

1
00:00:11,759 --> 00:00:21,189
international space station

2
00:00:24,630 --> 00:00:22,230
to be

3
00:00:26,950 --> 00:00:24,640
hearing you and to see you

4
00:00:29,669 --> 00:00:26,960
after seeing you on twitter after these

5
00:00:33,510 --> 00:00:31,990
waiting for your return which

6
00:00:35,750 --> 00:00:33,520
is getting closer

7
00:00:40,389 --> 00:00:35,760
we are going to uh

8
00:00:43,830 --> 00:00:42,630
thank you thank you for the invitation

9
00:00:45,990 --> 00:00:43,840
and

10
00:00:47,510 --> 00:00:46,000
it was certainly a pleasure but the

11
00:00:49,350 --> 00:00:47,520
mission is still long we still have a

12
00:00:50,229 --> 00:00:49,360
month and a half there's so much work to

13
00:00:52,069 --> 00:00:50,239

do

14

00:00:54,150 --> 00:00:52,079

and and most of all a lot of research

15

00:00:55,990 --> 00:00:54,160

and a lot of scientific activity to

16

00:00:58,310 --> 00:00:56,000

complete so

17

00:01:00,150 --> 00:00:58,320

for now i still haven't

18

00:01:07,109 --> 00:01:00,160

packed up yet and i'm i'm not ready to

19

00:01:10,789 --> 00:01:08,630

we're following you with a great

20

00:01:12,789 --> 00:01:10,799

admiration

21

00:01:15,030 --> 00:01:12,799

both for the fact that you are the first

22

00:01:17,510 --> 00:01:15,040

woman

23

00:01:18,310 --> 00:01:17,520

to do this important

24

00:01:20,870 --> 00:01:18,320

work

25

00:01:22,230 --> 00:01:20,880

to conduct the scientific mission on

26

00:01:23,469 --> 00:01:22,240

board but also

27

00:01:28,950 --> 00:01:23,479

because you

28

00:01:32,870 --> 00:01:31,030

lay people closer

29

00:01:34,469 --> 00:01:32,880

to the beauty and the importance of the

30

00:01:35,830 --> 00:01:34,479

work that you're doing

31

00:01:37,749 --> 00:01:35,840

not only

32

00:01:41,830 --> 00:01:37,759

by explaining everything that you're

33

00:01:44,469 --> 00:01:41,840

doing which is very interesting

34

00:01:45,510 --> 00:01:44,479

from how you run from to how you cut

35

00:01:49,190 --> 00:01:45,520

your hair

36

00:01:51,990 --> 00:01:49,200

to the more serious scientific research

37

00:01:55,030 --> 00:01:52,000

to the uh geographical questions that

38

00:01:59,670 --> 00:01:55,040

you ask over twitter which i follow all

39

00:02:04,069 --> 00:02:02,389

now i imagine i can imagine i i also

40

00:02:06,230 --> 00:02:04,079

have to say that i've always been

41

00:02:07,990 --> 00:02:06,240

terrible in geography so

42

00:02:10,229 --> 00:02:08,000

when i ask these questions it's because

43

00:02:13,270 --> 00:02:10,239

i'm the first one to not know the answer

44

00:02:15,830 --> 00:02:13,280

but but truly i'm i'm very delighted uh

45

00:02:16,869 --> 00:02:15,840

if this mission is is an opportunity to

46

00:02:19,270 --> 00:02:16,879

transmit

47

00:02:20,790 --> 00:02:19,280

a little bit of passion especially for

48

00:02:24,470 --> 00:02:20,800

the youth

49

00:02:27,990 --> 00:02:26,790

which is space exploration which clearly

50

00:02:29,910 --> 00:02:28,000

has some

51
00:02:31,750 --> 00:02:29,920
scientific and technology components

52
00:02:34,309 --> 00:02:31,760
that are very important for our country

53
00:02:37,110 --> 00:02:34,319
our country is a leader in the research

54
00:02:39,830 --> 00:02:37,120
and space technology but i also believe

55
00:02:43,350 --> 00:02:39,840
that it's it's again a great adventure

56
00:02:54,470 --> 00:02:43,360
for humanity which is in our future as

57
00:02:59,430 --> 00:02:56,630
even though maybe we should be doing

58
00:03:04,790 --> 00:02:59,440
more we're very proud of what the

59
00:03:09,110 --> 00:03:06,550
and with all the partners of this

60
00:03:12,550 --> 00:03:09,120
extraordinary adventure

61
00:03:14,309 --> 00:03:12,560
however when we talk about italy

62
00:03:17,830 --> 00:03:14,319
we limit ourselves

63
00:03:20,869 --> 00:03:17,840

to see the beauty of it which is not

64

00:03:23,430 --> 00:03:20,879

just a little bit all you have to do is

65

00:03:24,710 --> 00:03:23,440

is look at a at a photo from

66

00:03:26,470 --> 00:03:24,720

from up there

67

00:03:28,789 --> 00:03:26,480

that you give us to see how

68

00:03:31,270 --> 00:03:28,799

extraordinary this this country is but

69

00:03:33,509 --> 00:03:31,280

we have this ability of innovation and

70

00:03:34,789 --> 00:03:33,519

to invest in

71

00:03:36,630 --> 00:03:34,799

innovation

72

00:03:37,589 --> 00:03:36,640

and perhaps we should do

73

00:03:39,750 --> 00:03:37,599

more

74

00:03:41,750 --> 00:03:39,760

to invent something new that is part of

75

00:03:43,509 --> 00:03:41,760

our dna

76
00:03:46,070 --> 00:03:43,519
and sometimes that's something that we

77
00:03:48,630 --> 00:03:46,080
don't value enough so your mission has

78
00:03:49,350 --> 00:03:48,640
great value because

79
00:03:51,830 --> 00:03:49,360
it

80
00:03:54,789 --> 00:03:51,840
brought many men and women closer to

81
00:03:56,789 --> 00:03:54,799
this world so now we should be capable

82
00:03:58,869 --> 00:03:56,799
even when you come back to continue to

83
00:04:01,270 --> 00:03:58,879
invest

84
00:04:04,070 --> 00:04:01,280
even with more determination in the

85
00:04:10,070 --> 00:04:04,080
projects both european and international

86
00:04:15,270 --> 00:04:12,550
president i i can't but uh be in

87
00:04:18,390 --> 00:04:15,280
agreement with your words it's it's

88
00:04:20,789 --> 00:04:18,400

great to be successful in past and

89

00:04:23,830 --> 00:04:20,799

present but of course it's important to

90

00:04:26,629 --> 00:04:23,840

build the future so i truly believe that

91

00:04:29,990 --> 00:04:26,639

every euro that's invested in the space

92

00:04:32,230 --> 00:04:30,000

sector and in space technologies

93

00:04:33,110 --> 00:04:32,240

has a return on investment that's very

94

00:04:35,510 --> 00:04:33,120

great

95

00:04:37,590 --> 00:04:35,520

from what uh people smarter than me tell

96

00:04:38,950 --> 00:04:37,600

me about it it's it's one of the sectors

97

00:04:41,189 --> 00:04:38,960

with the highest

98

00:04:43,909 --> 00:04:41,199

return of investment so

99

00:04:46,230 --> 00:04:43,919

we we send people into space but we

100

00:04:48,710 --> 00:04:46,240

don't send money into space so that

101
00:04:51,909 --> 00:04:48,720
stays in our infrastructure so it

102
00:04:55,189 --> 00:04:51,919
creates jobs for our young graduates in

103
00:04:58,390 --> 00:04:55,199
these sectors of science and technology

104
00:05:00,950 --> 00:04:58,400
which then they need to find jobs in

105
00:05:06,550 --> 00:05:00,960
our country so i can't but join you in

106
00:05:12,230 --> 00:05:09,029
you can imagine that i'm surrounded here

107
00:05:13,830 --> 00:05:12,240
by many people who are looking at me

108
00:05:16,150 --> 00:05:13,840
and they're all happy for what you're

109
00:05:18,070 --> 00:05:16,160
saying and for the commitments that

110
00:05:19,990 --> 00:05:18,080
we'll make but i also think that it's

111
00:05:22,629 --> 00:05:20,000
important to

112
00:05:25,990 --> 00:05:22,639
be able together to imagine the country

113
00:05:27,110 --> 00:05:26,000

for her the future for our country i'm

114

00:05:30,230 --> 00:05:27,120

very

115

00:05:32,469 --> 00:05:30,240

taken aback when we lose

116

00:05:35,909 --> 00:05:32,479

sight of the beauty beauty that italy

117

00:05:37,350 --> 00:05:35,919

represents and yet every time i speak

118

00:05:39,110 --> 00:05:37,360

with other

119

00:05:40,150 --> 00:05:39,120

government colleagues from foreign

120

00:05:42,469 --> 00:05:40,160

countries

121

00:05:44,230 --> 00:05:42,479

and and managers of great companies that

122

00:05:45,830 --> 00:05:44,240

invest in italy the first thing that

123

00:05:48,390 --> 00:05:45,840

they tell me

124

00:05:51,189 --> 00:05:48,400

it's not the great food or the beauty of

125

00:05:53,430 --> 00:05:51,199

the museums but the fact that we have a

126

00:05:56,070 --> 00:05:53,440

human capital

127

00:05:57,270 --> 00:05:56,080

a quality of our studies that many are

128

00:05:59,430 --> 00:05:57,280

jealous of

129

00:06:03,350 --> 00:05:59,440

so that's what we need to work on more

130

00:06:05,430 --> 00:06:03,360

even even if on on food hopefully you've

131

00:06:07,749 --> 00:06:05,440

you missed some some of it i i know

132

00:06:08,870 --> 00:06:07,759

you're doing a lot of experiments but uh

133

00:06:10,790 --> 00:06:08,880

hopefully

134

00:06:11,830 --> 00:06:10,800

you're missing some italian food tell me

135

00:06:13,990 --> 00:06:11,840

the truth

136

00:06:16,629 --> 00:06:14,000

well i have to say

137

00:06:19,590 --> 00:06:16,639

i i can't deny that

138

00:06:21,110 --> 00:06:19,600

i will be able to come back to italy to

139

00:06:22,950 --> 00:06:21,120

eat some of our

140

00:06:24,870 --> 00:06:22,960

gourmet foods but i have to tell you

141

00:06:27,590 --> 00:06:24,880

that we're getting espresso here on

142

00:06:30,150 --> 00:06:27,600

board there's a resupply vehicle dragon

143

00:06:32,629 --> 00:06:30,160

that's coming in a couple of weeks and

144

00:06:35,510 --> 00:06:32,639

it will bring us this

145

00:06:37,430 --> 00:06:35,520

espresso machine technology

146

00:06:41,110 --> 00:06:37,440

development which is

147

00:06:44,070 --> 00:06:41,120

uh also a technology demonstration of of

148

00:06:45,270 --> 00:06:44,080

fluids at high pressure

149

00:06:46,950 --> 00:06:45,280

and temperature

150

00:06:50,550 --> 00:06:46,960

in weightlessness but it's also going to

151

00:06:53,350 --> 00:06:50,560

bring us some pods to make espresso and

152

00:06:55,510 --> 00:06:53,360

and also i was saying on this vehicle

153

00:06:57,350 --> 00:06:55,520

uh we'll have two new experiments from

154

00:06:59,830 --> 00:06:57,360

the italian space agency very

155

00:07:02,150 --> 00:06:59,840

interesting uh they're called

156

00:07:05,029 --> 00:07:02,160

cytospace and natto and they're going to

157

00:07:07,510 --> 00:07:05,039

bring two cell cultures the idea is we

158

00:07:08,950 --> 00:07:07,520

want to study the effect of some

159

00:07:10,150 --> 00:07:08,960

nanoparticles

160

00:07:13,029 --> 00:07:10,160

uh to

161

00:07:15,270 --> 00:07:13,039

fight bone loss which affects astronauts

162

00:07:16,629 --> 00:07:15,280

but also people on earth suffering from

163

00:07:19,350 --> 00:07:16,639

osteoporosis

164

00:07:20,070 --> 00:07:19,360
and another one that studies

165

00:07:26,710 --> 00:07:20,080
the

166

00:07:27,909 --> 00:07:26,720
cell

167

00:07:28,629 --> 00:07:27,919
suffers

168

00:07:30,550 --> 00:07:28,639
from

169

00:07:32,950 --> 00:07:30,560
the absence of gravity

170

00:07:35,830 --> 00:07:32,960
changing changing its structure and

171

00:07:38,550 --> 00:07:35,840
influences is its

172

00:07:40,469 --> 00:07:38,560
functioning and cascading into its

173

00:07:42,790 --> 00:07:40,479
functional uh

174

00:07:44,550 --> 00:07:42,800
biology and affects our health so two

175

00:07:48,070 --> 00:07:44,560
experiments that we still have to

176

00:07:53,189 --> 00:07:50,469

my compliments i i see that you're also

177

00:07:56,869 --> 00:07:53,199

doing a lot of uh physical exercising i

178

00:08:01,510 --> 00:07:56,879

i've seen you run on the treadmill

179

00:08:04,550 --> 00:08:03,029

to seeing you it's very interesting if

180

00:08:06,150 --> 00:08:04,560

i'm not mistaken a few weeks ago you

181

00:08:07,749 --> 00:08:06,160

wrote on twitter that

182

00:08:09,189 --> 00:08:07,759

you were a little worried

183

00:08:12,150 --> 00:08:09,199

because you'll have to do a lot of

184

00:08:15,589 --> 00:08:12,160

stretching to uh recoup muscle tone but

185

00:08:16,550 --> 00:08:15,599

if you had to explain to someone like me

186

00:08:18,710 --> 00:08:16,560

who

187

00:08:21,589 --> 00:08:18,720

also didn't pass science so now

188

00:08:23,909 --> 00:08:21,599

everybody's going to tell me that

189

00:08:25,670 --> 00:08:23,919

i'm i'm not particularly proud of but

190

00:08:27,270 --> 00:08:25,680

what is the experiment that you like the

191

00:08:31,430 --> 00:08:27,280

most in these four and a half months

192

00:08:36,310 --> 00:08:33,269

so since since you left what is the

193

00:08:38,310 --> 00:08:36,320

experiment that most

194

00:08:40,149 --> 00:08:38,320

impressed you that you can explain to

195

00:08:42,630 --> 00:08:40,159

something somebody who has a lot to

196

00:08:45,750 --> 00:08:42,640

learn like me

197

00:08:48,470 --> 00:08:45,760

it's hard to pick one

198

00:08:50,710 --> 00:08:48,480

i'm going to name a couple

199

00:08:52,150 --> 00:08:50,720

and let's say that at least the ones

200

00:08:54,070 --> 00:08:52,160

that that have

201
00:08:55,829 --> 00:08:54,080
to do more with the astronaut are the

202
00:08:56,790 --> 00:08:55,839
ones where we are the guinea pig where

203
00:08:59,030 --> 00:08:56,800
we're

204
00:09:01,110 --> 00:08:59,040
involved and and the operations are more

205
00:09:02,389 --> 00:09:01,120
interesting and complex one is called

206
00:09:04,949 --> 00:09:02,399
drain brain

207
00:09:06,230 --> 00:09:04,959
which is coming from ferrara

208
00:09:09,509 --> 00:09:06,240
and it's interesting because for the

209
00:09:13,269 --> 00:09:09,519
first time we are studying the effect

210
00:09:16,949 --> 00:09:13,279
of not having weight weightlessness

211
00:09:19,670 --> 00:09:16,959
of of blood going towards the heart on

212
00:09:21,990 --> 00:09:19,680
earth gravity helps but on earth up here

213
00:09:24,710 --> 00:09:22,000

it's not like that so they developed a

214

00:09:26,949 --> 00:09:24,720

very simple method it's an elastic band

215

00:09:29,590 --> 00:09:26,959

that you put around your neck

216

00:09:31,829 --> 00:09:29,600

which in a way that's not invasive and

217

00:09:34,710 --> 00:09:31,839

it has nothing to do with the operator's

218

00:09:36,389 --> 00:09:34,720

ability to interpret

219

00:09:39,829 --> 00:09:36,399

it gives you the ability to

220

00:09:41,910 --> 00:09:39,839

to measure the blood flow in the vein so

221

00:09:44,710 --> 00:09:41,920

that you can quantify

222

00:09:47,590 --> 00:09:44,720

this flow and understand what the effect

223

00:09:48,949 --> 00:09:47,600

of weightlessness but validating this

224

00:09:51,030 --> 00:09:48,959

technology

225

00:09:52,870 --> 00:09:51,040

can be very interesting for clinical

226

00:09:55,509 --> 00:09:52,880

research on earth so very promising

227

00:09:57,509 --> 00:09:55,519

another one that's interesting

228

00:09:59,430 --> 00:09:57,519

it's called airway monitoring it's an

229

00:10:02,790 --> 00:09:59,440

isa experiment and here too for the

230

00:10:05,670 --> 00:10:02,800

first time we study the gaseous exchange

231

00:10:08,069 --> 00:10:05,680

within our lungs when we breathe

232

00:10:11,509 --> 00:10:08,079

so studying the mechanics of this gas

233

00:10:13,509 --> 00:10:11,519

exchange of the lungs in weightlessness

234

00:10:22,470 --> 00:10:13,519

in microgravity so it's the first time

235

00:10:25,990 --> 00:10:23,910

the first experiment that you're talking

236

00:10:27,829 --> 00:10:26,000

about is from ferrara so it's from uh

237

00:10:29,670 --> 00:10:27,839

italian space agency

238

00:10:31,350 --> 00:10:29,680

so it's made in italy

239

00:10:33,110 --> 00:10:31,360

and the second one if i understand it's

240

00:10:35,030 --> 00:10:33,120

from issa

241

00:10:36,630 --> 00:10:35,040

the european space agency one of the

242

00:10:39,110 --> 00:10:36,640

things that struck me

243

00:10:40,949 --> 00:10:39,120

from what you said

244

00:10:43,110 --> 00:10:40,959

before you left

245

00:10:46,069 --> 00:10:43,120

and then from up there

246

00:10:47,670 --> 00:10:46,079

where you're looking at us

247

00:10:54,710 --> 00:10:47,680

where are you right now are we over

248

00:10:58,230 --> 00:10:56,710

i have to confess that unfortunately i

249

00:11:01,430 --> 00:10:58,240

haven't verified where we are at this

250

00:11:07,430 --> 00:11:01,440

time so i i can't pass

251
00:11:11,190 --> 00:11:09,269
no that's okay they they told me that

252
00:11:12,949 --> 00:11:11,200
you're over in latin america but uh at

253
00:11:14,710 --> 00:11:12,959
the end of this who knows where you're

254
00:11:16,949 --> 00:11:14,720
going to be over the world but one thing

255
00:11:21,030 --> 00:11:16,959
that really struck me of what you wrote

256
00:11:24,310 --> 00:11:22,710
you wrote european of italian

257
00:11:26,710 --> 00:11:24,320
citizenship and this is a beautiful

258
00:11:29,350 --> 00:11:26,720
thing because

259
00:11:31,190 --> 00:11:29,360
the way the flags are are beautiful the

260
00:11:34,870 --> 00:11:31,200
flags behind you

261
00:11:36,630 --> 00:11:34,880
because this is a moment in which europe

262
00:11:39,750 --> 00:11:36,640
has lost

263
00:11:42,710 --> 00:11:39,760

a little bit its identity its sense

264

00:11:45,190 --> 00:11:42,720

its deep sense of vocation so i think

265

00:11:47,509 --> 00:11:45,200

it's beautiful

266

00:11:48,949 --> 00:11:47,519

that there are projects like the one

267

00:11:50,470 --> 00:11:48,959

from issa

268

00:11:52,069 --> 00:11:50,480

that remind us

269

00:11:53,670 --> 00:11:52,079

what europe is

270

00:11:56,710 --> 00:11:53,680

and that it's not just

271

00:11:58,230 --> 00:11:56,720

a group of boring rules and and

272

00:12:00,949 --> 00:11:58,240

economics

273

00:12:02,629 --> 00:12:00,959

so from this point of view we have to be

274

00:12:04,150 --> 00:12:02,639

doubly grateful

275

00:12:07,190 --> 00:12:04,160

can i ask you

276

00:12:11,829 --> 00:12:10,150

what is the moment because to to a child

277

00:12:15,829 --> 00:12:11,839

you ask what do you want to do when you

278

00:12:18,310 --> 00:12:15,839

grow up and they respond astronaut but

279

00:12:20,310 --> 00:12:18,320

what do you ask an astronaut

280

00:12:22,550 --> 00:12:20,320

when you come back how are you going to

281

00:12:25,110 --> 00:12:22,560

help us with italian projects and

282

00:12:27,350 --> 00:12:25,120

european projects

283

00:12:29,910 --> 00:12:27,360

president president

284

00:12:33,190 --> 00:12:29,920

i i am at your disposal no

285

00:12:35,110 --> 00:12:33,200

public servant i am a public servant

286

00:12:38,550 --> 00:12:35,120

as the americans say

287

00:12:40,230 --> 00:12:38,560

so i'm obviously at your disposal

288

00:12:42,949 --> 00:12:40,240

for giving back what was given to me

289

00:12:45,750 --> 00:12:42,959

which was a lot my my country gave me so

290

00:12:47,829 --> 00:12:45,760

much so i'm absolutely at your disposal

291

00:12:51,030 --> 00:12:47,839

to give back

292

00:12:53,190 --> 00:12:51,040

whichever way i can and the agencies

293

00:12:55,670 --> 00:12:53,200

that i'm talking about

294

00:12:58,310 --> 00:12:55,680

they will know how to best

295

00:13:00,710 --> 00:12:58,320

use the experience that i have so that i

296

00:13:03,430 --> 00:13:00,720

can give back and and put it back in

297

00:13:12,870 --> 00:13:03,440

circulation so that others may benefit

298

00:13:15,829 --> 00:13:14,710

the first thing that we'll need to do is

299

00:13:17,910 --> 00:13:15,839

in schools

300

00:13:21,110 --> 00:13:17,920

because i've seen that

301

00:13:23,190 --> 00:13:21,120

when you go over trentino

302

00:13:26,389 --> 00:13:23,200

or milan

303

00:13:29,030 --> 00:13:26,399

and you say this is where i went to my

304

00:13:31,269 --> 00:13:29,040

final two years of school

305

00:13:33,269 --> 00:13:31,279

i've seen some tweets that you've done

306

00:13:35,670 --> 00:13:33,279

on the matter i think that we'll need to

307

00:13:38,790 --> 00:13:35,680

do a project together on schools because

308

00:13:42,550 --> 00:13:38,800

our youth need

309

00:13:44,069 --> 00:13:42,560

to come back to thinking that italy

310

00:13:46,710 --> 00:13:44,079

is not just about

311

00:13:48,310 --> 00:13:46,720

a country with a great past but a place

312

00:13:50,629 --> 00:13:48,320

where the future can even be more

313

00:13:53,189 --> 00:13:50,639

beautiful than the past and i will

314

00:13:54,150 --> 00:13:53,199

really need you when you come back

315

00:13:56,069 --> 00:13:54,160

so

316

00:13:57,670 --> 00:13:56,079

go ahead and finish up these experiments

317

00:14:02,710 --> 00:13:57,680

because we need you to come back down

318

00:14:07,350 --> 00:14:04,790

mr president thank you so much of course

319

00:14:10,790 --> 00:14:07,360

i i definitely agree schools and the

320

00:14:13,269 --> 00:14:10,800

youth uh are important

321

00:14:19,670 --> 00:14:13,279

and they're always

322

00:14:24,949 --> 00:14:23,030

captain thank you so much

323

00:14:28,069 --> 00:14:24,959

from the heart to dedicate some time to

324

00:14:29,030 --> 00:14:28,079

you from palazzo we're rooting for you

325

00:14:32,230 --> 00:14:29,040

we

326

00:14:35,269 --> 00:14:32,240

wish you break a leg for these 40 days

327

00:14:37,030 --> 00:14:35,279

that are still ahead of you

328

00:14:38,710 --> 00:14:37,040

until you return

329

00:14:40,470 --> 00:14:38,720

until your re-entry

330

00:14:43,269 --> 00:14:40,480

we will welcome you

331

00:14:45,990 --> 00:14:43,279

with great trepidation and enthusiasm as

332

00:14:49,030 --> 00:14:46,000

we have been following as we followed

333

00:14:51,189 --> 00:14:49,040

your departure with joy and let me tell

334

00:14:55,350 --> 00:14:51,199

you a little bit of pride

335

00:15:00,230 --> 00:14:57,189

the sense of belonging that you're

336

00:15:04,230 --> 00:15:00,240

demonstrating in this mission with your

337

00:15:07,670 --> 00:15:04,240

links with san remo with the president

338

00:15:11,829 --> 00:15:07,680

of the republic you've spoken with both

339

00:15:14,310 --> 00:15:11,839

is for us an element of pride and joy

340

00:15:16,230 --> 00:15:14,320

the sense of identity of being italian

341

00:15:17,509 --> 00:15:16,240

was demonstrated with

342

00:15:20,069 --> 00:15:17,519

great

343

00:15:23,269 --> 00:15:20,079

pride and that tri-color flag

344

00:15:26,069 --> 00:15:23,279

that we saw on your suit when you left

345

00:15:29,509 --> 00:15:26,079

we bring it all with us a piece in our

346

00:15:32,470 --> 00:15:29,519

heart so i'll let you back to your work

347

00:15:34,310 --> 00:15:32,480

and italian food that i know you're

348

00:15:36,470 --> 00:15:34,320

that i know you're eating out out there

349

00:15:37,990 --> 00:15:36,480

i know it's not a coteletto or a

350

00:15:38,790 --> 00:15:38,000

florentine steak

351
00:15:40,949 --> 00:15:38,800
but

352
00:15:42,790 --> 00:15:40,959
when you come back here at palazzo kiji

353
00:15:44,550 --> 00:15:42,800
we will wait for you

354
00:15:48,550 --> 00:15:44,560
first we will celebrate and then we'll

355
00:15:54,790 --> 00:15:51,189
mr president i thank you for your words

356
00:15:58,230 --> 00:15:54,800
and especially because through you i i

357
00:16:01,749 --> 00:15:58,240
thank all the italians from the heart

358
00:16:03,269 --> 00:16:01,759
from the youngest to the oldest who

359
00:16:06,310 --> 00:16:03,279
demonstrated so much

360
00:16:07,910 --> 00:16:06,320
love and who have followed the mission

361
00:16:10,949 --> 00:16:07,920
the mission is not over yet there's so

362
00:16:13,670 --> 00:16:10,959
much to do still and uh i will be so

363
00:16:16,310 --> 00:16:13,680

happy at my return as you were saying

364

00:16:18,389 --> 00:16:16,320

shortly to uh

365

00:16:19,350 --> 00:16:18,399

celebrate and then get back to work as
