thank you

37
00:03:48,949 --> 00:03:46,789
dear

38
00:03:51,030 --> 00:03:48,959

we are very glad to welcome you here on

you have successfully completed your

41

00:03:57,110 --> 00:03:54,720

expedition and you have completed all

42

00:03:59,030 --> 00:03:57,120

the tasks of the expedition so i will

43

00:04:01,350 --> 00:03:59,040

try to be brief

44

00:04:03,589 --> 00:04:01,360

and on behalf of the federal agency of

45

00:04:04,710 --> 00:04:03,599

air transportation we would like to wish

46

00:04:07,589 --> 00:04:04,720

you

47

00:04:09,830 --> 00:04:07,599

success good health and to recover as

48

00:04:12,789 --> 00:04:09,840

soon as possible

49

00:04:14,470 --> 00:04:12,799

and further success in exploring the

50

00:04:15,589 --> 00:04:14,480

space and here we have some gifts for

51

00:04:18,229 --> 00:04:15,599

you

52

00:04:20,150 --> 00:04:18,239

traditional russian dolls with not so

53

00:04:34,550 --> 00:04:20,160

traditional faces so you will see it for

54

00:04:39,510 --> 00:04:37,030

thank you very much thank you

55

00:04:49,189 --> 00:04:40,830

thank you very

56

00:04:49,199 --> 00:05:08,950

and your questions please

57

00:05:14,469 --> 00:05:10,550

our expedition

58

00:05:18,230 --> 00:05:15,270

to

59

00:05:22,150 --> 00:05:18,240

various activities uh we

60

00:05:22,950 --> 00:05:22,160

were participating in the olympic relay

61

00:05:26,629 --> 00:05:22,960

and

62

00:05:27,670 --> 00:05:26,639

it was a wonderful experience for us

63

00:05:31,189 --> 00:05:27,680

we

64

00:05:35,110 --> 00:05:31,199

time

65

00:05:41,830 --> 00:05:36,830

we

66

00:05:45,590 --> 00:05:41,840

remarkable moment

67

00:05:59,270 --> 00:05:45,600

so we wanted to make it beautiful also

68

00:06:04,309 --> 00:06:02,390

so we did not have the gold to light the

69

00:06:08,150 --> 00:06:04,319

torch there

70

00:06:10,870 --> 00:06:09,350

it's

71

00:06:13,189 --> 00:06:10,880

very good that

72

00:06:16,390 --> 00:06:13,199

during this remarkable event we were

73

00:06:18,230 --> 00:06:16,400

able to demonstrate that our hardware

74

00:06:20,710 --> 00:06:18,240

operates very well and can it can be

75

00:06:21,670 --> 00:06:20,720

operated for a long time

76

00:06:23,430 --> 00:06:21,680

and

77

00:06:25,590 --> 00:06:23,440

it can be operated for a longer period

78

00:06:26,950 --> 00:06:25,600

of time than the standard time so i

79

00:06:29,029 --> 00:06:26,960

think it's very good experience for

80

00:06:30,950 --> 00:06:29,039

future flights did you have any

81

00:06:33,029 --> 00:06:30,960

off nominal situations related to the

82

00:06:34,950 --> 00:06:33,039

torch well we didn't have

83

00:06:36,469 --> 00:06:34,960

flame there i mean the olympic flame

84

00:06:39,749 --> 00:06:36,479

that's what i mean too

85

00:06:42,550 --> 00:06:39,759

we did not light the torch

86

00:06:44,870 --> 00:06:42,560

it's impossible to light torch an open

87

00:06:47,270 --> 00:06:44,880

space yeah that's why i'm asking this

88

00:07:01,189 --> 00:06:48,790

no we have the olympic flame in our

89

00:07:05,029 --> 00:07:03,189

i think that

90

00:07:07,670 --> 00:07:05,039

this question will be

91

00:07:09,270 --> 00:07:07,680

answered better by sergey or michael

92

00:07:11,510 --> 00:07:09,280

because it's their first time it was

93

00:07:14,390 --> 00:07:11,520

their first time in space

94

00:07:16,629 --> 00:07:14,400

so i'm going to fly again i

95

00:07:25,909 --> 00:07:16,639

don't want to say no but

96

00:07:37,909 --> 00:07:27,589

so how are you going to celebrate the

97

00:07:37,919 --> 00:07:44,150

so this is a very traditional question

98

00:07:50,070 --> 00:07:48,070

we will not only celebrate gagarin's

99

00:07:55,430 --> 00:07:50,080

birthday but we also celebrated our

100

00:08:02,230 --> 00:07:57,990

so we had very good celebrations we were

101
00:08:04,790 --> 00:08:03,110
and

102
00:08:07,029 --> 00:08:04,800
if there was any

103
00:08:08,469 --> 00:08:07,039
birthday

104
00:08:20,869 --> 00:08:08,479
in space we were trying to support each

105
00:08:24,629 --> 00:08:22,550
and

106
00:08:38,230 --> 00:08:24,639
of course we felt support

107
00:08:44,149 --> 00:08:40,230
so it was these calls were official and

108
00:09:01,030 --> 00:08:45,190
okay

109
00:09:05,030 --> 00:09:03,190
well it was a very good experience for

110
00:09:11,430 --> 00:09:05,040
us

111
00:09:13,190 --> 00:09:11,440
it was a great event for the roscosmos

112
00:09:17,030 --> 00:09:13,200
russian space agency and for us as crew

113
00:09:20,230 --> 00:09:18,870

and i think it was also a great

114

00:09:25,110 --> 00:09:20,240
experience for our international

115

00:09:29,910 --> 00:09:28,310
is very experienced astronaut

116

00:09:31,910 --> 00:09:29,920
and

117

00:09:33,829 --> 00:09:31,920
i believe that he is

118

00:09:47,750 --> 00:09:33,839
absolutely great and he will do his job

119

00:09:54,070 --> 00:09:49,110
the story

120

00:09:59,670 --> 00:09:56,710
the first one is still with me

121

00:10:02,870 --> 00:09:59,680
uh the second one is used as santa claus

122

00:10:02,880 --> 00:10:08,710
and

123

00:10:12,470 --> 00:10:10,389
i still have it

124

00:10:14,230 --> 00:10:12,480
and i have all the materials at home

125

00:10:31,750 --> 00:10:14,240
still

126

00:10:42,069 --> 00:10:33,350

no i think we don't have any other

127

00:10:46,470 --> 00:10:43,269

first of all i would like to

128

00:10:48,710 --> 00:10:46,480

congratulate you on the 80th anniversary

129

00:10:49,990 --> 00:10:48,720

of the city of karagandi our landing

130

00:10:53,110 --> 00:10:50,000

site

131

00:10:57,509 --> 00:10:53,120

this is the flag that was at our landing

132

00:11:16,389 --> 00:10:57,519

site it is signed by all crew members

133

00:11:20,550 --> 00:11:18,230

mr chairman of the state commission

134

00:11:22,790 --> 00:11:20,560

expedition 38 has been completed

135

00:11:24,710 --> 00:11:22,800

successfully thank you very much wish

136

00:11:26,829 --> 00:11:24,720

you good luck and help

137

00:11:29,670 --> 00:11:26,839

thank you

138

00:11:45,750 --> 00:11:29,680

congratulations congratulations

139

00:11:45,760 --> 00:12:16,069

foreign

140

00:12:16,079 --> 00:12:32,870

oh

141

00:12:38,069 --> 00:12:35,590

expedition 38's mike hopkins back on

142

00:12:41,350 --> 00:12:38,079

earth mike welcome home great mission

143

00:12:42,949 --> 00:12:41,360

great six months on orbit

144

00:12:45,110 --> 00:12:42,959

what was it like when you and your

145

00:12:46,629 --> 00:12:45,120

crewmates backed away from the space

146

00:12:48,150 --> 00:12:46,639

station

147

00:12:50,389 --> 00:12:48,160

that had been your home for the last six

148

00:12:53,829 --> 00:12:50,399

months your thoughts and impressions as

149

00:12:55,509 --> 00:12:53,839

as you left this oasis for you up there

150

00:12:57,030 --> 00:12:55,519

well it was a little sad it's a little

151
00:12:59,990 --> 00:12:57,040
sad to leave uh what you have called

152
00:13:01,350 --> 00:13:00,000
home for five and a half months um

153
00:13:04,230 --> 00:13:01,360
and it was

154
00:13:06,550 --> 00:13:04,240
just an incredible place to get to spend

155
00:13:07,750 --> 00:13:06,560
that that amount of time but at the same

156
00:13:09,910 --> 00:13:07,760
time you're excited because you're

157
00:13:11,750 --> 00:13:09,920
getting to come home and uh it's been a

158
00:13:13,829 --> 00:13:11,760
while since i've seen the family and i'm

159
00:13:15,509 --> 00:13:13,839
sure looking forward to that

160
00:13:17,750 --> 00:13:15,519
you were greeted by quite the winter

161
00:13:19,190 --> 00:13:17,760
wonderland out at the landing site uh

162
00:13:21,190 --> 00:13:19,200
just wondering

163
00:13:22,949 --> 00:13:21,200

during entry and landing what uh you

164

00:13:25,110 --> 00:13:22,959

thought was your most exciting moment

165

00:13:27,590 --> 00:13:25,120

what uh what was that e-ticket like and

166

00:13:29,829 --> 00:13:27,600

and your your sensations as the the

167

00:13:31,829 --> 00:13:29,839

hatch was open and you finally had a

168

00:13:34,710 --> 00:13:31,839

chance to look out at this

169

00:13:37,269 --> 00:13:34,720

white barren snowscape out there

170

00:13:39,110 --> 00:13:37,279

yeah it's definitely an exciting ride

171

00:13:40,710 --> 00:13:39,120

i would say when the the main parachute

172

00:13:42,150 --> 00:13:40,720

opens up is is probably the most

173

00:13:45,269 --> 00:13:42,160

exciting part but there are several

174

00:13:47,509 --> 00:13:45,279

phases of the landing of the entry that

175

00:13:49,590 --> 00:13:47,519

that are pretty exciting

176

00:13:51,030 --> 00:13:49,600

you know when they open the hatch

177

00:13:53,430 --> 00:13:51,040

there's there's definitely this sense of

178

00:13:55,350 --> 00:13:53,440

just kind of a little bit of relief

179

00:13:57,750 --> 00:13:55,360

that you've gotten through it all

180

00:14:00,870 --> 00:13:57,760

that you've made it back to earth and

181

00:14:02,629 --> 00:14:00,880

and so it feels pretty good um actually

182

00:14:04,550 --> 00:14:02,639

you know it's cold out but it felt good

183

00:14:06,629 --> 00:14:04,560

when the uh when the cold air came and

184

00:14:09,509 --> 00:14:06,639

came in and you got to smell uh smell

185

00:14:12,310 --> 00:14:09,519

the earth again for the first time uh so

186

00:14:14,069 --> 00:14:12,320

it was just a incredible feeling

187

00:14:16,150 --> 00:14:14,079

the personal theme of your mission was

188

00:14:19,189 --> 00:14:16,160

train like mike it was all about fitness

189

00:14:21,030 --> 00:14:19,199

staying fit on orbit and at the risk of

190

00:14:23,030 --> 00:14:21,040

sounding like a medical expert here with

191

00:14:25,350 --> 00:14:23,040

all the medical folks around

192

00:14:27,590 --> 00:14:25,360

you sure look good how important was

193

00:14:30,710 --> 00:14:27,600

fitness and your own personal training

194

00:14:32,389 --> 00:14:30,720

regimen on board that contributed to

195

00:14:33,430 --> 00:14:32,399

your ability to come home in such good

196

00:14:37,910 --> 00:14:33,440

shape

197

00:14:41,110 --> 00:14:37,920

here over the next couple weeks i think

198

00:14:42,829 --> 00:14:41,120

that'll be really we'll tell how um how

199

00:14:45,350 --> 00:14:42,839

the workouts and everything on orbit

200

00:14:47,189 --> 00:14:45,360

went um so

201
00:14:48,790 --> 00:14:47,199
you know right now um it definitely

202
00:14:51,350 --> 00:14:48,800
feels good but i don't feel that strong

203
00:14:54,150 --> 00:14:51,360
at the moment it's it's amazing what it

204
00:14:57,350 --> 00:14:54,160
feels like to be under uh 1g again

205
00:14:59,030 --> 00:14:57,360
and so we'll see

206
00:15:00,949 --> 00:14:59,040
the uh the things you're looking forward

207
00:15:03,430 --> 00:15:00,959
to the most uh now that you're back on

208
00:15:05,509 --> 00:15:03,440
earth foods family what

209
00:15:08,150 --> 00:15:05,519
uh definitely seeing the family seeing

210
00:15:09,670 --> 00:15:08,160
my wife my two sons and the rest of my

211
00:15:11,990 --> 00:15:09,680
relatives that are that are going to be

212
00:15:14,150 --> 00:15:12,000
back in houston when i get there that's

213
00:15:16,310 --> 00:15:14,160

by by far the the most important thing

214

00:15:18,790 --> 00:15:16,320

that i'm looking forward to seeing

215

00:15:21,269 --> 00:15:18,800

from september to now uh certainly uh

216

00:15:24,310 --> 00:15:21,279

one of the more memorable increments of

217

00:15:26,470 --> 00:15:24,320

all time expedition 37 and 38 for you

218

00:15:28,389 --> 00:15:26,480

uh what if you had to sit down right now

219

00:15:31,749 --> 00:15:28,399

at a typewriter and write sort of your

220

00:15:34,310 --> 00:15:31,759

own legacy uh of uh what the most uh

221

00:15:36,550 --> 00:15:34,320

critical moments were of your six months

222

00:15:38,310 --> 00:15:36,560

on orbit uh how would you write that

223

00:15:41,430 --> 00:15:38,320

well i think uh obviously the most

224

00:15:43,189 --> 00:15:41,440

critical thing was when we had the

225

00:15:45,509 --> 00:15:43,199

external cooling loop failure and we had

226

00:15:47,509 --> 00:15:45,519

to go out and replace the pump module

227

00:15:49,910 --> 00:15:47,519

that was a very busy time because while

228

00:15:53,110 --> 00:15:49,920

we were preparing for that eva we're

229

00:15:56,310 --> 00:15:53,120

also keeping the option open for the

230

00:15:58,230 --> 00:15:56,320

the orbital one still coming up in and

231

00:15:59,670 --> 00:15:58,240

docking so we weren't really sure which

232

00:16:00,550 --> 00:15:59,680

one of those two activities were going

233

00:16:02,870 --> 00:16:00,560

to do

234

00:16:04,470 --> 00:16:02,880

and so we were quite busy as we tried to

235

00:16:06,550 --> 00:16:04,480

be prepared for either one of those

236

00:16:09,829 --> 00:16:06,560

options depending on which was the best

237

00:16:12,230 --> 00:16:09,839

one to go with so yeah definitely a very

238

00:16:13,670 --> 00:16:12,240

intense three-week period there

239

00:16:14,550 --> 00:16:13,680

but in the end i think it all worked out

240

00:16:15,990 --> 00:16:14,560

well

241

00:16:17,430 --> 00:16:16,000

and finally mike

242

00:16:19,829 --> 00:16:17,440

you had the privilege and the

243

00:16:22,230 --> 00:16:19,839

serendipity of being in orbit over the

244

00:16:23,910 --> 00:16:22,240

olympic games that was a huge moment

245

00:16:25,749 --> 00:16:23,920

obviously for your russian colleagues as

246

00:16:28,470 --> 00:16:25,759

well

247

00:16:29,829 --> 00:16:28,480

analogy what does the international

248

00:16:32,470 --> 00:16:29,839

space station now that you've lived and

249

00:16:34,150 --> 00:16:32,480

worked on it for half a year what is uh

250

00:16:37,189 --> 00:16:34,160

what is the station all about what does

251
00:16:38,629 --> 00:16:37,199
it symbolize what what is its major

252
00:16:41,829 --> 00:16:38,639
importance yeah well i think it

253
00:16:43,590 --> 00:16:41,839
symbolizes what we as a human species

254
00:16:45,269 --> 00:16:43,600
not as different countries but what we

255
00:16:46,629 --> 00:16:45,279
as people can do

256
00:16:48,790 --> 00:16:46,639
when we come together and we forget

257
00:16:51,910 --> 00:16:48,800
about all the things that make us

258
00:16:53,269 --> 00:16:51,920
different it's definitely a

259
00:16:54,150 --> 00:16:53,279
that's something that can pull us all

260
00:16:56,550 --> 00:16:54,160
together

261
00:16:58,629 --> 00:16:56,560
and help us learn more about

262
00:17:00,870 --> 00:16:58,639
our life here on earth but then also

263
00:17:02,870 --> 00:17:00,880

help prepare us for our future going

264

00:17:05,590 --> 00:17:02,880

beyond low earth orbit

265

00:17:07,590 --> 00:17:05,600

mike hopkins welcome home fabulous time
