1
00:00:24,470 --> 00:00:12,870
i hear you with some disturbing

2
00:00:28,950 --> 00:00:26,950
international space station so i'm going

3
00:00:32,069 --> 00:00:28,960
to turn it over to captain christopher

4
00:00:35,990 --> 00:00:34,709
senor president mr president good day

5
00:00:37,990 --> 00:00:36,000
from space

6
00:00:40,630 --> 00:00:38,000
good day from the international space

7
00:00:44,630 --> 00:00:42,709
grading to the minister of defense and

8
00:00:47,670 --> 00:00:44,640
the authorities that are present and a

9
00:00:51,110 --> 00:00:47,680
special grading to the colleagues

10
00:00:54,069 --> 00:00:51,120
that are currently in italy and abroad

11
00:00:56,389 --> 00:00:54,079
the futura mission has been ongoing for

12
00:00:57,590 --> 00:00:56,399
a month and will be ongoing for five

13
00:00:59,990 --> 00:00:57,600

more months

14

00:01:01,590 --> 00:01:00,000

on which on board of this exceptional

15

00:01:05,429 --> 00:01:01,600

laboratory

16

00:01:08,310 --> 00:01:05,439

i will conduct special experiments

17

00:01:11,190 --> 00:01:08,320

or universities and companies from italy

18

00:01:13,910 --> 00:01:11,200

around me there's a lot of italy the iss

19

00:01:15,429 --> 00:01:13,920

was in great part built by italy and

20

00:01:18,630 --> 00:01:15,439

especially near me i see the

21

00:01:21,670 --> 00:01:18,640

institutions they in the italian space

22

00:01:24,230 --> 00:01:21,680

agency the european space agency

23

00:01:28,469 --> 00:01:24,240

and the italian air force

24

00:01:31,510 --> 00:01:28,479

space research allows us to develop

25

00:01:33,429 --> 00:01:31,520

technologies that allow us to keep life

26

00:01:38,710 --> 00:01:33,439

on earth more secure

27

00:01:43,590 --> 00:01:41,350

if it's impossible to think about how

28

00:01:46,069 --> 00:01:43,600

life on earth is affected by space it's

29

00:01:48,630 --> 00:01:46,079

even more possible for how it's affected

30

00:01:49,830 --> 00:01:48,640

by aerospace i can say that space and

31

00:01:52,069 --> 00:01:49,840

future

32

00:01:53,190 --> 00:01:52,079

cannot be divided

33

00:01:55,749 --> 00:01:53,200

and the great

34

00:01:57,190 --> 00:01:55,759

challenge of italian exploration

35

00:01:58,630 --> 00:01:57,200

and european

36

00:02:00,789 --> 00:01:58,640

exploration

37

00:02:02,789 --> 00:02:00,799

is such that italy plays a great role

38

00:02:04,870 --> 00:02:02,799

thanks to italy and the italian air

39

00:02:08,070 --> 00:02:04,880

force and the advanced technologies

40

00:02:12,309 --> 00:02:10,389

effort of institutions from italy and

41

00:02:13,990 --> 00:02:12,319

europa i was able to

42

00:02:16,150 --> 00:02:14,000

achieve a great dream

43

00:02:18,710 --> 00:02:16,160

mr president i'm very proud today to

44

00:02:22,229 --> 00:02:18,720

represent in space italy and the armed

45

00:02:23,350 --> 00:02:22,239

forces and from space where italy is

46

00:02:26,630 --> 00:02:23,360

present

47

00:02:28,710 --> 00:02:26,640

since 50 years this year

48

00:02:30,790 --> 00:02:28,720

i am happy to wish you and the

49

00:02:43,430 --> 00:02:30,800

colleagues of the armed forces and all

50

00:02:46,949 --> 00:02:45,190

you gave us a great

51
00:02:54,229 --> 00:02:46,959
summary of the importance of this

52
00:02:57,910 --> 00:02:56,550
and you were right to highlight the

53
00:03:00,550 --> 00:02:57,920
excellence

54
00:03:03,350 --> 00:03:00,560
of the italian efforts

55
00:03:04,949 --> 00:03:03,360
in the fields of scientific research and

56
00:03:07,830 --> 00:03:04,959
technological research and it's

57
00:03:10,390 --> 00:03:07,840
something that perhaps now in italy

58
00:03:11,670 --> 00:03:10,400
we do not quite comprehend in its

59
00:03:13,750 --> 00:03:11,680
entirety

60
00:03:15,990 --> 00:03:13,760
so

61
00:03:18,790 --> 00:03:16,000
i believe that your extraordinary

62
00:03:20,710 --> 00:03:18,800
participation to this

63
00:03:23,350 --> 00:03:20,720

space mission will be an incentive an

64

00:03:25,990 --> 00:03:23,360

incentive for italians to understand how

65

00:03:27,430 --> 00:03:26,000

important it is

66

00:03:29,190 --> 00:03:27,440

to

67

00:03:32,869 --> 00:03:29,200

spend effort

68

00:03:34,710 --> 00:03:32,879

in technologies and space research

69

00:03:41,430 --> 00:03:34,720

so i will no longer call you captain

70

00:03:45,030 --> 00:03:43,910

because by now you're a samantha for all

71

00:03:49,430 --> 00:03:45,040

italians

72

00:03:57,429 --> 00:03:51,190

thank you mr president

73

00:03:57,439 --> 00:04:10,149

coming back to earth

74

00:04:16,229 --> 00:04:11,509

who
