

1
00:00:15,749 --> 00:00:13,589
and the first of the three crew members

2
00:00:17,269 --> 00:00:15,759
now being extracted from the soyuz

3
00:00:19,429 --> 00:00:17,279
vehicle

4
00:00:22,950 --> 00:00:19,439
extremely fast just 11 minutes since

5
00:00:26,950 --> 00:00:24,790
so this is the commander

6
00:00:29,269 --> 00:00:26,960
and you're looking at soyuz commander

7
00:00:31,349 --> 00:00:29,279
fyodor yurchikhin being brought to his

8
00:00:33,350 --> 00:00:31,359
uh chair

9
00:00:36,229 --> 00:00:33,360
near the spacecraft

10
00:00:37,830 --> 00:00:36,239
here cheekin having landed

11
00:00:40,950 --> 00:00:37,840
to

12
00:00:43,990 --> 00:00:40,960
log 537 days in space on his four

13
00:00:48,869 --> 00:00:45,830

conducted three spacewalks during

14

00:00:54,790 --> 00:00:48,879

expedition 36 and 37.

15

00:00:54,800 --> 00:01:08,950

we still have time

16

00:01:18,789 --> 00:01:11,270

would you mind raising the torch

17

00:01:18,799 --> 00:01:22,070

in russia

18

00:01:26,870 --> 00:01:24,149

again fyodor yurchikhin holding the

19

00:01:28,950 --> 00:01:26,880

olympic torch over the past few days uh

20

00:01:30,870 --> 00:01:28,960

and few weeks in fact in the build up to

21

00:01:33,590 --> 00:01:30,880

the launch of the torch to the

22

00:01:36,469 --> 00:01:33,600

international space station the torch

23

00:01:38,950 --> 00:01:36,479

had a virtual monopoly on publicity

24

00:01:41,109 --> 00:01:38,960

surrounding uh this bevy of activity

25

00:01:42,870 --> 00:01:41,119

aboard the international space station

26

00:01:45,510 --> 00:01:42,880

but now with the crew uh

27

00:01:47,910 --> 00:01:45,520

safely back on earth uh the torch uh

28

00:01:50,870 --> 00:01:47,920

receives its share of publicity once

29

00:01:52,710 --> 00:01:50,880

again there is the logo for the 2014

30

00:01:56,469 --> 00:01:52,720

social olympic organizing committee so

31

00:01:59,670 --> 00:01:56,479

she.ru 2014 the same logo that was

32

00:02:02,069 --> 00:01:59,680

emblazoned on the payload fairing of the

33

00:02:04,709 --> 00:02:02,079

soyuz rocket that carried mikhail tirin

34

00:02:06,230 --> 00:02:04,719

rick mastracchio and koichi wakata to

35

00:02:09,109 --> 00:02:06,240

the international space station just

36

00:02:25,830 --> 00:02:09,119

four days ago

37

00:02:30,550 --> 00:02:28,070

and there is uh karen nyberg uh having

38

00:02:31,750 --> 00:02:30,560

been extracted she will be placed in her

39

00:02:34,150 --> 00:02:31,760

chair

40

00:02:36,229 --> 00:02:34,160

leaving luca parmitano as the third and

41

00:02:38,229 --> 00:02:36,239

final crew member to be removed from the

42

00:02:40,470 --> 00:02:38,239

soyuz vehicle so you're cheeking out

43

00:03:03,190 --> 00:02:40,480

holding the olympic torch

44

00:03:08,869 --> 00:03:05,030

uh

45

00:03:10,550 --> 00:03:08,879

necessitated the movement of the launch

46

00:03:11,670 --> 00:03:10,560

date of the uh

47

00:03:13,430 --> 00:03:11,680

newest

48

00:03:15,830 --> 00:03:13,440

three crew members to the international

49

00:03:19,110 --> 00:03:15,840

space station by about three weeks now

50

00:03:21,670 --> 00:03:19,120

that uh vicitude of life necessitating

51

00:03:23,509 --> 00:03:21,680

the launching of the latest crew

52

00:03:24,789 --> 00:03:23,519

on november 7th to bring the olympic

53

00:03:27,190 --> 00:03:24,799

torch to orbit

54

00:03:28,789 --> 00:03:27,200

for a four day out of this world relay

55

00:03:32,949 --> 00:03:28,799

to the international space station and

56

00:03:37,750 --> 00:03:35,509

once uh parmitano is out of the vehicle

57

00:03:40,309 --> 00:03:37,760

and has an opportunity and there he is

58

00:03:43,430 --> 00:03:40,319

luca parmitano with a big thumbs up

59

00:03:45,670 --> 00:03:43,440

carried out of the soyuz spacecraft to

60

00:03:48,630 --> 00:03:45,680

his chair

61

00:03:51,190 --> 00:03:48,640

by this by the capsule uh all three crew

62

00:03:52,869 --> 00:03:51,200

members will be hoisted in their chairs

63

00:03:56,070 --> 00:03:52,879

a short time from now and brought into

64

00:03:58,229 --> 00:03:56,080

the inflatable medical tent nearby

65

00:04:01,270 --> 00:03:58,239

where they will receive

66

00:04:03,429 --> 00:04:01,280

initial medical tests they'll receive

67

00:04:10,309 --> 00:04:03,439

assistance and help being helped out of

68

00:04:15,110 --> 00:04:13,270

fist pumps handshakes

69

00:04:17,509 --> 00:04:15,120

and a wave to the crowd from luca

70

00:04:19,270 --> 00:04:17,519

parmitano from the european space agency

71

00:04:20,509 --> 00:04:19,280

uh completing his first flight into

72

00:04:23,310 --> 00:04:20,519

space

73

00:04:25,670 --> 00:04:23,320

166 days in orbit

74

00:04:29,510 --> 00:04:25,680

73.3 million miles

75

00:04:31,430 --> 00:04:29,520

in his journey along with his crewmates

76

00:04:33,430 --> 00:04:31,440

these three crew members will board

77

00:04:36,230 --> 00:04:33,440

russian helicopters uh

78

00:04:39,430 --> 00:04:36,240

about an hour and a half or so from now

79

00:04:41,510 --> 00:04:39,440

for a two-hour ride back to the

80

00:04:43,909 --> 00:04:41,520

initial staging city for the search and

81

00:04:53,510 --> 00:04:43,919

recovery operations in karaganda

82

00:04:58,629 --> 00:04:55,670

karen nyberg home from her second flight

83

00:05:00,870 --> 00:04:58,639

into space having logged 180 days in

84

00:05:02,950 --> 00:05:00,880

space on her two missions the first of

85

00:05:05,670 --> 00:05:02,960

which aboard the space shuttle

86

00:05:32,950 --> 00:05:05,680

is to deliver the japanese kibo module

87

00:05:32,960 --> 00:05:46,390

foreign
