

1
00:00:01,239 --> 00:00:03,200
Hey there I'm Eddie Redmayne.

2
00:00:03,200 --> 00:00:07,319
In the movie The Theory of Everything, I play
Professor Stephen Hawking, one of the most

3
00:00:07,319 --> 00:00:10,219
influential Cosmologists of our time.

4
00:00:10,219 --> 00:00:14,599
We've all marveled at the mysteries beyond
our planet but with NASA's cutting-edge technology,

5
00:00:14,599 --> 00:00:17,760
we're discovering the inner-workings of our
universe.

6
00:00:17,760 --> 00:00:23,000
Scientists are testing many of Hawking's theories
using NASA's space telescopes like Hubble

7
00:00:23,000 --> 00:00:25,640
and Chandra.

8
00:00:25,640 --> 00:00:31,510
In 2018, NASA will launch the James Webb Space
Telescope to unlock more secrets to our universe.
