

1  
00:00:06,249 --> 00:00:02,419  
and the first view from the helmet

2  
00:00:08,780 --> 00:00:06,259  
cameras for the Russian cosmonauts the

3  
00:00:10,790 --> 00:00:08,790  
translucent number 17 on the lower right

4  
00:00:13,610 --> 00:00:10,800  
hand corner of your picture is assigned

5  
00:00:15,289 --> 00:00:13,620  
to alexander samokutyaev he is out in

6  
00:00:16,340 --> 00:00:15,299  
the void of space first out of the

7  
00:00:18,950 --> 00:00:16,350  
hatchway of the piers docking

8  
00:00:27,759 --> 00:00:18,960  
compartment at the outset of today's

9  
00:00:34,400 --> 00:00:27,769  
spacewalk and now they're unstuck

10  
00:00:39,020 --> 00:00:34,410  
Sergei my sublimator is on copy it's a

11  
00:00:41,330 --> 00:00:39,030  
little darkest and emerging from the

12  
00:00:44,690 --> 00:00:41,340  
piers hatchway max suraïh of the

13  
00:00:51,680 --> 00:00:44,700

expedition 41 commander getting his

14

00:00:53,330 --> 00:00:51,690

second spacewalk in his career the

15

00:00:55,700 --> 00:00:53,340

International Space Station is over the

16

00:00:57,920 --> 00:00:55,710

South Pacific about to begin a Southwest

17

00:00:59,240 --> 00:00:57,930

and northeasterly track that will carry

18

00:01:02,420 --> 00:00:59,250

it across the west coast of South

19

00:01:19,190 --> 00:01:02,430

America a short time from now actually

20

00:01:31,020 --> 00:01:22,440

and maximin Sasha I have a request for

21

00:01:35,970 --> 00:01:31,030

you please make sure that your boiler

22

00:01:38,190 --> 00:01:35,980

safety tethers are secured 41 commander

23

00:01:39,990 --> 00:01:38,200

max suraev wearing the Russian Orlan

24

00:01:42,840 --> 00:01:40,000

suit bearing the red stripes from this

25

00:01:47,070 --> 00:01:42,850

helmet camera view courtesy of alexander

26  
00:01:49,950 --> 00:01:47,080  
samokutyaev as the crew has arrived at

27  
00:01:52,680 --> 00:01:49,960  
the universal work platform to begin the

28  
00:01:56,030 --> 00:01:52,690  
tasks associated with the disconnection

29  
00:01:58,290 --> 00:01:56,040  
of cables and the removal of a seismic

30  
00:02:01,980 --> 00:01:58,300  
measuring experiment called radio

31  
00:02:04,560 --> 00:02:01,990  
matreya that will be jettisoned aft from

32  
00:02:07,890 --> 00:02:04,570  
the international space station a short

33  
00:02:10,710 --> 00:02:07,900  
time from now you see it moving away as

34  
00:02:19,770 --> 00:02:10,720  
expected after the International Space

35  
00:02:21,720 --> 00:02:19,780  
Station this is an event of some note we

36  
00:02:24,600 --> 00:02:21,730  
kept it on board a long time once again

37  
00:02:27,320 --> 00:02:24,610  
from alexander samokutyaev helmet camera

38  
00:02:30,720 --> 00:02:27,330

a good view of the expose our experiment

39

00:02:38,750 --> 00:02:30,730

basically housing a variety of different

40

00:02:44,940 --> 00:02:38,760

samples of materials ok I'm there at the

41

00:02:48,930 --> 00:02:44,950

PA hatch I can see that machine thinking

42

00:02:51,600 --> 00:02:48,940

that you could use it in the vicinity of

43

00:02:54,900 --> 00:02:51,610

the antennas yeah I'm going to keep it

44

00:03:05,950 --> 00:02:54,910

as a safety just in case I completely

45

00:03:13,790 --> 00:03:09,200

I'm a shepherd that I school upon him

46

00:03:21,430 --> 00:03:13,800

about Oliver William mm yeah it's

47

00:03:26,570 --> 00:03:21,440

watching you are concerned about arson

48

00:03:28,610 --> 00:03:26,580

but there is some space below that there

49

00:03:32,510 --> 00:03:28,620

is a window there okay I'm throwing it

50

00:03:38,350 --> 00:03:32,520

away okay it's flying away can you see

51  
00:03:43,490 --> 00:03:38,360  
it on GoPro can you see it on the WVS

52  
00:03:45,860 --> 00:03:43,500  
yes we can see it very well the solar

53  
00:03:49,280 --> 00:03:45,870  
rays of the automated Transfer Vehicle

54  
00:03:51,440 --> 00:03:49,290  
very clearly in view in the middle of

55  
00:04:10,230 --> 00:03:51,450  
your picture it is docked to the AFT
