

The Next Chapter

1
00:00:03,929 --> 00:00:06,930
Thank you, everybody.

2
00:00:06,930 --> 00:00:08,930
Thank you.

3
00:00:08,930 --> 00:00:12,930
Thank you so much.

4
00:00:12,930 --> 00:00:18,950
So today, I'd like to talk about the next
chapter in this story.

5
00:00:18,950 --> 00:00:23,920
We will increase Earth-based observation.

6
00:00:23,920 --> 00:00:28,119
And we will extend the life of the International
Space Station.

7
00:00:28,119 --> 00:00:39,579
We will build on the good work already done
on the Orion crew capsule.

8
00:00:39,579 --> 00:00:44,340
We will increase investment -- right away
-- in other groundbreaking technologies.

9
00:00:44,340 --> 00:00:50,990
We want to leap into the future.

10
00:00:50,990 --> 00:00:54,470
By investing in groundbreaking research and
innovative companies.

11
00:00:54,470 --> 00:01:00,450
We're going to modernize the Kennedy Space
Center , creating jobs as we upgrade launch

12

00:01:00,450 --> 00:01:01,450

facilities.

13

00:01:01,450 --> 00:01:03,160

We will partner with industry.

14

00:01:03,160 --> 00:01:06,939

We will invest in cutting-edge research and technology.

15

00:01:06,939 --> 00:01:11,000

The space program has fueled jobs and entire industries.

16

00:01:11,000 --> 00:01:18,210

And in fulfilling this task, we will not only extend humanity's reach in space -- we will
