

1

00:00:05,560 --> 00:00:08,970

Happy New Year from the International Space Station.

2

00:00:08,970 --> 00:00:12,410

Terry and I just sharpened our pencils and we did a little calculating and we figure

3

00:00:12,410 --> 00:00:19,160

that we will be over midnight somewhere over the Earth, sixteen times throughout this day.

4

00:00:19,160 --> 00:00:23,289

So we plan to celebrate New Years sixteen times with our comrades, our people down on

5

00:00:23,289 --> 00:00:26,449

Earth that are doing it at that very moment, so we're going to do the same thing, that's

6

00:00:26,449 --> 00:00:29,859

our plan.

7

00:00:29,859 --> 00:00:35,300

And we want to wish everybody a happy healthy prosperous twenty fifteen as we get the awesome

8

00:00:35,300 --> 00:00:39,470

privilege of celebrating New Years up here on the Space Station with our six crewmates.

9

00:00:39,470 --> 00:00:43,270

Have a great New Years and a safe New Years down there and we'll enjoy our sixteen New
