

1
00:00:09,110 --> 00:00:04,309
station this is houston are you ready

2
00:00:13,190 --> 00:00:11,030
houston station

3
00:00:15,430 --> 00:00:13,200
yes i am ready for the event

4
00:00:18,390 --> 00:00:15,440
young astronauts club this is mission

5
00:00:24,710 --> 00:00:18,400
control houston please call station for

6
00:00:28,390 --> 00:00:25,990
stay tuned

7
00:00:33,030 --> 00:00:28,400
this is a younger slots club

8
00:00:51,750 --> 00:00:35,110
young astronaut club

9
00:00:51,760 --> 00:01:00,709
thank you very much for tonight

10
00:01:04,149 --> 00:01:02,389
good evening i was very much looking

11
00:01:06,870 --> 00:01:04,159
forward to this night

12
00:01:09,030 --> 00:01:06,880
welcome on board

13
00:01:17,030 --> 00:01:09,040

now without any idea we would like to

14

00:01:21,590 --> 00:01:18,789

representing tokyo venue and fourth

15

00:01:23,350 --> 00:01:21,600

grade of elementary school

16

00:01:24,950 --> 00:01:23,360

and while i'm working as a group leader

17

00:01:26,789 --> 00:01:24,960

in young astronaut club branch

18

00:01:29,510 --> 00:01:26,799

activities sometimes i have some

19

00:01:31,510 --> 00:01:29,520

difficulty to get opinions and actions

20

00:01:33,350 --> 00:01:31,520

on which everyone agrees have you

21

00:01:53,670 --> 00:01:33,360

practiced any training which would lead

22

00:01:58,310 --> 00:01:55,270

astronauts

23

00:02:00,550 --> 00:01:58,320

who are in survival training and we know

24

00:02:01,749 --> 00:02:00,560

each other and know about what others

25

00:02:03,910 --> 00:02:01,759

are thinking

26

00:02:06,310 --> 00:02:03,920

and that they will be able to have a

27

00:02:08,229 --> 00:02:06,320

good relationship so that everyone knows

28

00:02:10,630 --> 00:02:08,239

what others are thinking this is going

29

00:02:13,350 --> 00:02:10,640

to be very important for good teamwork

30

00:02:14,949 --> 00:02:13,360

so that kind of group activity was very

31

00:02:17,750 --> 00:02:14,959

useful for us

32

00:02:19,830 --> 00:02:17,760

so people in tokyo venue thank you very

33

00:02:35,190 --> 00:02:19,840

much for that good question thank you

34

00:02:39,430 --> 00:02:37,190

how did you practice your language to

35

00:02:47,990 --> 00:02:39,440

communicate for mutual understanding

36

00:02:52,309 --> 00:02:50,470

again very good question

37

00:02:55,350 --> 00:02:52,319

the communication capability is very

38

00:02:57,589 --> 00:02:55,360

important in space

39

00:03:00,869 --> 00:02:57,599

and during my

40

00:03:02,229 --> 00:03:00,879

junior high at high and university i

41

00:03:04,390 --> 00:03:02,239

studied a lot

42

00:03:07,430 --> 00:03:04,400

for language

43

00:03:10,949 --> 00:03:07,440

but i i also used the radio for

44

00:03:14,149 --> 00:03:10,959

practicing listening and also speaking

45

00:03:18,229 --> 00:03:14,159

i also watched movies english movies

46

00:03:19,830 --> 00:03:18,239

also listened to radio and tv programs

47

00:03:21,910 --> 00:03:19,840

in

48

00:03:23,190 --> 00:03:21,920

those languages

49

00:03:27,270 --> 00:03:23,200

listen

50

00:03:29,830 --> 00:03:27,280

so i took all the opportunity to

51
00:03:31,509 --> 00:03:29,840
practice the language i also have to

52
00:03:35,030 --> 00:03:31,519
speak russian

53
00:03:36,949 --> 00:03:35,040
and the way i learned in while learning

54
00:03:39,589 --> 00:03:36,959
english was useful for learning another

55
00:03:41,830 --> 00:03:39,599
language as well so i think it's very

56
00:03:43,750 --> 00:03:41,840
important for you to

57
00:03:46,390 --> 00:03:43,760
learn english so that you will be able

58
00:03:48,710 --> 00:03:46,400
to communicate with people from the

59
00:03:49,830 --> 00:03:48,720
world thank you very much from fukuoka

60
00:03:51,509 --> 00:03:49,840
venue

61
00:03:52,390 --> 00:03:51,519
thank you very much

62
00:04:02,710 --> 00:03:52,400
now

63
00:04:07,509 --> 00:04:05,350

elementary school and i'm second grader

64

00:04:10,470 --> 00:04:07,519

and my name is aoki

65

00:04:11,830 --> 00:04:10,480

and when the iss advances into the

66

00:04:16,710 --> 00:04:11,840

aurora

67

00:04:22,950 --> 00:04:16,720

rover is opened like a curtain and what

68

00:04:28,550 --> 00:04:26,230

again very good question

69

00:04:31,830 --> 00:04:28,560

so international space station and i am

70

00:04:33,749 --> 00:04:31,840

in kibo japan experiment module and we

71

00:04:36,710 --> 00:04:33,759

are flying at the height of 400

72

00:04:37,590 --> 00:04:36,720

kilometer above the space above the

73

00:04:40,950 --> 00:04:37,600

ground

74

00:04:44,550 --> 00:04:40,960

and aurora is usually seen at a lower

75

00:04:47,670 --> 00:04:44,560

attitude about 300 kilometer

76

00:04:50,070 --> 00:04:47,680

and aurora looks like curtain

77

00:04:52,629 --> 00:04:50,080

and shimmers

78

00:04:53,670 --> 00:04:52,639

but it doesn't happen i mean aurora does

79

00:04:56,950 --> 00:04:53,680

not

80

00:04:58,469 --> 00:04:56,960

be scattered that we see a lot

81

00:04:59,990 --> 00:04:58,479

far and then it

82

00:05:03,029 --> 00:05:00,000

approaches nearer

83

00:05:05,350 --> 00:05:03,039

and it really looks like curtains

84

00:05:08,070 --> 00:05:05,360

simmering it's very impressive

85

00:05:10,950 --> 00:05:08,080

right thank you very much from here

86

00:05:14,150 --> 00:05:10,960

and regarding the color it's a pale

87

00:05:16,710 --> 00:05:14,160

green we'll often see pale green or

88

00:05:18,870 --> 00:05:16,720

roller thank you very much people from

89

00:05:19,909 --> 00:05:18,880

ea

90

00:05:39,189 --> 00:05:19,919

now

91

00:05:43,270 --> 00:05:40,950

that astronauts should do something by

92

00:05:46,310 --> 00:05:43,280

themselves when they come to iss for the

93

00:05:48,870 --> 00:05:46,320

first time or do sometimes something go

94

00:05:51,029 --> 00:05:48,880

together on the iss that's very

95

00:05:53,830 --> 00:05:51,039

interesting question

96

00:05:56,469 --> 00:05:53,840

when you first go to the space

97

00:05:59,029 --> 00:05:56,479

international space station some there

98

00:06:01,189 --> 00:05:59,039

isn't any specific specific thing that

99

00:06:04,070 --> 00:06:01,199

an astronaut have to do when they go

100

00:06:04,870 --> 00:06:04,080

first however when they come to space

101
00:06:09,430 --> 00:06:04,880
and

102
00:06:12,710 --> 00:06:09,440
work

103
00:06:15,670 --> 00:06:12,720
you usually ask for advice who are

104
00:06:21,430 --> 00:06:15,680
familiar with the space but that's

105
00:06:27,189 --> 00:06:24,390
and for human body to be adjusted to new

106
00:06:30,309 --> 00:06:27,199
environment and zero gravity environment

107
00:06:34,710 --> 00:06:32,230
i was actually quite surprised how

108
00:06:38,230 --> 00:06:34,720
quickly i got adjusted thank you very

109
00:06:41,110 --> 00:06:38,240
much item of your new friends

110
00:06:51,510 --> 00:06:43,909
now from kobe

111
00:06:56,629 --> 00:06:53,830
and when the

112
00:06:58,950 --> 00:06:56,639
iss is arbiting orbiting at the height

113
00:07:01,270 --> 00:06:58,960

same as arola whether electronic

114

00:07:03,909 --> 00:07:01,280

equipment and crew on iss will have to

115

00:07:06,230 --> 00:07:03,919

implement from influence from solar wind

116

00:07:11,589 --> 00:07:06,240

or not until you have any impact on your

117

00:07:11,599 --> 00:07:20,469

a very good question

118

00:07:25,589 --> 00:07:21,909

impact

119

00:07:27,430 --> 00:07:25,599

on our body and also

120

00:07:28,830 --> 00:07:27,440

our equipment

121

00:07:31,830 --> 00:07:28,840

but

122

00:07:33,589 --> 00:07:31,840

fortunately there had not been major

123

00:07:38,309 --> 00:07:33,599

impact on our health

124

00:07:41,670 --> 00:07:38,319

or hadn't had any major impact on iss

125

00:07:46,550 --> 00:07:41,680

equipment such as a major solar flare

126

00:07:48,230 --> 00:07:46,560

did not happen however in case

127

00:07:52,230 --> 00:07:48,240

any major

128

00:07:55,110 --> 00:07:52,240

solar affair activity is to happen then

129

00:07:58,309 --> 00:07:55,120

there is some area that have a higher

130

00:08:01,029 --> 00:07:58,319

protection for the radiation within iss

131

00:08:04,469 --> 00:08:01,039

so we have to move to those areas within

132

00:08:06,550 --> 00:08:04,479

iss in case there's a i like unlikely

133

00:08:08,390 --> 00:08:06,560

event happens thank you very much for

134

00:08:10,790 --> 00:08:08,400

hugo people

135

00:08:21,350 --> 00:08:10,800

now from okayama

136

00:08:26,150 --> 00:08:23,589

so what was the scariest experience so

137

00:08:27,830 --> 00:08:26,160

far in your life when you are in iss and

138

00:08:39,110 --> 00:08:27,840

how did you change your feeling after

139

00:08:42,469 --> 00:08:41,110

that's a great name

140

00:08:43,509 --> 00:08:42,479

and in

141

00:08:44,870 --> 00:08:43,519

my

142

00:08:47,670 --> 00:08:44,880

space

143

00:08:50,630 --> 00:08:47,680

fortunately i did not have any very

144

00:08:53,509 --> 00:08:50,640

scary feeling however

145

00:08:55,670 --> 00:08:53,519

in four years ago

146

00:08:58,630 --> 00:08:55,680

when i was on iss

147

00:08:59,990 --> 00:08:58,640

and there was a smoke

148

00:09:02,470 --> 00:09:00,000

happened

149

00:09:04,389 --> 00:09:02,480

from the boiler machine and there was a

150

00:09:06,630 --> 00:09:04,399

possibility of fire

151
00:09:07,750 --> 00:09:06,640
so i was a bit

152
00:09:08,790 --> 00:09:07,760
scared

153
00:09:11,190 --> 00:09:08,800
however

154
00:09:12,470 --> 00:09:11,200
we were very calm and

155
00:09:14,870 --> 00:09:12,480
conducted

156
00:09:17,110 --> 00:09:14,880
what we had practiced in case

157
00:09:19,350 --> 00:09:17,120
so that's very important not just for on

158
00:09:20,829 --> 00:09:19,360
the space but

159
00:09:23,829 --> 00:09:20,839
be prepared for

160
00:09:26,470 --> 00:09:23,839
emergency in terms of mindset and also

161
00:09:28,870 --> 00:09:26,480
be prepared properly those are going to

162
00:09:30,630 --> 00:09:28,880
be very useful in your daily life as

163
00:09:32,949 --> 00:09:30,640

well thank you very much for the good

164

00:09:44,630 --> 00:09:32,959

question from okayama thank you very

165

00:09:48,230 --> 00:09:46,470

junior high

166

00:09:49,910 --> 00:09:48,240

do you think that the space sickness and

167

00:09:52,630 --> 00:09:49,920

swelling could be reduced by adding the

168

00:09:54,949 --> 00:09:52,640

number of times to coming to space and

169

00:09:55,829 --> 00:09:54,959

you you can look at the surface from the

170

00:09:57,509 --> 00:09:55,839

space

171

00:09:59,750 --> 00:09:57,519

of many times and

172

00:10:03,590 --> 00:09:59,760

how do you think of experience does not

173

00:10:06,630 --> 00:10:03,600

it can make the world become peaceful

174

00:10:08,870 --> 00:10:06,640

a very great uh question i have been in

175

00:10:11,110 --> 00:10:08,880

space three times before

176

00:10:12,150 --> 00:10:11,120

unfortunately i did not have any space

177

00:10:15,750 --> 00:10:12,160

sickness

178

00:10:20,710 --> 00:10:15,760

however when i am in zero gravity or the

179

00:10:24,870 --> 00:10:20,720

fluid in the body it goes upper body

180

00:10:26,150 --> 00:10:24,880

shifted and i have a swollen face

181

00:10:27,590 --> 00:10:26,160

and that

182

00:10:33,030 --> 00:10:27,600

happens

183

00:10:37,829 --> 00:10:33,829

and

184

00:10:39,670 --> 00:10:37,839

by the way we do not see any boundaries

185

00:10:40,389 --> 00:10:39,680

of the world from space

186

00:10:43,269 --> 00:10:40,399

so

187

00:10:44,630 --> 00:10:43,279

i think when people

188

00:10:47,910 --> 00:10:44,640

understand

189

00:10:51,350 --> 00:10:47,920

each other and have good communication

190

00:10:53,430 --> 00:10:51,360

then we will be able to realize peace or

191

00:10:55,509 --> 00:10:53,440

a world

192

00:11:12,870 --> 00:10:55,519

the people from koji venue thank you

193

00:11:17,910 --> 00:11:15,590

my name is ayumi i'm in the third grade

194

00:11:21,110 --> 00:11:17,920

of elementary school

195

00:11:22,630 --> 00:11:21,120

why are there fewer female astronauts

196

00:11:31,030 --> 00:11:22,640

compared with the number of male

197

00:11:40,829 --> 00:11:33,509

that's a very good question

198

00:11:46,949 --> 00:11:44,069

astronaut you have a capability and

199

00:11:49,269 --> 00:11:46,959

willingness to be an astronaut both men

200

00:11:52,470 --> 00:11:49,279

and women can do

201
00:11:53,350 --> 00:11:52,480
this work and the reason why

202
00:11:55,430 --> 00:11:53,360
a few

203
00:11:57,430 --> 00:11:55,440
female astronauts

204
00:12:00,550 --> 00:11:57,440
one of the reasons is that few are

205
00:12:02,389 --> 00:12:00,560
female apply for astronauts

206
00:12:04,790 --> 00:12:02,399
so i think it's important that you do

207
00:12:07,430 --> 00:12:04,800
not give up because it is a difficult

208
00:12:09,990 --> 00:12:07,440
work but rather each one of you have

209
00:12:11,350 --> 00:12:10,000
great capability so you have when you

210
00:12:14,389 --> 00:12:11,360
have a

211
00:12:15,829 --> 00:12:14,399
strong mindset to be an astronaut both

212
00:12:18,550 --> 00:12:15,839
men and women

213
00:12:19,590 --> 00:12:18,560

have equal opportunity there are various

214

00:12:22,550 --> 00:12:19,600

works

215

00:12:25,670 --> 00:12:22,560

in the world and there are many but that

216

00:12:28,230 --> 00:12:25,680

both men and women can do equally so i

217

00:12:31,030 --> 00:12:28,240

hope that you have a strong mind

218

00:12:34,629 --> 00:12:31,040

to pursue your dream thank you very much

219

00:12:34,639 --> 00:12:45,750

now from hakata miyajima-san

220

00:12:49,190 --> 00:12:47,829

my question is that what was your

221

00:12:51,670 --> 00:12:49,200

gladdest thing

222

00:12:58,949 --> 00:12:51,680

in your day of primary school as a child

223

00:13:04,949 --> 00:13:00,710

thank you for the question

224

00:13:09,030 --> 00:13:04,959

when i was in elementary school i

225

00:13:13,509 --> 00:13:09,040

like to capture bugs and fishes and

226

00:13:16,870 --> 00:13:13,519

crabs those are my uh gladst things and

227

00:13:20,150 --> 00:13:16,880

my saddest thing was that

228

00:13:22,470 --> 00:13:20,160

i had a chicken you know i started to

229

00:13:24,790 --> 00:13:22,480

keep it from a little chick

230

00:13:31,509 --> 00:13:28,629

take a chicken and when

231

00:13:32,629 --> 00:13:31,519

it passed away that was the most saddest

232

00:13:37,110 --> 00:13:32,639

thing

233

00:13:38,150 --> 00:13:37,120

but the encounter being such a death i

234

00:13:40,150 --> 00:13:38,160

had

235

00:13:42,550 --> 00:13:40,160

uh felt the importance of life so that

236

00:13:45,350 --> 00:13:42,560

was also a precious opportunity that i

237

00:13:49,269 --> 00:13:45,360

encountered thank you from hugo

238

00:13:51,829 --> 00:13:49,279

now miss sakamoto from tokyo venue

239

00:13:54,230 --> 00:13:51,839

i'm from our yamaha

240

00:13:56,870 --> 00:13:54,240

elementary school you mean

241

00:13:59,030 --> 00:13:56,880

kamoto

242

00:14:00,949 --> 00:13:59,040

i heard that some astronauts have taken

243

00:14:03,670 --> 00:14:00,959

several photos of coral reef from the

244

00:14:05,910 --> 00:14:03,680

iss by observing phenomena of the coral

245

00:14:07,910 --> 00:14:05,920

reef from global warming from space

246

00:14:09,910 --> 00:14:07,920

there any method to protect the

247

00:14:12,230 --> 00:14:09,920

phenomena of coral reefs and also

248

00:14:14,150 --> 00:14:12,240

prevent the land from desertification by

249

00:14:16,150 --> 00:14:14,160

global warming

250

00:14:18,870 --> 00:14:16,160

are you are studying a lot of things

251
00:14:24,790 --> 00:14:18,880
thank you very much a new right

252
00:14:27,110 --> 00:14:26,310
observe

253
00:14:33,189 --> 00:14:27,120
the

254
00:14:35,110 --> 00:14:33,199
that way we would be able to

255
00:14:36,790 --> 00:14:35,120
capture how

256
00:14:37,910 --> 00:14:36,800
the environment is changing on the

257
00:14:42,790 --> 00:14:37,920
ground

258
00:14:45,829 --> 00:14:42,800
observation we will be able to predict

259
00:14:47,750 --> 00:14:45,839
how the environment on the earth is to

260
00:14:49,350 --> 00:14:47,760
change and what we have to do in order

261
00:14:51,750 --> 00:14:49,360
to prevent

262
00:14:54,710 --> 00:14:51,760
those changes to happen

263
00:14:56,870 --> 00:14:54,720

technology and space

264

00:14:59,430 --> 00:14:56,880

is also going to be very useful for

265

00:15:00,870 --> 00:14:59,440

protecting our precious earth

266

00:15:02,949 --> 00:15:00,880

environment

267

00:15:06,150 --> 00:15:02,959

thank you very much for people from

268

00:15:10,310 --> 00:15:08,710

thank you very much

269

00:15:12,389 --> 00:15:10,320

now

270

00:15:14,230 --> 00:15:12,399

mr

271

00:15:15,990 --> 00:15:14,240

the president of young astronauts club

272

00:15:19,990 --> 00:15:16,000

of japan

273

00:15:25,030 --> 00:15:22,310

i am reiji matsumoto the president of

274

00:15:27,670 --> 00:15:25,040

young astronauts club i have had

275

00:15:28,790 --> 00:15:27,680

opportunity to talk to you directly on

276

00:15:31,509 --> 00:15:28,800

the phone thank you very much for

277

00:15:33,829 --> 00:15:31,519

calling me at home

278

00:15:46,629 --> 00:15:33,839

a few times i have a very important

279

00:15:50,629 --> 00:15:49,030

and when you see the clouds and other

280

00:15:53,430 --> 00:15:50,639

natural phenomena

281

00:16:00,069 --> 00:15:55,990

feel any difference compared to your

282

00:16:03,509 --> 00:16:01,110

visible

283

00:16:05,030 --> 00:16:03,519

changes do you any uh

284

00:16:06,470 --> 00:16:05,040

see any

285

00:16:15,910 --> 00:16:06,480

observation

286

00:16:20,629 --> 00:16:18,310

observing the earth from

287

00:16:24,230 --> 00:16:20,639

the space we i

288

00:16:27,590 --> 00:16:24,240

are very much impressed as always by the

289

00:16:28,949 --> 00:16:27,600

strength of the nature of the earth

290

00:16:32,310 --> 00:16:28,959

so

291

00:16:34,550 --> 00:16:32,320

i do not visibly observe

292

00:16:44,069 --> 00:16:34,560

any changes on the environment of the

293

00:16:47,269 --> 00:16:45,590

some of

294

00:16:50,470 --> 00:16:47,279

the

295

00:16:53,030 --> 00:16:50,480

shrinkage of lakes are visible

296

00:16:54,470 --> 00:16:53,040

too so some of the human activities are

297

00:16:56,550 --> 00:16:54,480

impacting some

298

00:16:58,870 --> 00:16:56,560

environment those are

299

00:17:01,110 --> 00:16:58,880

also visible and we are doing the

300

00:17:03,590 --> 00:17:01,120

activity of expounding expanding the

301
00:17:05,110 --> 00:17:03,600
boundary of human activity and at the

302
00:17:06,870 --> 00:17:05,120
same time it's very important to

303
00:17:08,789 --> 00:17:06,880
preserve the

304
00:17:09,750 --> 00:17:08,799
environmental precious

305
00:17:13,669 --> 00:17:09,760
earth

306
00:17:16,549 --> 00:17:13,679
growth this is uh what i always feel

307
00:17:28,069 --> 00:17:16,559
are there any changes in terms of the

308
00:17:31,789 --> 00:17:30,789
the range where we are going around is

309
00:17:33,990 --> 00:17:31,799
about

310
00:17:35,830 --> 00:17:34,000
51.6 degrees

311
00:17:37,270 --> 00:17:35,840
to both

312
00:17:38,549 --> 00:17:37,280
north and south

313
00:17:40,870 --> 00:17:38,559

so

314

00:17:44,310 --> 00:17:40,880

the polar areas are not visible from

315

00:17:47,669 --> 00:17:44,320

international space station so the ice

316

00:17:50,230 --> 00:17:47,679

situation in the north or south

317

00:17:52,230 --> 00:17:50,240

poles are not actually visible observed

318

00:17:55,430 --> 00:17:52,240

from international space station

319

00:18:01,270 --> 00:17:58,630

well i hope that you will continue to go

320

00:18:04,310 --> 00:18:01,280

back to space many times

321

00:18:09,909 --> 00:18:06,470

you will continue

322

00:18:11,909 --> 00:18:09,919

your good work of building the bases i'm

323

00:18:14,710 --> 00:18:11,919

always behind you

324

00:18:15,909 --> 00:18:14,720

thank you very much mr wakata

325

00:18:18,950 --> 00:18:15,919

so

326

00:18:20,310 --> 00:18:18,960

at the end of this session

327

00:18:22,630 --> 00:18:20,320

would you

328

00:18:24,630 --> 00:18:22,640

like to give message to all the people

329

00:18:25,669 --> 00:18:24,640

in the venues and also

330

00:18:27,990 --> 00:18:25,679

venues

331

00:18:33,190 --> 00:18:28,000

and listeners for viewers of this

332

00:18:37,350 --> 00:18:34,549

thank you very much

333

00:18:38,870 --> 00:18:37,360

and also all the people students who are

334

00:18:40,950 --> 00:18:38,880

here for

335

00:18:42,549 --> 00:18:40,960

the venues thank you very much wonderful

336

00:18:43,990 --> 00:18:42,559

questions

337

00:18:46,789 --> 00:18:44,000

and

338

00:18:50,470 --> 00:18:46,799

each one of you who are there

339

00:18:54,870 --> 00:18:50,480

at those different venues you have great

340

00:19:00,150 --> 00:18:57,590

so it's important that you find

341

00:19:01,590 --> 00:19:00,160

something that really interests you and

342

00:19:04,310 --> 00:19:01,600

utilize

343

00:19:06,230 --> 00:19:04,320

your capability to excel in the area

344

00:19:08,549 --> 00:19:06,240

that you're interested

345

00:19:09,750 --> 00:19:08,559

and please think what you can do for

346

00:19:10,470 --> 00:19:09,760

other people

347

00:19:12,230 --> 00:19:10,480

and

348

00:19:16,070 --> 00:19:12,240

find

349

00:19:16,950 --> 00:19:16,080

the target that you want to pursue for

350

00:19:19,350 --> 00:19:16,960

and

351

00:19:22,710 --> 00:19:19,360

keep them not just as a dream

352

00:19:24,390 --> 00:19:22,720

but set them as the solid target and

353

00:19:27,110 --> 00:19:24,400

work hard

354

00:19:29,830 --> 00:19:27,120

and you may make mistake you might fail

355

00:19:31,350 --> 00:19:29,840

and you always fail at certain times but

356

00:19:33,830 --> 00:19:31,360

don't give up there

357

00:19:37,270 --> 00:19:33,840

but use them as a stepping stone and

358

00:19:40,150 --> 00:19:37,280

work harder toward your dream to realize

359

00:19:44,070 --> 00:19:40,160

that as something that you can do thank

360

00:19:46,310 --> 00:19:44,080

you very much for this meeting thank you

361

00:19:48,950 --> 00:19:46,320

very much wakata-san let's say thank you

362

00:19:58,470 --> 00:19:48,960

to akatasan together thank you very much

363

00:20:03,909 --> 00:20:00,710

thank you very much

364

00:20:09,110 --> 00:20:05,590

station this is houston acr that

365

00:20:14,390 --> 00:20:11,669

thank you young astronauts club
