

1

00:00:11,320 --> 00:00:16,420

One thing I'd like the public to know about NASA is that We are really involved in trying

2

00:00:16,420 --> 00:00:19,640

to improve the earth that we are living on.

3

00:00:19,640 --> 00:00:26,779

We are doing a lot of research on the atmosphere, the ecosystem; we're trying to

4

00:00:26,779 --> 00:00:30,580

make a difference on Earth while we are living on Earth.

5

00:00:30,580 --> 00:00:33,980

It's not all about just sending people to the moon.

6

00:00:33,980 --> 00:00:39,130

NASA is also very involved with education, getting young people involved with science

7

00:00:39,130 --> 00:00:43,899

and math because they are our future and to get them involved now is going to help us

8

00:00:43,899 --> 00:00:48,080

in the future to where they can help to sustain the earth as well.

9

00:00:48,080 --> 00:00:56,330

Since being a part of NASA I feel I have definitely grown verbally, I was one who always tried

10

00:00:56,330 --> 00:01:01,559

to stay in my shell, stay behind the scenes, work hard, You don't see me?

11

00:01:01,559 --> 00:01:02,649

That's good.

12

00:01:02,649 --> 00:01:07,390

But here and in my field, I definitely have to talk and I definitely have to meet new

13

00:01:07,390 --> 00:01:17,680

people, so it has definitely grown my skills of being more interactive with people and

14

00:01:17,680 --> 00:01:24,770

telling people how I feel and getting things done, I have to stand up and project my voice,

15

00:01:24,770 --> 00:01:26,340

so definitely all those skills.

16

00:01:26,340 --> 00:01:30,270

I learned those in the military But at the same time when you have other people Ahead

17

00:01:30,270 --> 00:01:36,909

of you, you have leaders and they normally talk for you and here in my position I was

18

00:01:36,909 --> 00:01:40,040

I had to step up and do more talking.

19

00:01:40,040 --> 00:01:43,829

So I definitely got that experience working with NASA.

20

00:01:43,829 --> 00:01:49,189

For any young African-American that is aspiring to work with NASA I would just suggest that

21

00:01:49,189 --> 00:01:55,340

they find out what area they would like to work in talk with people find out what skills

22

00:01:55,340 --> 00:02:01,149

they need to advance in that career, see if
they can volunteer or if they can become an

23

00:02:01,149 --> 00:02:02,689

intern.
