

1
00:00:21,920 --> 00:00:42,869
so

2
00:00:42,879 --> 00:00:47,190
oh

3
00:00:47,200 --> 00:01:02,709
what is it

4
00:01:44,310 --> 00:01:13,510
okay

5
00:02:35,670 --> 00:01:59,590
so

6
00:02:44,949 --> 00:02:36,869
first of all i need to say that i'm

7
00:02:57,110 --> 00:02:47,430
so follow our tradition here are our

8
00:02:57,120 --> 00:03:08,309
thank him

9
00:03:08,319 --> 00:03:25,110
i heard

10
00:03:33,350 --> 00:03:26,869
it looks like we've got more sweets than

11
00:03:33,360 --> 00:03:58,149
okay

12
00:03:58,159 --> 00:04:05,670
foreign

13
00:04:12,550 --> 00:04:07,910

i would like to congratulate you on your

14

00:04:16,229 --> 00:04:13,429

to

15

00:04:19,670 --> 00:04:16,239

the fruitful soil of kazakhstan who has

16

00:04:21,590 --> 00:04:19,680

greeted you very warmly as always

17

00:04:23,670 --> 00:04:21,600

we're happy that your mission is fully

18

00:04:24,950 --> 00:04:23,680

complete

19

00:04:28,790 --> 00:04:24,960

and that

20

00:04:30,469 --> 00:04:28,800

additional tasks were also complete

21

00:04:32,550 --> 00:04:30,479

so congratulations

22

00:04:34,550 --> 00:04:32,560

i'm successful

23

00:04:37,909 --> 00:04:34,560

determination of the mission

24

00:04:39,350 --> 00:04:37,919

wish you the spirits recovery possible

25

00:04:40,150 --> 00:04:39,360

health

26

00:04:41,990 --> 00:04:40,160

and

27

00:04:47,749 --> 00:04:42,000

as usual here are our presents

28

00:04:59,670 --> 00:04:49,749

i know these presents they're not to be

29

00:05:13,830 --> 00:05:01,670

and this is for our third astronaut

30

00:05:13,840 --> 00:05:32,870

but not too many questions please

31

00:05:37,590 --> 00:05:35,749

well the thing is that space is a very

32

00:05:42,790 --> 00:05:37,600

tricky thing and

33

00:05:51,590 --> 00:05:45,350

so it depends and women seem to be

34

00:05:56,390 --> 00:05:54,150

so there's nothing to worry about

35

00:05:57,350 --> 00:05:56,400

nothing at all

36

00:05:59,189 --> 00:05:57,360

because

37

00:06:00,950 --> 00:05:59,199

a woman's body is different from a man's

38

00:06:01,749 --> 00:06:00,960

body

39

00:06:16,710 --> 00:06:01,759

and

40

00:06:19,670 --> 00:06:16,720

we've all been out there in space

41

00:06:20,150 --> 00:06:19,680

where is the torch right

42

00:06:21,590 --> 00:06:20,160

i now

43

00:06:26,390 --> 00:06:21,600

right now it's on its way to the

44

00:06:28,790 --> 00:06:27,189

but

45

00:06:31,909 --> 00:06:28,800

i hope

46

00:06:33,510 --> 00:06:31,919

it's uh on its way back why is it not

47

00:06:35,350 --> 00:06:33,520

here on this

48

00:06:37,270 --> 00:06:35,360

encounter with journalists it's not a

49

00:06:39,430 --> 00:06:37,280

question to me

50

00:06:41,909 --> 00:06:39,440

you could have shown the torch

51

00:06:43,590 --> 00:06:41,919

just in case

52

00:06:45,510 --> 00:06:43,600

there is a separate helicopter for the

53

00:06:46,629 --> 00:06:45,520

torch

54

00:06:48,390 --> 00:06:46,639

because

55

00:06:50,790 --> 00:06:48,400

we've been waiting so long for the torch

56

00:06:53,670 --> 00:06:50,800

to come back

57

00:06:55,510 --> 00:06:53,680

and uh it's not the exactly purpose of

58

00:07:02,550 --> 00:06:55,520

this press conference we have any more

59

00:07:06,070 --> 00:07:03,670

thank you very much for a question about

60

00:07:08,390 --> 00:07:06,080

the torch and i need to add that

61

00:07:13,909 --> 00:07:08,400

we have two categories of cargo items on

62

00:07:17,749 --> 00:07:16,070

so cosmonauts are really the urgent

63

00:07:24,870 --> 00:07:17,759

piece so that's why we brought here

64

00:07:29,510 --> 00:07:26,710

probably last question you are the

65

00:07:31,670 --> 00:07:29,520

torchbearer in

66

00:07:32,469 --> 00:07:31,680

were there space difficulties and

67

00:07:39,350 --> 00:07:32,479

how

68

00:07:44,550 --> 00:07:41,830

i never thought it's so heavy right now

69

00:07:46,869 --> 00:07:44,560

when i was given it here on the ground

70

00:07:49,110 --> 00:07:46,879

in space it's

71

00:07:59,270 --> 00:07:49,120

very light

72

00:08:03,430 --> 00:08:01,029

you probably heard rumors that everyone

73

00:08:05,029 --> 00:08:03,440

was afraid that it might be off

74

00:08:08,710 --> 00:08:05,039

the torch i mean

75

00:08:10,950 --> 00:08:08,720

but we've never had a problem like that

76

00:08:15,670 --> 00:08:10,960

well we never let it up

77

00:08:19,990 --> 00:08:17,909

you have the only chamber up there in

78

00:08:22,629 --> 00:08:20,000

space that can

79

00:08:25,670 --> 00:08:22,639

tolerate experiments with open fire with

80

00:08:29,350 --> 00:08:27,350

and we were really curious to know we're

81

00:08:31,189 --> 00:08:29,360

humans

82

00:08:35,509 --> 00:08:31,199

we're not always listening to what we're

83

00:08:38,870 --> 00:08:37,589

and we had a very small flame but not a

84

00:08:54,550 --> 00:08:38,880

very big one

85

00:08:58,790 --> 00:08:56,949

a japanese person an italian person

86

00:09:00,550 --> 00:08:58,800

several russians

87

00:09:03,030 --> 00:09:00,560

americans

88

00:09:15,990 --> 00:09:03,040

and none of them

89

00:09:16,000 --> 00:09:22,230

from one module to another

90

00:09:25,910 --> 00:09:24,949

and lucar is always underscoring that

91

00:09:31,269 --> 00:09:25,920

the

92

00:09:36,710 --> 00:09:31,279

more than 40 percent yes indeed more

93

00:09:41,350 --> 00:09:39,509

and italy has uh

94

00:09:45,990 --> 00:09:41,360

not such a big shame this program as

95

00:09:50,790 --> 00:09:48,230

so we did have a dream but unfortunately

96

00:09:52,070 --> 00:09:50,800

the torch came to us only on the 7th of

97

00:09:58,630 --> 00:09:52,080

november

98

00:10:00,470 --> 00:09:58,640

the scheduled landing day and the space

99

00:10:02,949 --> 00:10:00,480

walk was on the 9th

100

00:10:05,670 --> 00:10:02,959

and there was an idea of passing the

101
00:10:07,430 --> 00:10:05,680
torch from one crew member to another

102
00:10:09,110 --> 00:10:07,440
but this never

103
00:10:12,389 --> 00:10:09,120
became

104
00:10:14,230 --> 00:10:12,399
realized and now talking about sports

105
00:10:15,430 --> 00:10:14,240
these are all the questions yes please

106
00:10:18,389 --> 00:10:15,440
what

107
00:10:20,310 --> 00:10:18,399
sports activity do you prefer you

108
00:10:23,670 --> 00:10:20,320
personally

109
00:10:25,750 --> 00:10:23,680
my preferred sports activity is

110
00:10:27,990 --> 00:10:25,760
doing push-ups using just my eyes and

111
00:10:29,990 --> 00:10:28,000
nothing else

112
00:10:32,949 --> 00:10:30,000
so that's how course minerals are being

113
00:10:38,949 --> 00:10:32,959

prepared for their space flights

114

00:10:42,790 --> 00:10:41,910
during the last six months i didn't

115

00:10:43,829 --> 00:10:42,800
do

116

00:10:48,310 --> 00:10:43,839
much

117

00:10:51,990 --> 00:10:49,110
just

118

00:10:54,230 --> 00:10:52,000
cycled and ran on the treadmill

119

00:10:55,509 --> 00:10:54,240
but before that

120

00:10:58,550 --> 00:10:55,519
i used to

121

00:11:06,150 --> 00:11:02,949
let's thank our crew members

122

00:11:06,160 --> 00:11:12,230
thank you

123

00:11:12,240 --> 00:11:16,230
uh

124

00:11:21,110 --> 00:11:18,389
and today we have a

125

00:11:47,910 --> 00:11:23,990
a racer from formula one

126

00:11:47,920 --> 00:12:05,990

oh

127

00:12:12,069 --> 00:12:09,110

deputy chair of the state commission

128

00:12:16,310 --> 00:12:12,079

the crew is here thank you for support

129

00:12:36,069 --> 00:12:18,230

thank you for a flight

130

00:13:12,710 --> 00:12:47,990

foreign

131

00:13:12,720 --> 00:13:26,710

okay

132

00:13:33,190 --> 00:13:28,310

how do you feel

133

00:13:35,750 --> 00:13:33,200

i feel really well i i feel i feel great

134

00:13:37,990 --> 00:13:35,760

the descent was really a great ride the

135

00:13:40,629 --> 00:13:38,000

machine performed perfectly

136

00:13:41,910 --> 00:13:40,639

uh everything worked exactly on time as

137

00:13:44,550 --> 00:13:41,920

expected

138

00:13:47,430 --> 00:13:44,560

uh the parachute opening was

139

00:13:49,590 --> 00:13:47,440

very dynamic and but fielder

140

00:13:51,990 --> 00:13:49,600

was expecting it is the commander he's

141

00:13:53,829 --> 00:13:52,000

done it several times before so he was

142

00:13:54,710 --> 00:13:53,839

describing the whole time i was going to

143

00:13:57,269 --> 00:13:54,720

be

144

00:13:59,910 --> 00:13:57,279

uh the highest accelera acceleration

145

00:14:03,189 --> 00:13:59,920

during this end was about 5 g's

146

00:14:04,310 --> 00:14:03,199

which felt quite like like a lot

147

00:14:09,350 --> 00:14:04,320

but

148

00:14:10,710 --> 00:14:09,360

surprising moment uh i think paolo my uh

149

00:14:12,150 --> 00:14:10,720

one of my colleagues from italy

150

00:14:14,790 --> 00:14:12,160

described this as

151
00:14:17,110 --> 00:14:14,800
being in a in a small car and being hit

152
00:14:19,269 --> 00:14:17,120
by a big truck and i would think that

153
00:14:22,230 --> 00:14:19,279
that's as accurate as you can get you're

154
00:14:24,550 --> 00:14:22,240
happy to be back on earth i sure am

155
00:14:25,509 --> 00:14:24,560
i know i will miss the station sooner or

156
00:14:27,509 --> 00:14:25,519
later

157
00:14:29,189 --> 00:14:27,519
but right now i just feel it certainly

158
00:14:30,710 --> 00:14:29,199
feels good to be back

159
00:14:33,590 --> 00:14:30,720
you've always been

160
00:14:36,150 --> 00:14:33,600
happy to be to do this job you never

161
00:14:38,150 --> 00:14:36,160
complained you're still happy man i am a

162
00:14:39,110 --> 00:14:38,160
very happy man

163
00:15:37,670 --> 00:14:39,120

okay
