

1  
00:00:05,430 --> 00:00:07,120  
Hey there, I'm Kellie Pickler.

2  
00:00:07,120 --> 00:00:12,200  
Did you know that across the country, NASA  
is working on the next rocket and spacecraft

3  
00:00:12,200 --> 00:00:16,980  
that will take astronauts to deep space, further  
than humans have ever gone before?

4  
00:00:16,980 --> 00:00:22,890  
NASA's Orion spacecraft will carry astronauts  
to new frontiers of discovery and the Space

5  
00:00:22,890 --> 00:00:26,530  
Launch System is the big rocket that will  
help get them there.

6  
00:00:26,530 --> 00:00:29,190  
NASA calls it the SLS.

7  
00:00:29,190 --> 00:00:34,750  
The first flight test of Orion will take off  
from right here at Kennedy Space Center in

8  
00:00:34,750 --> 00:00:35,750  
Florida this fall.
