

PORT

STBD

1
00:00:06,470 --> 00:00:02,710
station this is houston are you ready

2
00:00:10,950 --> 00:00:08,150
space station is ready ready for the

3
00:00:24,710 --> 00:00:13,990
wjz tv this is mission control houston

4
00:00:24,720 --> 00:00:30,310
station this is wjz tv do you hear me

5
00:00:34,870 --> 00:00:32,229
i got you loud and clear all right i

6
00:00:40,950 --> 00:00:34,880
don't hear him

7
00:00:45,750 --> 00:00:43,110
i do not i heard everything else from

8
00:00:47,510 --> 00:00:45,760
houston though

9
00:00:52,310 --> 00:00:47,520
let me give you one more try can you

10
00:00:52,320 --> 00:00:55,910
no

11
00:00:59,750 --> 00:00:57,910
station please stand by one moment the

12
00:01:04,149 --> 00:00:59,760
station is working out some internal

13
00:01:04,159 --> 00:01:11,590

your configuration is good onboard iss

14

00:01:11,600 --> 00:01:15,109

oh i hear

15

00:01:21,270 --> 00:01:19,030

station this is wjz tv do you hear me

16

00:01:31,270 --> 00:01:21,280

you hear me i do hear you loud and clear

17

00:01:37,030 --> 00:01:34,069

reid we're having audio issues i do not

18

00:01:41,109 --> 00:01:38,830

come on

19

00:01:42,710 --> 00:01:41,119

gingerbread so what do you do

20

00:01:45,590 --> 00:01:42,720

i uh

21

00:01:51,069 --> 00:01:45,600

i coordinate volunteers for a non-profit

22

00:01:51,079 --> 00:02:03,910

applause it is

23

00:02:07,030 --> 00:02:06,149

you have a nice green shirt on can you

24

00:02:09,190 --> 00:02:07,040

hear me

25

00:02:10,630 --> 00:02:09,200

you notice it says treasure

26

00:02:13,830 --> 00:02:10,640

i hear you loud and clear i hear you

27

00:02:18,550 --> 00:02:16,390

keep the cd with its treasure we got you

28

00:02:21,670 --> 00:02:18,560

reed i have you now

29

00:02:25,270 --> 00:02:23,110

we have technical issues when we're

30

00:02:27,910 --> 00:02:25,280

trying to go to west from west baltimore

31

00:02:31,430 --> 00:02:27,920

so this isn't so bad for the space let's

32

00:02:33,030 --> 00:02:31,440

find out hold this one yes sir okay

33

00:02:35,030 --> 00:02:33,040

you could have won a diamond and ruby

34

00:02:36,790 --> 00:02:35,040

necklace this dazzling necklace features

35

00:02:48,070 --> 00:02:36,800

over one and a half carats of sparkling

36

00:02:52,630 --> 00:02:49,670

okay reed

37

00:02:54,949 --> 00:02:52,640

this is mary bubala from wjz tv in

38

00:02:57,830 --> 00:02:54,959

baltimore i'm so excited to talk to you

39

00:03:01,670 --> 00:02:57,840

again where are you where's the iss

40

00:03:04,550 --> 00:03:03,270

i don't know i haven't looked outside in

41

00:03:06,630 --> 00:03:04,560

a little while unfortunately we've been

42

00:03:11,509 --> 00:03:06,640

busy working so i don't even know where

43

00:03:18,309 --> 00:03:15,110

i get that no problem we continue to

44

00:03:20,869 --> 00:03:18,319

love the pictures that you keep tweeting

45

00:03:23,030 --> 00:03:20,879

after my first interview with you

46

00:03:26,630 --> 00:03:23,040

many many people asked me

47

00:03:30,309 --> 00:03:26,640

how quickly does reed's tweet get to

48

00:03:34,710 --> 00:03:32,550

well so first uh my crewmates are just

49

00:03:37,270 --> 00:03:34,720

yelling that we we see the beautiful

50

00:03:39,030 --> 00:03:37,280

australia below us uh which is a great

51
00:03:41,350 --> 00:03:39,040
view out the window it's all the desert

52
00:03:43,350 --> 00:03:41,360
in australia is so red and so rich up

53
00:03:44,630 --> 00:03:43,360
against the ocean it's fantastic

54
00:03:46,390 --> 00:03:44,640
but to answer the question you just

55
00:03:48,470 --> 00:03:46,400
asked how long does a tweet take to get

56
00:03:50,390 --> 00:03:48,480
out on twitter from the space station

57
00:03:52,229 --> 00:03:50,400
and generally it takes really only about

58
00:03:54,390 --> 00:03:52,239
five to ten minutes i just have to email

59
00:03:55,910 --> 00:03:54,400
it down to nasa and they turn it right

60
00:03:57,589 --> 00:03:55,920
around onto my twitter account and out

61
00:04:03,030 --> 00:03:57,599
it goes so generally those are pretty

62
00:04:11,670 --> 00:04:06,949
how is life so far in microgravity how

63
00:04:15,670 --> 00:04:13,589

today is a special day for three members

64

00:04:17,990 --> 00:04:15,680

of the crew myself my german crewmate

65

00:04:19,990 --> 00:04:18,000

and my russian commander this is our

66

00:04:21,990 --> 00:04:20,000

halfway day and we're holding up

67

00:04:24,950 --> 00:04:22,000

absolutely great i'd say the first month

68

00:04:27,270 --> 00:04:24,960

was a little rocky at times but

69

00:04:28,790 --> 00:04:27,280

really enjoying weightlessness and you

70

00:04:33,430 --> 00:04:28,800

know one day at a time but it's going

71

00:04:41,510 --> 00:04:35,749

do you keep track of

72

00:04:45,830 --> 00:04:43,670

well in a little bit of a way we do i

73

00:04:47,350 --> 00:04:45,840

keep track of the weekends because uh

74

00:04:49,189 --> 00:04:47,360

saturday is a limited work day and

75

00:04:51,030 --> 00:04:49,199

generally on sunday i get to talk to my

76

00:04:52,790 --> 00:04:51,040

family so we always know when it's

77

00:04:54,469 --> 00:04:52,800

saturday and sunday but other than that

78

00:04:55,909 --> 00:04:54,479

i couldn't tell you i know it's august i

79

00:04:57,749 --> 00:04:55,919

can't tell you exactly which day it is

80

00:05:01,830 --> 00:04:57,759

other than it's a tuesday in august

81

00:05:06,310 --> 00:05:05,110

i gotcha after seeing so many sites from

82

00:05:08,629 --> 00:05:06,320

above

83

00:05:13,749 --> 00:05:08,639

where do you want to visit when you come

84

00:05:17,189 --> 00:05:15,430

i want to go to baltimore that's too

85

00:05:19,990 --> 00:05:17,199

easy of a question

86

00:05:21,670 --> 00:05:20,000

no there are so many amazing volcanoes

87

00:05:23,749 --> 00:05:21,680

and islands out there that are just in

88

00:05:25,909 --> 00:05:23,759

the middle of the ocean i would love to

89

00:05:27,110 --> 00:05:25,919

go see some of these places the bahamas

90

00:05:28,629 --> 00:05:27,120

is incredible

91

00:05:29,590 --> 00:05:28,639

all of australia africa the whole

92

00:05:30,790 --> 00:05:29,600

world's beautiful i want to go

93

00:05:32,070 --> 00:05:30,800

everywhere so

94

00:05:37,350 --> 00:05:32,080

i can't wait to get home and do some

95

00:05:41,510 --> 00:05:39,350

we were disappointed to hear that your

96

00:05:42,950 --> 00:05:41,520

space walks have been delayed what's

97

00:05:46,950 --> 00:05:42,960

going on why

98

00:05:50,870 --> 00:05:49,029

well it's it's a pretty minor issue but

99

00:05:53,430 --> 00:05:50,880

uh like everything we do up here safety

100

00:05:55,670 --> 00:05:53,440

is paramount so we have a small issue

101
00:05:56,710 --> 00:05:55,680
with our batteries and it's a very tiny

102
00:05:58,710 --> 00:05:56,720
chance that we could go out on a

103
00:06:00,870 --> 00:05:58,720
spacewalk and lose our power system to

104
00:06:02,150 --> 00:06:00,880
the spacesuit which wouldn't be life or

105
00:06:03,749 --> 00:06:02,160
death it would just mean we'd have to

106
00:06:06,070 --> 00:06:03,759
terminate our spacewalk early and come

107
00:06:08,070 --> 00:06:06,080
inside which it could leave some work

108
00:06:09,590 --> 00:06:08,080
unfinished out there so we're going to

109
00:06:11,590 --> 00:06:09,600
wait we're going to get new batteries up

110
00:06:13,749 --> 00:06:11,600
here hopefully in just a few weeks and

111
00:06:15,590 --> 00:06:13,759
then if all goes well in october we'll

112
00:06:17,110 --> 00:06:15,600
knock out one or two spacewalks and

113
00:06:18,390 --> 00:06:17,120

that'll be fantastic and if we don't do

114

00:06:20,150 --> 00:06:18,400

it in october then we'll hand them off

115

00:06:24,230 --> 00:06:20,160

to the next crew and they'll get to do

116

00:06:28,550 --> 00:06:26,710

i'm going to rattle off a few viewer

117

00:06:29,510 --> 00:06:28,560

questions because our viewers have just

118

00:06:31,189 --> 00:06:29,520

kept

119

00:06:33,670 --> 00:06:31,199

in touch with your space flight so much

120

00:06:35,830 --> 00:06:33,680

for the first question is william murray

121

00:06:38,230 --> 00:06:35,840

of baltimore asked what is the most

122

00:06:42,309 --> 00:06:38,240

difficult and the easiest thing about

123

00:06:46,710 --> 00:06:44,230

well i'd say the answer to both of those

124

00:06:48,710 --> 00:06:46,720

questions is the lack of gravity we're

125

00:06:51,430 --> 00:06:48,720

basically in microgravity essentially

126

00:06:53,589 --> 00:06:51,440

weightless up here at all times and so

127

00:06:55,350 --> 00:06:53,599

that it makes getting around easy it

128

00:06:57,909 --> 00:06:55,360

also makes working extremely hard when

129

00:06:59,589 --> 00:06:57,919

you open up just a package of screws to

130

00:07:02,070 --> 00:06:59,599

swap out a part and you have to put

131

00:07:03,589 --> 00:07:02,080

every screw on either duct tape or

132

00:07:05,350 --> 00:07:03,599

somehow velcro it down because as soon

133

00:07:07,189 --> 00:07:05,360

as you open up any package everything's

134

00:07:09,110 --> 00:07:07,199

just floating around and it's so easy to

135

00:07:10,469 --> 00:07:09,120

lose things i'd say so that's really my

136

00:07:15,270 --> 00:07:10,479

answer to both things but living in

137

00:07:20,309 --> 00:07:17,350

all right a deep question for you reid

138

00:07:22,870 --> 00:07:20,319

from joel richmond of baltimore he asks

139

00:07:25,589 --> 00:07:22,880

when you gaze out into the solar system

140

00:07:27,990 --> 00:07:25,599

where does your mind wander is there a

141

00:07:30,870 --> 00:07:28,000

sense of spirituality a feeling of being

142

00:07:34,469 --> 00:07:30,880

closer to god or is there a sense that

143

00:07:37,430 --> 00:07:34,479

what you see is so vast that intuitively

144

00:07:43,990 --> 00:07:37,440

you believe humankind is not alone and

145

00:07:46,869 --> 00:07:45,510

a great question and it's something that

146

00:07:49,350 --> 00:07:46,879

i'll ponder for the rest of my life

147

00:07:51,270 --> 00:07:49,360

because i think that's what humans do uh

148

00:07:53,350 --> 00:07:51,280

the other day on i think it was saturday

149

00:07:55,350 --> 00:07:53,360

or sunday we turned out all the lights

150

00:07:57,350 --> 00:07:55,360

and i just hung out in our in our cupola

151
00:07:59,270 --> 00:07:57,360
which has a bunch of windows and when

152
00:08:00,550 --> 00:07:59,280
your eyes adjust to the darkness and you

153
00:08:02,230 --> 00:08:00,560
look out

154
00:08:03,510 --> 00:08:02,240
really when you're behind the earth so

155
00:08:06,390 --> 00:08:03,520
it's totally black the only thing you

156
00:08:07,749 --> 00:08:06,400
can see is stars and there are so many

157
00:08:09,189 --> 00:08:07,759
it's better than any mountain i've ever

158
00:08:11,270 --> 00:08:09,199
been on it's better than being on a ship

159
00:08:13,110 --> 00:08:11,280
in the middle of the ocean there are so

160
00:08:15,110 --> 00:08:13,120
many thousands of stars out there there

161
00:08:16,710 --> 00:08:15,120
is no way that we are alone maybe

162
00:08:18,309 --> 00:08:16,720
there's not people living on other

163
00:08:20,629 --> 00:08:18,319

planets like we are but maybe there is

164

00:08:26,150 --> 00:08:20,639

but there is absolute life is so amazing

165

00:08:31,510 --> 00:08:28,230

and a lighter question for you reid

166

00:08:34,389 --> 00:08:31,520

frank schomberg of essex asks do you get

167

00:08:40,230 --> 00:08:34,399

to watch your beloved ravens or first

168

00:08:43,029 --> 00:08:42,070

so i i haven't caught the ravens yet

169

00:08:44,710 --> 00:08:43,039

we've been watching a little bit of

170

00:08:47,030 --> 00:08:44,720

preseason football but it hasn't lined

171

00:08:49,030 --> 00:08:47,040

up but uh i major league baseball has

172

00:08:50,790 --> 00:08:49,040

been great and i am getting uh little

173

00:08:52,870 --> 00:08:50,800

five minute highlights of every orioles

174

00:08:55,509 --> 00:08:52,880

game up here i think we're seven and a

175

00:08:58,070 --> 00:08:55,519

half games up right now so life is great

176

00:08:59,430 --> 00:08:58,080

i got my earl's jersey back there in my

177

00:09:05,750 --> 00:08:59,440

in my bedroom and i pull it out every

178

00:09:10,389 --> 00:09:08,150

and a nelson cruz home run may be

179

00:09:12,630 --> 00:09:10,399

whizzing past the iss try to take a

180

00:09:15,590 --> 00:09:12,640

picture of it if you can

181

00:09:17,430 --> 00:09:15,600

and reid we are almost out of time any

182

00:09:22,550 --> 00:09:17,440

shout outs to your family here in

183

00:09:25,190 --> 00:09:23,750

all right you know my mom and dad are

184

00:09:28,710 --> 00:09:25,200

probably watching we're always watching

185

00:09:29,750 --> 00:09:28,720

wjz so uh mom hi how you doing uh it's

186

00:09:31,750 --> 00:09:29,760

great to talk to you the other day on

187

00:09:33,670 --> 00:09:31,760

the phone and uh keep taking good care

188

00:09:35,190 --> 00:09:33,680

of dad and uh just all my friends up

189

00:09:38,230 --> 00:09:35,200

there it's a great place have some

190

00:09:41,190 --> 00:09:38,240

maryland blue crabs for me and a nice

191

00:09:43,509 --> 00:09:41,200

fresh piece of uh eastern shore corn and

192

00:09:45,110 --> 00:09:43,519

that's the man we i miss those stuff uh

193

00:09:50,070 --> 00:09:45,120

those things big time so i'd love to be

194

00:09:53,670 --> 00:09:51,670

reed thank you so much it was so

195

00:09:55,829 --> 00:09:53,680

phenomenal to connect with you again we

196

00:09:57,350 --> 00:09:55,839

all love you here in baltimore be safe

197

00:10:02,870 --> 00:09:57,360

we're going to watch your every move and

198

00:10:05,350 --> 00:10:04,230

i can't wait to come visit all right

199

00:10:10,310 --> 00:10:05,360

take care it's great talking to you
