

SPACEX

A photograph of a SpaceX Dragon capsule in space. The capsule is white with the word "SPACEX" printed in black on its side. It has a large rectangular window in the center and several circular ports on either side. The capsule is illuminated from the top, and the background is a dark, textured surface, likely the Earth's atmosphere or a launch pad structure.

1  
00:00:06,950 --> 00:00:05,910  
one minute now until the release of

2  
00:00:08,470 --> 00:00:06,960  
dragon

3  
00:00:10,950 --> 00:00:08,480  
its five-week mission at the

4  
00:01:20,310 --> 00:00:10,960  
international space station almost at an

5  
00:01:25,270 --> 00:01:22,870  
snares have been opened on the latching

6  
00:01:32,950 --> 00:01:25,280  
end effector

7  
00:01:32,960 --> 00:01:38,310  
the dragon is free

8  
00:01:45,030 --> 00:01:41,030  
release occurring at

9  
00:01:47,030 --> 00:01:45,040  
8 57 a.m central time on time

10  
00:01:48,310 --> 00:01:47,040  
as the international space station flew

11  
00:02:02,550 --> 00:01:48,320  
just off the northwest coast of

12  
00:02:06,310 --> 00:02:04,469  
the robotics officer reports a very

13  
00:02:09,749 --> 00:02:06,320

clean release

14

00:02:11,589 --> 00:02:09,759

the arm being backed away from dragon

15

00:02:31,670 --> 00:02:11,599

standing by for the first in the series

16

00:02:49,350 --> 00:02:34,390

burn is armed

17

00:02:52,670 --> 00:02:51,589

and you send it apart has been sent

18

00:02:57,270 --> 00:02:52,680

we're back in

19

00:03:01,430 --> 00:02:59,589

copy that departure burn 1 is complete

20

00:03:11,750 --> 00:03:01,440

departure burn 2 in approximately 1

21

00:03:16,869 --> 00:03:14,229

a good burn

22

00:03:48,550 --> 00:03:16,879

for the dragon the first of three the

23

00:03:53,910 --> 00:03:50,630

standing by for the second in the trio

24

00:03:57,509 --> 00:03:56,390

everything looking extremely stable with

25

00:03:59,190 --> 00:03:57,519

dragon

26

00:04:17,110 --> 00:03:59,200

good systems

27

00:04:27,990 --> 00:04:18,870

the second of the three burns underway

28

00:04:28,000 --> 00:04:35,430

and the second burn is now complete
