

1
00:00:07,590 --> 00:00:05,269
converts and walmart continuing to head

2
00:00:10,549 --> 00:00:07,600
out uh split up at this point verts

3
00:00:13,110 --> 00:00:10,559
heading towards uh the port truss area

4
00:00:15,589 --> 00:00:13,120
p3 walmart heading to the starboard side

5
00:00:18,150 --> 00:00:15,599
uh both will be installing their booms

6
00:00:25,589 --> 00:00:18,160
onto worksite interfaces you'll hear

7
00:00:31,269 --> 00:00:27,189
butch just to remind you your green hook

8
00:00:31,279 --> 00:00:51,590
32-12

9
00:00:51,600 --> 00:00:54,630
and so

10
00:00:59,510 --> 00:00:57,029
verts now working to

11
00:01:02,150 --> 00:00:59,520
get the antennas out of his crew lock

12
00:01:05,350 --> 00:01:02,160
bag eva officer saying he's right about

13
00:01:09,350 --> 00:01:07,590

working uh pretty quick a couple of

14

00:01:10,870 --> 00:01:09,360

minutes ahead of his

15

00:01:13,510 --> 00:01:10,880

already heading back uh towards the

16

00:01:14,230 --> 00:01:13,520

airlock to collect the large bags and

17

00:01:16,070 --> 00:01:14,240

then

18

00:01:16,870 --> 00:01:16,080

get ready for his next task which will

19

00:01:19,190 --> 00:01:16,880

take

20

00:01:20,789 --> 00:01:19,200

both him and terry verts over to the

21

00:01:31,670 --> 00:01:20,799

destiny laboratory

22

00:01:35,910 --> 00:01:33,670

i'm on p1

23

00:01:49,270 --> 00:01:35,920

again there you can see verts making his

24

00:01:54,069 --> 00:01:51,749

this here you can see ev2 butch wilmore

25

00:01:54,870 --> 00:01:54,079

again in the suit with no red stripes on

26

00:01:57,749 --> 00:01:54,880

it

27

00:01:59,190 --> 00:01:57,759

already staged over

28

00:02:05,910 --> 00:01:59,200

at the destiny lab you can see that

29

00:02:10,630 --> 00:02:08,790

which once you open that big bag you can

30

00:02:12,550 --> 00:02:10,640

uh you can use the straps to help

31

00:02:16,390 --> 00:02:12,560

restrain the bag if you needed

32

00:02:26,869 --> 00:02:16,400

and we had handrails 236

33

00:02:33,030 --> 00:02:28,550

and terry just a heads up you're just

34

00:02:34,550 --> 00:02:33,040

translating to the lab mmod shield area

35

00:03:09,350 --> 00:02:34,560

copy that thanks for the

36

00:03:36,710 --> 00:03:10,869

okay copy that you're gonna need a wire

37

00:03:53,990 --> 00:03:39,350

so terry verts already has one of the

38

00:03:54,000 --> 00:04:07,429

uh

39

00:04:12,470 --> 00:04:10,070

beautiful view of the ground as the

40

00:04:14,470 --> 00:04:12,480

northeastern part of canada passes

41

00:04:16,229 --> 00:04:14,480

beneath the station while

42

00:04:19,830 --> 00:04:16,239

verts and wilmork

43

00:04:22,230 --> 00:04:19,840

working to secure these cables
