

1  
00:00:42,630 --> 00:00:34,630  
look at us

2  
00:00:42,640 --> 00:00:51,029  
samantha

3  
00:00:51,039 --> 00:00:58,069  
thank you

4  
00:01:02,389 --> 00:01:01,510  
we're here at our soyuz tma-15m uh at

5  
00:01:08,230 --> 00:01:02,399  
the

6  
00:01:09,590 --> 00:01:08,240  
expect it to make sure we know where

7  
00:01:11,030 --> 00:01:09,600  
everything is

8  
00:01:12,550 --> 00:01:11,040  
and the next time that we're gonna be in

9  
00:01:14,630 --> 00:01:12,560  
the vehicle will be on our space suits

10  
00:01:15,670 --> 00:01:14,640  
getting ready for launch and so we just

11  
00:01:17,030 --> 00:01:15,680  
need to know

12  
00:01:18,950 --> 00:01:17,040  
to make sure that we understand where

13  
00:01:32,789 --> 00:01:18,960

everything is and we can find all the

14

00:01:37,109 --> 00:01:35,350

well everything is pretty much ready for

15

00:01:39,670 --> 00:01:37,119

launch

16

00:01:40,550 --> 00:01:39,680

into space and we

17

00:01:43,270 --> 00:01:40,560

checked

18

00:01:45,109 --> 00:01:43,280

all our personal items cargo items that

19

00:01:47,030 --> 00:01:45,119

we're going to be bringing with us to

20

00:01:49,270 --> 00:01:47,040

the station

21

00:01:54,230 --> 00:01:49,280

everything's fine samantha what do you

22

00:01:57,590 --> 00:01:55,830

we did

23

00:02:01,030 --> 00:01:57,600

check everything

24

00:02:04,389 --> 00:02:01,040

check where the cargo items

25

00:02:08,710 --> 00:02:04,399

are and some other things that we might

26

00:02:11,190 --> 00:02:08,720

need on our way to the station

27

00:02:16,229 --> 00:02:13,510

it's very important that we know where

28

00:02:17,830 --> 00:02:16,239

everything is located during the flight

29

00:02:20,070 --> 00:02:17,840

of the soyuz

30

00:02:21,589 --> 00:02:20,080

uh it looks great it's amazing to think

31

00:02:24,470 --> 00:02:21,599

that we're going to be in space in that

32

00:02:26,630 --> 00:02:24,480

spacecraft in just a few days

33

00:02:28,869 --> 00:02:26,640

the designers and constructors and the

34

00:02:30,710 --> 00:02:28,879

technicians

35

00:02:34,830 --> 00:02:30,720

have done a great job getting it ready

36

00:02:38,990 --> 00:02:37,910

anton could you compare

37

00:02:40,869 --> 00:02:39,000

soyuz

38

00:02:43,430 --> 00:02:40,879

s20

39

00:02:46,150 --> 00:02:43,440

to and then so use

40

00:02:48,790 --> 00:02:46,160

15m what is the difference

41

00:02:54,710 --> 00:02:51,110

i would say that the software has

42

00:02:55,750 --> 00:02:54,720

changed but inside the hardware of the

43

00:02:58,869 --> 00:02:55,760

vehicle

44

00:03:00,229 --> 00:02:58,879

is pretty much the same

45

00:03:01,509 --> 00:03:00,239

well it's very

46

00:03:04,790 --> 00:03:01,519

functional

47

00:03:07,110 --> 00:03:04,800

well i would say that it became much

48

00:03:10,470 --> 00:03:07,120

simpler more

49

00:03:13,030 --> 00:03:10,480

automatic in a way

50

00:03:15,030 --> 00:03:13,040

and what would be the indicator of zero

51  
00:03:16,830 --> 00:03:15,040  
g for you

52  
00:03:18,949 --> 00:03:16,840  
we took a little

53  
00:03:19,910 --> 00:03:18,959  
toy from

54  
00:03:24,229 --> 00:03:19,920  
the

55  
00:03:25,509 --> 00:03:24,239  
cold heart

56  
00:03:27,110 --> 00:03:25,519  
it's

57  
00:03:29,430 --> 00:03:27,120  
a choice of my

58  
00:03:30,949 --> 00:03:29,440  
younger daughter kira who is eight years

59  
00:03:32,710 --> 00:03:30,959  
old

60  
00:03:35,509 --> 00:03:32,720  
and

61  
00:03:39,350 --> 00:03:35,519  
the toy is going through

62  
00:03:41,110 --> 00:03:39,360  
all the tests and disinfection

63  
00:03:44,229 --> 00:03:41,120

so

64

00:03:45,750 --> 00:03:44,239

we're going to take it with us

65

00:03:48,949 --> 00:03:45,760

into the vehicle

66

00:03:53,990 --> 00:03:52,149

what is it going to be

67

00:03:56,630 --> 00:03:54,000

what are you going to take

68

00:04:05,110 --> 00:03:56,640

with you to celebrate the new year maybe

69

00:04:05,120 --> 00:04:23,510

thank you

70

00:04:23,520 --> 00:04:34,629

could you look up

71

00:04:52,230 --> 00:04:37,430

do you want us to stand here yes

72

00:04:57,350 --> 00:04:54,950

yesterday we had a

73

00:05:00,150 --> 00:04:57,360

number of veteran

74

00:05:02,310 --> 00:05:00,160

space explorers who are preparing your

75

00:05:03,830 --> 00:05:02,320

vehicle and who were preparing the

76

00:05:04,790 --> 00:05:03,840

vehicles for

77

00:05:07,029 --> 00:05:04,800

yuri

78

00:05:08,790 --> 00:05:07,039

gagarin

79

00:05:11,510 --> 00:05:08,800

and since

80

00:05:36,950 --> 00:05:11,520

we have pictures since those days

81

00:05:53,110 --> 00:05:37,830

no no

82

00:05:53,120 --> 00:06:31,189

oh

83

00:06:36,550 --> 00:06:34,070

you probably know already i can actually

84

00:06:44,469 --> 00:06:36,560

show you how the helmet

85

00:06:47,270 --> 00:06:46,070

all right be careful

86

00:06:49,270 --> 00:06:47,280

so if the

87

00:06:52,070 --> 00:06:49,280

body temperature of the crew member

88

00:06:54,309 --> 00:06:52,080

increased even by one degree

89

00:06:59,510 --> 00:06:54,319

the visor and the helmet would

90

00:07:05,510 --> 00:07:01,350

when you put your fingers

91

00:07:09,990 --> 00:07:06,790

that's it

92

00:07:13,909 --> 00:07:11,110

so

93

00:07:15,909 --> 00:07:13,919

we are following our old tradition of

94

00:07:20,309 --> 00:07:15,919

taking pictures together for the crew

95

00:07:20,319 --> 00:07:24,870

and here is the present

96

00:07:24,880 --> 00:07:29,189

have a look these are you guys

97

00:07:33,029 --> 00:07:31,510

we made it for you

98

00:07:35,990 --> 00:07:33,039

alexander gerst

99

00:07:37,990 --> 00:07:36,000

well you can choose any place you like

100

00:07:44,790 --> 00:07:38,000

well we have reid wiseman alexander

101  
00:07:44,800 --> 00:07:59,749  
there's very one more glitch

102  
00:07:59,759 --> 00:08:15,350  
right

103  
00:08:15,360 --> 00:08:18,390  
thank you samantha

104  
00:08:18,400 --> 00:08:27,189  
thank you

105  
00:08:27,199 --> 00:08:45,110  
living

106  
00:08:45,120 --> 00:09:01,750  
um

107  
00:09:05,110 --> 00:09:03,910  
and here is

108  
00:09:07,990 --> 00:09:05,120  
the flag

109  
00:09:10,230 --> 00:09:08,000  
that is going to become a part of the

110  
00:09:13,829 --> 00:09:10,240  
items in our museum

111  
00:09:16,710 --> 00:09:13,839  
so we wanted to say a big thank you for

112  
00:09:31,269 --> 00:09:16,720  
signing the flag

113  
00:10:29,670 --> 00:09:33,990

hey everything everything is just
