00:00:13,270 --> 00:00:11,110
anton is trying to open the hatch at the

2
00:00:17,750 --> 00:00:13,280

let us continue our press conference i'm

100

00:07:41,909 --> 00:07:39,759

sure that the family of scott

101
00:07:43,990 --> 00:07:41,919
wants to talk to him we don't have a lot

102
00:07:48,309 --> 00:07:44,000
of time here

103
00:07:48,319 --> 00:08:09,350
hey charlotte how are you

104
00:08:09,360 --> 00:08:16,070
that was like a one minute echo

105
00:08:20,950 --> 00:08:17,749
charlotte did you enjoy the launch i

106
00:08:27,350 --> 00:08:20,960
don't think you remember my last one

107
00:08:32,149 --> 00:08:28,950
charlotte did you enjoy the launch i

108
00:08:35,750 --> 00:08:32,159
don't think you remember my last one

109
00:08:35,760 --> 00:08:47,190
it was good and for um

110
00:08:50,870 --> 00:08:49,110
yeah just for your guys awareness in

111
00:09:05,030 --> 00:08:50,880
both houston and baikonur we have about

112
00:09:12,790 --> 00:09:09,750
then i have just one reminder for you

113
00:09:15,269 --> 00:09:12,800

good company in a long journey makes the

114

00:09:21,110 --> 00:09:15,279

way seem shorter that's for you and also

115

00:09:25,110 --> 00:09:23,509

yeah that's uh yeah that's that's right

116

00:09:26,790 --> 00:09:25,120

and uh yeah we're gonna be up here a

117

00:09:29,190 --> 00:09:26,800

long time but uh i couldn't be doing it

118

00:09:31,190 --> 00:09:29,200

with a better guy

119

00:09:34,150 --> 00:09:31,200

you have an entire planet

120

00:09:46,550 --> 00:09:34,160

have good company here yeah that's uh

121

00:09:46,560 --> 00:09:51,430

i love you guys too

122

00:09:56,550 --> 00:09:54,710

okay i'm at the end of the line here

123

00:10:00,389 --> 00:09:56,560

that's pretty impressive rockets red

124

00:10:00,399 --> 00:10:03,350

hey this is mark

125

00:10:08,870 --> 00:10:05,269

yeah big delay it was really impressive

126

00:10:14,310 --> 00:10:08,880

from the inside too wondering is it as

127

00:10:19,190 --> 00:10:16,870

well actually we haven't seen much that

128

00:10:21,350 --> 00:10:19,200

we just came from the mrm2 right into

129

00:10:22,630 --> 00:10:21,360

the service module and it's it seems

130

00:10:24,870 --> 00:10:22,640

kind of the same

131

00:10:37,670 --> 00:10:24,880

so so far so good nothing has changed

132

00:10:42,389 --> 00:10:39,430

you know i think you guys walked out of

133

00:10:44,069 --> 00:10:42,399

that building about uh 11 hours or so

134

00:10:45,990 --> 00:10:44,079

ago and it's pretty incredible that in

135

00:10:47,829 --> 00:10:46,000

11 hours you can walk out of a building

136

00:10:51,269 --> 00:10:47,839

and be where you are right now pretty

137

00:10:51,279 --> 00:11:09,430

yeah and still be awake

138

00:11:12,630 --> 00:11:11,190

hey we're gonna lose we're gonna lose

139

00:11:14,870 --> 00:11:12,640
you guys here shortly we really

140

00:11:16,870 --> 00:11:14,880

141

00:11:18,710 --> 00:11:16,880
launch i know it's a big trip but

142

00:11:20,389 --> 00:11:18,720
gennady miesha and i

143

00:11:22,949 --> 00:11:20,399

144

00:11:38,630 --> 00:11:22,959
all that way and it's great to fly on

145

00:11:38,640 --> 00:11:50,470
congratulations

146

00:11:53,910 --> 00:11:52,389
i wish you good luck and hope everything

147

00:11:57,110 --> 00:11:53,920
