

give the floor to are represented from

354

00:20:32,590 --> 00:20:30,540

yekaterinburg to ask his question in

355

00:20:38,010 --> 00:20:32,600

person

356

00:20:40,420 --> 00:20:38,020

oh go ahead I need we need me I'll like

357

00:20:43,600 --> 00:20:40,430

I know that a dream to become a

358

00:20:46,720 --> 00:20:43,610

cosmonaut is a bit crazy how did your

359

00:20:50,020 --> 00:20:46,730

family react to your desire and what did

360

00:20:53,770 --> 00:20:50,030

they say about your desire to become a

361

00:20:57,400 --> 00:20:53,780

cosmonaut my finish thank you well I

362

00:20:59,740 --> 00:20:57,410

cannot say that this dream is crazy yeah

363

00:21:04,000 --> 00:20:59,750

but it's not something that cannot come

364

00:21:09,310 --> 00:21:04,010

true I always wanted to go to space and

365

00:21:11,230 --> 00:21:09,320

I wish you to fly to space as well if

366

00:21:16,420 --> 00:21:11,240

you really wanted because it's a great

367

00:21:19,540 --> 00:21:16,430

experience my parents always were very

368

00:21:21,340 --> 00:21:19,550

supportive of all my dreams I know that

369

00:21:25,350 --> 00:21:21,350

parents usually support the children if

370

00:21:30,670 --> 00:21:27,940

really it must be invaluable this is

371

00:21:33,850 --> 00:21:30,680

your first flight nurse julie

372

00:21:35,740 --> 00:21:33,860

news-gazette coming to us were so how

373

00:21:39,420 --> 00:21:35,750

did your dream start to become a

374

00:21:46,090 --> 00:21:39,430

cosmonaut didn't have any hurdles that

375

00:21:49,510 --> 00:21:46,100

you had to overcome me show me yes boom

376

00:21:51,670 --> 00:21:49,520

when I was an adult I started dreaming

377

00:21:56,500 --> 00:21:51,680

of becoming a cosmonaut when it was a

378

00:21:59,890 --> 00:21:56,510

child I liked everything about space my

379

00:22:01,690 --> 00:21:59,900

grandfather always told me about space

380

00:22:04,930 --> 00:22:01,700

he was one of the chief designers of

381

00:22:08,890 --> 00:22:04,940

space vehicles and he had a lot of

382

00:22:11,500 --> 00:22:08,900

stories for me dude so I wanted to do

383

00:22:15,610 --> 00:22:11,510

the same thing I wanted to have the same

384

00:22:19,330 --> 00:22:15,620

interesting job at the same time I be a

385

00:22:21,910 --> 00:22:19,340

Luger was majoring in biology later and

386

00:22:28,420 --> 00:22:21,920

I chose that path then later in my life

387

00:22:30,250 --> 00:22:28,430

I got a chance to fly to space and I

388

00:22:32,620 --> 00:22:30,260

didn't want to miss the chance so I'm

389

00:22:35,560 --> 00:22:32,630

here thank you very much who got the

390

00:22:40,120 --> 00:22:35,570

money so this was yakitori work now

391

00:22:48,970 --> 00:22:46,000

do you yeah hello you good afternoon I'm

392

00:22:51,580 --> 00:22:48,980

the head of the astronauts club in st.

393

00:22:55,380 --> 00:22:51,590

Petersburg I have a question for Allah

394

00:22:59,010 --> 00:22:55,390

caught up Thank one you know to avoid

395

00:23:06,070 --> 00:22:59,020

what was the most difficult thing about

396

00:23:10,330 --> 00:23:06,080

um your training psychological or what

397

00:23:13,390 --> 00:23:10,340

was the most difficult part I think the

398

00:23:16,480 --> 00:23:13,400

technical part wasn't most difficult the

399

00:23:20,320 --> 00:23:16,490

most propitious school formal if you

400

00:23:22,360 --> 00:23:20,330

talk about our physical shape we always

401
00:23:27,040 --> 00:23:22,370
have to be in great shape it's not our

402
00:23:29,890 --> 00:23:27,050
desire it's a requirement of any

403
00:23:33,910 --> 00:23:29,900
cosmonaut astronaut yeah this one out so

404
00:23:36,490 --> 00:23:33,920
while I was part of the cosmonaut score

405
00:23:39,430 --> 00:23:36,500
here in Russia I had to be in great

406
00:23:42,310 --> 00:23:39,440
shape before he's talking about

407
00:23:46,750 --> 00:23:42,320
psychological preparation it's also very

408
00:23:48,820 --> 00:23:46,760
important aspect yeah and all our work

409
00:23:53,280 --> 00:23:48,830
that we were doing in the cosmonaut

410
00:23:56,830 --> 00:23:53,290
score different types of training

411
00:24:00,060 --> 00:23:56,840
everything like that was targeted heads

412
00:24:05,380 --> 00:24:00,070
give even a part of preparing you

413
00:24:08,800 --> 00:24:05,390

psychologically for such a flight wings

414

00:24:12,310 --> 00:24:08,810

dardo to be absolutely prepared for your

415

00:24:17,140 --> 00:24:12,320

lunch to have a good mood to be ready to

416

00:24:20,020 --> 00:24:17,150

work to have a good approach however our

417

00:24:23,140 --> 00:24:20,030

training flow is mostly focused on your

418

00:24:25,330 --> 00:24:23,150

technical preparation and training you

419

00:24:29,740 --> 00:24:25,340

know that every program is different

420

00:24:34,810 --> 00:24:29,750

every mission program is different so we

421

00:24:40,180 --> 00:24:34,820

were trained to work individually as a

422

00:24:43,270 --> 00:24:40,190

crew member and we are very grateful to

423

00:24:47,440 --> 00:24:43,280

our instructors at gctc to our technical

424

00:24:50,230 --> 00:24:47,450

specialists who helped us prepare for

425

00:24:51,590 --> 00:24:50,240

our flight I would like to thank

426

00:24:54,140 --> 00:24:51,600

everyone from

427

00:24:57,169 --> 00:24:54,150

organizations who helped us prepare for

428

00:25:00,590 --> 00:24:57,179

this flight this our readiness for the

429

00:25:02,480 --> 00:25:00,600

flight is the result of work of hundreds

430

00:25:05,720 --> 00:25:02,490

or even thousands of people around the

431

00:25:07,430 --> 00:25:05,730

world thank you I see what sure i'm not

432

00:25:09,909 --> 00:25:07,440

about to show you just give up roses

433

00:25:15,260 --> 00:25:09,919

full of them okay one more question from

434

00:25:18,980 --> 00:25:15,270

Vologda minas a moon one sec hello my

435

00:25:21,890 --> 00:25:18,990

name is vai Sikahema i'm from Vologda do

436

00:25:23,779 --> 00:25:21,900

you have any fears are you afraid to fly

437

00:25:28,580 --> 00:25:23,789

to space and how do you cope with all

438

00:25:31,460 --> 00:25:28,590

your fears can I see you again our

439

00:25:34,840 --> 00:25:31,470

psychologists usually say that if a

440

00:25:37,700 --> 00:25:34,850

person is not afraid of anything then

441

00:25:40,250 --> 00:25:37,710

two psychiatrist not a techie you

442

00:25:43,520 --> 00:25:40,260

saluted cosmonauts are regular people

443

00:25:45,380 --> 00:25:43,530

and of course we have regular fears of

444

00:25:48,680 --> 00:25:45,390

course we have some worries or concerns

445

00:25:51,919 --> 00:25:48,690

during our training flow but the course

446

00:25:56,390 --> 00:25:51,929

of this training flow you get used to

447

00:25:59,090 --> 00:25:56,400

being exposed to some risk today and you

448

00:26:01,190 --> 00:25:59,100

learn to cope with these fears what you

449

00:26:03,049 --> 00:26:01,200

want about but we can think about our

450

00:26:10,940 --> 00:26:03,059

fears later so we try not to think about

451
00:26:14,090 --> 00:26:10,950
them okay thanks i also have a fear da

452
00:26:16,340 --> 00:26:14,100
miedo she is much stuff and that is that

453
00:26:18,140 --> 00:26:16,350
this is all a dream and I'm going to

454
00:26:21,320 --> 00:26:18,150
wake up and not have the opportunity to

455
00:26:27,890 --> 00:26:21,330
fly in space storage in women quieres

456
00:26:33,360 --> 00:26:30,720
but don't do and I was accepted mama

457
00:26:36,300 --> 00:26:33,370
fellas car so cancel a funny movie maybe

458
00:26:38,250 --> 00:26:36,310
our cosmonauts will tell us later what

459
00:26:42,890 --> 00:26:38,260
fear is they have they are real cosmos

460
00:26:52,080 --> 00:26:47,760
professional journalists here have some

461
00:26:53,820 --> 00:26:52,090
concerns about the time here when you

462
00:26:56,900 --> 00:26:53,830
watch it oh so let's give the floor to

463
00:27:00,000 --> 00:26:56,910

them I have a small question for you

464

00:27:04,500 --> 00:27:00,010

what was the reaction of your own

465

00:27:06,210 --> 00:27:04,510

children to your flights to space so who

466

00:27:09,540 --> 00:27:06,220

will see you who will be seeing you off

467

00:27:11,910 --> 00:27:09,550

at Baikonur now my children are proud of

468

00:27:14,700 --> 00:27:11,920

me can you scootch I of course they are

469

00:27:19,050 --> 00:27:14,710

going to miss me my eldest son will be

470

00:27:22,800 --> 00:27:19,060

at Baikonur he's already high school

471

00:27:27,180 --> 00:27:22,810

students so he'll be seeing me off and

472

00:27:28,830 --> 00:27:27,190

your children do they have anything else

473

00:27:36,180 --> 00:27:28,840

to do of course they have to be proud of

474

00:27:41,340 --> 00:27:36,190

me what can I say no each parent should

475

00:27:45,180 --> 00:27:41,350

be a role model for um his or her

476

00:27:48,060 --> 00:27:45,190

children I can say that my son wants to

477

00:27:51,870 --> 00:27:48,070

become a cosmonaut he wants to become a

478

00:27:56,520 --> 00:27:51,880

surgeon as well so my daughter told me

479

00:27:59,580 --> 00:27:56,530

that no she would not become a cosmonaut

480

00:28:04,740 --> 00:27:59,590

because she knows how difficult this

481

00:28:06,480 --> 00:28:04,750

profession is so my son will not be at

482

00:28:11,280 --> 00:28:06,490

Baikonur but my daughter will be seeing

483

00:28:15,000 --> 00:28:11,290

me off great somebody I have two sons

484

00:28:19,140 --> 00:28:15,010

and they're very excited for this

485

00:28:20,169 --> 00:28:19,150

upcoming flight Oh Mia Vasu nanny or

486

00:28:22,840 --> 00:28:20,179

change

487

00:28:29,889 --> 00:28:22,850

the apparition they're going to have the

488

00:28:31,450 --> 00:28:29,899

opportunity to come to the launch and I

489

00:28:33,279 --> 00:28:31,460

think the most exciting thing for them

490

00:28:36,609 --> 00:28:33,289

is that they're going to miss about 10

491

00:28:39,639 --> 00:28:36,619

days of school for the launch photos

492

00:28:45,149 --> 00:28:39,649

more specifics in a viernes on my grade

493

00:28:49,710 --> 00:28:45,159

mr. attorney blue LED cinema pieces for

494

00:28:52,930 --> 00:28:49,720

Bastille Basha thank you very much

495

00:28:57,100 --> 00:28:52,940

Viviana I would like to give floor to

496

00:28:59,700 --> 00:28:57,110

URI Berezovsky yeah yeah pop retinas

497

00:29:04,180 --> 00:28:59,710

cool status code word culture

498

00:29:06,850 --> 00:29:04,190

representative of the of course opolis I

499

00:29:08,590 --> 00:29:06,860

have a question for Sergei ryazanskiy

500

00:29:13,080 --> 00:29:08,600

with your nikamoda me you were a

501
00:29:18,279 --> 00:29:13,090
participant of Mars 500 experiment in

502
00:29:19,869 --> 00:29:18,289
2006-2007 so I know that all the cars

503
00:29:29,580 --> 00:29:19,879
Jimmy was also participating in that

504
00:29:35,769 --> 00:29:33,129
so will you be participating in future

505
00:29:41,859 --> 00:29:35,779
Mars experiments are you planning to fly

506
00:29:44,850 --> 00:29:41,869
to Mars in future of course every

507
00:29:48,639 --> 00:29:44,860
soldier dreams about becoming a general

508
00:29:51,039 --> 00:29:48,649
so I was dreaming about going to the

509
00:29:53,259 --> 00:29:51,049
station and my dream came true if I have

510
00:29:57,039 --> 00:29:53,269
a chance to fly to Mars yes of course i

511
00:30:01,659 --> 00:29:57,049
will use that chance if we have the

512
00:30:05,680 --> 00:30:01,669
chance in our lifetime so Alec will fly

513
00:30:07,810 --> 00:30:05,690

to the station soon in six months so we

514

00:30:10,239 --> 00:30:07,820

will continue performing our scientific

515

00:30:19,790 --> 00:30:10,249

experiments and fly to Mars if that's

516

00:30:39,920 --> 00:30:19,800

possible yes we will fly to Mars agree

517

00:30:42,920 --> 00:30:39,930

i know i would like to mention that we

518

00:30:44,780 --> 00:30:42,930

have a lot of representatives of

519

00:30:47,300 --> 00:30:44,790

different professions here from

520

00:30:50,480 --> 00:30:47,310

agriculture journalism teachers high

521

00:30:53,720 --> 00:30:50,490

school teachers university teachers

522

00:30:59,180 --> 00:30:53,730

professors I have a question for all it

523

00:31:03,710 --> 00:30:59,190

cut off to read any fiction onboard the

524

00:31:08,180 --> 00:31:03,720

station emotion Williams possession I

525

00:31:10,550 --> 00:31:08,190

said me so i know that you read a lot

526

00:31:14,300 --> 00:31:10,560

here on the ground will you continue

527

00:31:17,210 --> 00:31:14,310

reading in space yes i can tell you that

528

00:31:19,160 --> 00:31:17,220

there is even a small library on board

529

00:31:23,120 --> 00:31:19,170

the station and cosmo nice to read books

530

00:31:25,580 --> 00:31:23,130

there some people simply leave their own

531

00:31:28,370 --> 00:31:25,590

books on board the station the library

532

00:31:33,220 --> 00:31:28,380

is not that big unfortunately we have

533

00:31:38,300 --> 00:31:33,230

books in English there too so lately I

534

00:31:41,050 --> 00:31:38,310

like to read electronic books in at the

535

00:31:45,860 --> 00:31:41,060

electronic format it's easier for me

536

00:31:48,890 --> 00:31:45,870

they have a lot of books like that so i

537

00:31:52,730 --> 00:31:48,900

can download a lot of books at the same

538

00:31:54,770 --> 00:31:52,740

time so we have electronic books on

539

00:31:59,030 --> 00:31:54,780

board the station too i think that each

540

00:32:01,970 --> 00:31:59,040

crew member can select his own books

541

00:32:05,350 --> 00:32:01,980

that he would like to read it's not only

542

00:32:10,450 --> 00:32:05,360

fiction there are a lot of genres there

543

00:32:15,670 --> 00:32:10,460

g so a reading is a very pleasant

544

00:32:18,410 --> 00:32:15,680

activity onboard the station so

545

00:32:20,870 --> 00:32:18,420

especially if you take a real book a

546

00:32:22,899 --> 00:32:20,880

paper book and you start turning pages

547

00:32:31,119 --> 00:32:22,909

thank you

548

00:32:33,039 --> 00:32:31,129

I would like to remind you that Sergei

549

00:32:40,359 --> 00:32:33,049

was participating in the experiment one

550

00:32:46,570 --> 00:32:40,369

here at 79 books in 105 days Wow ok

551

00:32:50,169 --> 00:32:46,580

let's continue our press conference I

552

00:33:00,070 --> 00:32:50,179

have questions from people who could not

553

00:33:05,190 --> 00:33:00,080

be present here hello my name is revered

554

00:33:09,969 --> 00:33:05,200

I was participating in the competition

555

00:33:12,969 --> 00:33:09,979

organized by gctc and we received a lot

556

00:33:18,339 --> 00:33:12,979

of questions for you and the best

557

00:33:22,950 --> 00:33:18,349

question is the following what

558

00:33:25,989 --> 00:33:22,960

traditions do us OS crew members have

559

00:33:30,390 --> 00:33:25,999

and which traditions do Russian

560

00:33:34,950 --> 00:33:33,750

so this is my first flight and so

561

00:33:38,420 --> 00:33:34,960

unfortunately I didn't have the

562

00:33:40,620 --> 00:33:38,430

opportunity to apply on the show

563

00:33:42,750 --> 00:33:40,630

associated to my Peter but as many of

564

00:33:44,250 --> 00:33:42,760

the listeners could take the shuttle and

565

00:33:46,950 --> 00:33:44,260

so I haven't had the opportunity to

566

00:33:50,130 --> 00:33:46,960

experience many of those traditions that

567

00:33:53,220 --> 00:33:50,140

are astronauts have with with the

568

00:33:55,980 --> 00:33:53,230

shuttle and enter we're extremely robust

569

00:34:00,350 --> 00:33:55,990

emotions to synthetics about 30 is too

570

00:34:03,570 --> 00:34:00,360

much because it was run out the CC

571

00:34:05,850 --> 00:34:03,580

Celtics trouble the one certainly

572

00:34:08,850 --> 00:34:05,860

excited about having an opportunity to

573

00:34:10,530 --> 00:34:08,860

share in some of the Russian traditions

574

00:34:12,270 --> 00:34:10,540

and we're getting to experience some of

575

00:34:15,899 --> 00:34:12,280

those today look at your show never

576

00:34:23,800 --> 00:34:15,909

cross motion no skipper I could see if I

577

00:34:32,980 --> 00:34:28,840

oh yes of course we do have traditions

578

00:34:34,620 --> 00:34:32,990

in the Russian segment we cannot say

579

00:34:36,910 --> 00:34:34,630

that Russian cosmonauts are

580

00:34:41,530 --> 00:34:36,920

superstitious however they do follow

581

00:34:46,450 --> 00:34:41,540

their traditions for example to leave

582

00:34:52,510 --> 00:34:46,460

your autograph on the door before the

583

00:34:55,800 --> 00:34:52,520

launch day then this song that we are

584

00:35:00,280 --> 00:34:55,810

listening right before leaving our hotel

585

00:35:01,750 --> 00:35:00,290

before we go to the launch pad there are

586

00:35:06,280 --> 00:35:01,760

traditions but I cannot call them

587

00:35:08,410 --> 00:35:06,290

superstitions then we watch the white

588

00:35:14,920 --> 00:35:08,420

Sun of the desert that's a russian movie

589

00:35:18,550 --> 00:35:14,930

right before the launch so our manned

590

00:35:20,320 --> 00:35:18,560

flight program is sometimes based on

591

00:35:24,130 --> 00:35:20,330

these traditions and sometimes you don't

592

00:35:30,100 --> 00:35:24,140

even remember how these traditions

593

00:35:33,310 --> 00:35:30,110

originated Michael said that he didn't

594

00:35:35,350 --> 00:35:33,320

have a chance to fly on shuttle that's

595

00:35:38,500 --> 00:35:35,360

why he doesn't know these traditions I

596

00:35:41,500 --> 00:35:38,510

had this opportunity I can tell you that

597

00:35:47,790 --> 00:35:41,510

of course there are some traditions that

598

00:35:52,120 --> 00:35:47,800

to some extent is a general tradition I

599

00:36:01,960 --> 00:35:52,130

won't be describing this tradition in

600

00:36:07,240 --> 00:36:01,970

detail can you tell us no I won't while

601
00:36:10,890 --> 00:36:07,250
listening to your replies I can say that

602
00:36:17,880 --> 00:36:10,900
it's really proves that this is an

603
00:36:24,110 --> 00:36:22,570
have a question from victoria from the

604
00:36:30,860 --> 00:36:24,120
Moscow region

605
00:36:34,490 --> 00:36:30,870
I have a question where would you like

606
00:36:43,060 --> 00:36:34,500
to go on earth if you had a magic wand

607
00:36:47,210 --> 00:36:43,070
where would you go where for a biologist

608
00:36:55,910 --> 00:36:47,220
it will be great to go to some exotic

609
00:37:01,250 --> 00:36:55,920
places so I really have this dream uh

610
00:37:09,290 --> 00:37:01,260
South America and Alaska medic

611
00:37:11,480 --> 00:37:09,300
Madagascar I would like to be everywhere

612
00:37:17,330 --> 00:37:11,490
I would like to go everywhere on Earth

613
00:37:22,070 --> 00:37:17,340

so that's my dream so wherever I was

614

00:37:24,530 --> 00:37:22,080

forever traveled on earth it was

615

00:37:29,360 --> 00:37:24,540

interesting everywhere each country has

616

00:37:31,460 --> 00:37:29,370

its own climate nature traditions

617

00:37:39,680 --> 00:37:31,470

everything is interesting you want to

618

00:37:43,130 --> 00:37:39,690

see everything there so I had an

619

00:37:47,120 --> 00:37:43,140

opportunity to travel a lot during my

620

00:37:49,100 --> 00:37:47,130

job oh yeah blowing smoke we have a good

621

00:37:51,830 --> 00:37:49,110

look but I've never had a chance to go

622

00:37:53,690 --> 00:37:51,840

to either Africa or Antarctica so I

623

00:38:05,360 --> 00:37:53,700

think those would be too great places to

624

00:38:09,500 --> 00:38:05,370

visit welcome reception suppose he did

625

00:38:11,360 --> 00:38:09,510

you know you know maybe it's some

626

00:38:14,570 --> 00:38:11,370

illusion that cosmonauts travel

627

00:38:18,410 --> 00:38:14,580

everywhere well some of us yes we travel

628

00:38:25,070 --> 00:38:18,420

to a lot of places we have seen um a lot

629

00:38:29,330 --> 00:38:25,080

of places in different conditions we

630

00:38:33,020 --> 00:38:29,340

travel a lot but in reality we have an

631

00:38:35,240 --> 00:38:33,030

opportunity even less opportunity to

632

00:38:41,170 --> 00:38:35,250

travel then those people who are not

633

00:38:53,660 --> 00:38:45,830

and right now i know we have three

634

00:39:03,200 --> 00:38:53,670

questions Katrina please ask your first

635

00:39:08,990 --> 00:39:03,210

question yep so this should be brief

636

00:39:14,230 --> 00:39:09,000

questions hello my name is Ekaterina my

637

00:39:16,430 --> 00:39:14,240

question about sport was already asked

638

00:39:20,360 --> 00:39:16,440

so i would like to ask a different

639

00:39:22,910 --> 00:39:20,370

question for Sergei a moscow state

640

00:39:27,769 --> 00:39:22,920

university student and i know that you

641

00:39:33,779 --> 00:39:30,749

which subject you think will help me

642

00:39:43,099 --> 00:39:33,789

best to become a cosmonaut in future

643

00:39:47,370 --> 00:39:43,109

thank you only one subject uh sport

644

00:39:49,440 --> 00:39:47,380

physical training everything else you

645

00:39:53,219 --> 00:39:49,450

can learn that later but physical

646

00:39:56,479 --> 00:39:53,229

training is important just study what

647

00:40:04,200 --> 00:39:56,489

you like most that's my advice to you

648

00:40:08,940 --> 00:40:04,210

Alexander your question um their

649

00:40:12,630 --> 00:40:08,950

crewmates my name is Alexander you are

650

00:40:14,670 --> 00:40:12,640

an international crew which team will

651
00:40:22,920 --> 00:40:14,680
you be supporting during the Olympics

652
00:40:25,859 --> 00:40:22,930
United States Russia of course we will

653
00:40:30,299 --> 00:40:25,869
be supporting our own countries our own

654
00:40:34,739 --> 00:40:30,309
teams I think that's natural and we'll

655
00:40:37,079 --> 00:40:34,749
be supporting those sports that will be

656
00:40:40,170 --> 00:40:37,089
able to see onboard the station I think

657
00:40:42,779 --> 00:40:40,180
it will be difficult to watch everything

658
00:40:45,539 --> 00:40:42,789
from board the station however we'll

659
00:40:49,979 --> 00:40:45,549
have a couple of broadcasts I'm pretty

660
00:40:51,959 --> 00:40:49,989
sure of that oh I hope that our

661
00:40:54,089 --> 00:40:51,969
psychologists were able to send us the

662
00:41:00,479 --> 00:40:54,099
recordings of those competitions that

663
00:41:03,809 --> 00:41:00,489

are most interesting to us Mike please

664

00:41:06,529 --> 00:41:03,819

answer this question as well so of

665

00:41:09,930 --> 00:41:06,539

course all of you supporting the US team

666

00:41:12,390 --> 00:41:09,940

finished movie of a dish with

667

00:41:24,390 --> 00:41:12,400

but I think everybody also likes to

668

00:41:41,559 --> 00:41:29,890

and final questions please today we saw

669

00:41:44,200 --> 00:41:41,569

a video from your training how will you

670

00:41:47,049 --> 00:41:44,210

deliver the Olympic torch to the station

671

00:41:50,950 --> 00:41:47,059

how can you describe your training how

672

00:41:56,289 --> 00:41:50,960

will be using the Olympic torch onboard

673

00:42:00,910 --> 00:41:56,299

the station yes so as I already told

674

00:42:04,299 --> 00:42:00,920

everyone we won't have flames on board

675

00:42:09,789 --> 00:42:04,309

the station due to some safety reasons

676
00:42:14,019 --> 00:42:09,799
we have some technical constraints we

677
00:42:21,519 --> 00:42:14,029
will take the torch with us to space and

678
00:42:24,069 --> 00:42:21,529
this torch will be delivered by the

679
00:42:29,680 --> 00:42:24,079
service vehicle bet for lunch in

680
00:42:34,240 --> 00:42:29,690
November come the commander of that um

681
00:42:37,900 --> 00:42:34,250
will be Michael Turin avocado and Rick

682
00:42:40,599 --> 00:42:37,910
Mastracchio will be also crew members of

683
00:42:44,740 --> 00:42:40,609
that crew so they will deliver that

684
00:42:48,759 --> 00:42:44,750
torch hopefully that will happen on

685
00:42:52,089 --> 00:42:48,769
november seventh on november ninth we

686
00:42:54,700 --> 00:42:52,099
will take this torch to open space with

687
00:42:56,200 --> 00:42:54,710
us we'll take it to the EBA so we'll be

688
00:42:59,890 --> 00:42:56,210

taking pictures there will be a

689

00:43:05,140 --> 00:42:59,900

recording video we will be passing this

690

00:43:11,230 --> 00:43:05,150

torch to each other and on November 11th

691

00:43:13,450 --> 00:43:11,240

the storage will return to the ground by

692

00:43:17,039 --> 00:43:13,460

the crew of further your chicken and

693

00:43:20,410 --> 00:43:17,049

then the torch will continue

694

00:43:22,230 --> 00:43:20,420

participating in the relay the Olympic

695

00:43:25,089 --> 00:43:22,240

torch

696

00:43:29,200 --> 00:43:25,099

so it's a unique situation one will have

697

00:43:31,749 --> 00:43:29,210

three crews on board the station at the

698

00:43:34,989 --> 00:43:31,759

same time so we will have direct hand

699

00:43:36,579 --> 00:43:34,999

over so I think it will be an

700

00:43:42,640 --> 00:43:36,589

interesting time though it can be

701
00:43:47,200 --> 00:43:42,650
complicated thank you very much can you

702
00:43:51,430 --> 00:43:47,210
answer one more question not a question

703
00:43:55,029 --> 00:43:51,440
but who is going to be the winner of our

704
00:43:58,690 --> 00:43:55,039
competition yes we reviewed all the

705
00:44:02,140 --> 00:43:58,700
questions that were submitted to us it

706
00:44:06,390 --> 00:44:02,150
was very difficult to find the best

707
00:44:11,739 --> 00:44:06,400
question it select the best question

708
00:44:16,420 --> 00:44:11,749
lucky delicious so we wanted to invite

709
00:44:19,799 --> 00:44:16,430
the winners here so we will be answering

710
00:44:23,859 --> 00:44:19,809
there are many questions from the board

711
00:44:26,559 --> 00:44:23,869
from the station some of these answers

712
00:44:29,489 --> 00:44:26,569
will be posted on the website of gctc

713
00:44:32,440 --> 00:44:29,499

and those people who are here who ask

714

00:44:36,120 --> 00:44:32,450

their questions in person I would like

715

00:44:40,019 --> 00:44:36,130

to give them our photographs with our

716

00:44:44,349 --> 00:44:40,029

signatures autographs and such diplomas

717

00:44:48,789 --> 00:44:44,359

so I would like to give such photographs

718

00:44:55,329 --> 00:44:48,799

and diplomas to each participant who is

719

00:44:57,519 --> 00:44:55,339

here thank you very much I know that you

720

00:45:00,729 --> 00:44:57,529

also have very tight schedule today you

721

00:45:06,759 --> 00:45:00,739

will go to the museum today to the Red

722

00:45:31,870 --> 00:45:06,769

Square and I would like to take a

723

00:45:37,370 --> 00:45:34,820

ladies in public awareness Gnostics mama

724

00:45:41,320 --> 00:45:37,380

Keke let us door OH meccaniche Narada

725

00:46:04,800 --> 00:45:41,330

the leader makes it double duo in

726
00:46:04,810 --> 00:46:35,040
you

727
00:46:35,050 --> 00:46:48,019
just messy bun

728
00:46:48,029 --> 00:47:13,960
yep

729
00:47:13,970 --> 00:49:40,730
able to push

730
00:49:45,270 --> 00:49:43,290
for more we're here out in red square

731
00:49:47,310 --> 00:49:45,280
begin recording some of your traditional

732
00:49:48,810 --> 00:49:47,320
ceremonies and we're sorry about the bad

733
00:49:50,099 --> 00:49:48,820
weather because you took to tell us a

734
00:49:51,330 --> 00:49:50,109
little bit about how your feelings in

735
00:49:53,220 --> 00:49:51,340
there getting that if you space flight

736
00:49:55,050 --> 00:49:53,230
oh right now feeling a little cold a

737
00:49:57,150 --> 00:49:55,060
little wet but actually now it's very

738
00:49:58,800 --> 00:49:57,160

exciting to be here it's great to have

739

00:50:01,170 --> 00:49:58,810

the opportunity to participate in in

740

00:50:03,660 --> 00:50:01,180

these traditions and it's just a

741

00:50:05,520 --> 00:50:03,670

wonderful step we've still got a few

742

00:50:07,109 --> 00:50:05,530

weeks to go but we're getting close all
