we're going to

3
00:00:53,830 --> 00:00:42,229
even if you're a cosmonaut you're

4
00:01:09,590 --> 00:00:56,150
one six eight yes

5
00:01:14,070 --> 00:01:10,830

so now we have to go back

11
00:02:13,520 --> 00:02:31,830
right here

12
00:02:31,840 --> 00:02:34,710

please look at the camera

21

00:03:59,439 --> 00:04:11,830

you can everybody the cosmonauts

22

00:04:20,870 --> 00:04:15,750

gordon to the right how about me

23

00:04:23,510 --> 00:04:22,390

primary crew

24

00:04:25,830 --> 00:04:23,520

over here

25

00:04:29,270 --> 00:04:25,840

space station with elena

26

00:04:31,350 --> 00:04:29,280

i'm thrilled absolutely thrilled

27

00:04:33,430 --> 00:04:31,360

elena sasha and i we've been working

28

00:04:35,350 --> 00:04:33,440

together for several years

29

00:04:36,950 --> 00:04:35,360

we've become good friends

30

00:04:39,030 --> 00:04:36,960

and i'm looking forward to our time

31

00:04:40,390 --> 00:04:39,040

together working together as a unit on

32

00:04:45,909 --> 00:04:40,400

the space station for six months it's

33

00:04:51,430 --> 00:04:48,550

last time you told us that

34

00:04:56,629 --> 00:04:53,749

is going through her exams she is very

35

00:05:00,469 --> 00:04:56,639

worried and worried about you she always

36

00:05:03,189 --> 00:05:00,479

tells me mommy i love you so much

37

00:05:04,070 --> 00:05:03,199

i hug you and kiss you

38

00:05:05,830 --> 00:05:04,080

and

39

00:05:08,550 --> 00:05:05,840

i'll be looking forward to seeing my

40

00:05:10,870 --> 00:05:08,560

daughter at baikonur she is going to see

41

00:05:13,510 --> 00:05:10,880

me off

42

00:05:16,150 --> 00:05:13,520

elena how do you evaluate your readiness

43

00:05:21,029 --> 00:05:17,830

you know

44

00:05:23,510 --> 00:05:21,039

our crew has gone through all the exams

45

00:05:25,189 --> 00:05:23,520

and we got excellent marks we are ready

46

00:05:27,270 --> 00:05:25,199

for flight

47

00:05:31,350 --> 00:05:27,280

we are ready to perform

48

00:05:35,909 --> 00:05:33,670

did you have a good sleep before this

49

00:05:37,350 --> 00:05:35,919

important day

50

00:05:39,590 --> 00:05:37,360

i had

51

00:05:42,550 --> 00:05:39,600

excellent sleep

52

00:05:44,870 --> 00:05:42,560

and today is easier because

53

00:05:46,390 --> 00:05:44,880

we had to go through exams

54

00:05:50,870 --> 00:05:46,400

and it's done

55

00:05:56,550 --> 00:05:50,880

and now we'll just continue working

56

00:06:00,150 --> 00:05:57,990

the best thing that we could do two

57

00:06:01,749 --> 00:06:00,160

weeks prior to working for six solid

58

00:06:03,430 --> 00:06:01,759

months is we're gonna have a lot of time

59

00:06:05,510 --> 00:06:03,440

to rest and that's a good thing we've

60

00:06:07,830 --> 00:06:05,520

been uh going at it very strong for many

61

00:06:09,350 --> 00:06:07,840

months as i said years actually have

62

00:06:10,950 --> 00:06:09,360

some time to relax i'll also be some

63

00:06:12,950 --> 00:06:10,960

final training that we'll do final

64

00:06:14,790 --> 00:06:12,960

preparations for the launch and then our

65

00:06:18,150 --> 00:06:14,800

work on board station looking forward to

66

00:06:23,350 --> 00:06:20,550

in your opinion do you think you are

67

00:06:25,110 --> 00:06:23,360

opening a new page in the

68

00:06:28,070 --> 00:06:25,120

history of space

69

00:06:30,870 --> 00:06:28,080

with a woman in space

70

00:06:32,950 --> 00:06:30,880

oh you're just continuing

71

00:06:35,430 --> 00:06:32,960

well space

72

00:06:37,749 --> 00:06:35,440

is not divided by gender

73

00:06:40,710 --> 00:06:37,759

we'll be all working together

74

00:06:42,790 --> 00:06:40,720

to provide new knowledge to humanity

75

00:06:44,950 --> 00:06:42,800

we're just making

76

00:06:46,950 --> 00:06:44,960

a new step

77

00:06:53,029 --> 00:06:46,960

and it is a very positive step and the

78

00:06:57,029 --> 00:06:55,350

are you going to have any additional

79

00:06:59,029 --> 00:06:57,039

tasks planned

80

00:07:02,309 --> 00:06:59,039

during your flight

81

00:07:05,670 --> 00:07:02,319

well it will take a long time if i

82

00:07:08,309 --> 00:07:05,680

enumerate all our science program we are

83

00:07:09,990 --> 00:07:08,319

going to perform more than 50

84

00:07:12,150 --> 00:07:10,000

experiments to

85

00:07:14,230 --> 00:07:12,160

benefit humanity

86

00:07:17,270 --> 00:07:14,240

of course we will tell you

87

00:07:19,589 --> 00:07:17,280

some aspects about our science program

88

00:07:22,629 --> 00:07:19,599

later

89

00:07:25,270 --> 00:07:22,639

could you tell us some more about open

90

00:07:26,390 --> 00:07:25,280

space flight

91

00:07:32,309 --> 00:07:26,400

and

92

00:07:36,550 --> 00:07:34,790

well it is not a very usual program of

93

00:07:39,189 --> 00:07:36,560

course we are going to

94

00:07:41,990 --> 00:07:39,199

do some more outfitting of the station

95

00:07:43,510 --> 00:07:42,000

and we are going to remove items that

96

00:07:44,950 --> 00:07:43,520

are in the way

97

00:07:47,830 --> 00:07:44,960

because

98

00:07:49,270 --> 00:07:47,840

during the years of station operation

99

00:07:52,070 --> 00:07:49,280

there are some

100

00:07:52,950 --> 00:07:52,080

elements accumulated there that are too

101
00:07:54,950 --> 00:07:52,960
old

102
00:07:57,430 --> 00:07:54,960
and they have to be removed

103
00:07:58,629 --> 00:07:57,440
which will be quite difficult and take a

104
00:07:59,510 --> 00:07:58,639
long time

105
00:08:05,189 --> 00:07:59,520
and

106
00:08:11,350 --> 00:08:05,199
do those

107
00:08:17,270 --> 00:08:13,110
hello this is

108
00:08:21,270 --> 00:08:18,390
as you know

109
00:08:22,070 --> 00:08:21,280
moscow aviation institute

110
00:08:25,189 --> 00:08:22,080
is

111
00:08:27,909 --> 00:08:25,199
the place where cosmonauts are trained

112
00:08:31,350 --> 00:08:27,919
and could you please tell us

113
00:08:34,149 --> 00:08:31,360

what role it played in your life

114

00:08:36,389 --> 00:08:34,159

for me it played a key role

115

00:08:38,949 --> 00:08:36,399

without this institute i would not be

116

00:08:40,870 --> 00:08:38,959

able to work in the space industry and

117

00:08:47,990 --> 00:08:40,880

get this opportunity to fly to the

118

00:08:52,870 --> 00:08:51,110

and what is your motto to work hard

119

00:08:55,269 --> 00:08:52,880

never stop working

120

00:08:56,550 --> 00:08:55,279

never give up and finish what you

121

00:09:00,230 --> 00:08:56,560

started

122

00:09:06,870 --> 00:09:00,240

this is my motto and i hope you do

123

00:09:11,350 --> 00:09:08,470

you are the best

124

00:09:13,350 --> 00:09:11,360

representatives of our country

125

00:09:14,310 --> 00:09:13,360

thank you

126

00:09:15,990 --> 00:09:14,320

please

127

00:09:33,350 --> 00:09:16,000

free up the space

128

00:09:33,360 --> 00:09:49,670

goodbye good luck

129

00:09:53,430 --> 00:09:51,509

okay let's count
