

1  
00:00:06,630 --> 00:00:03,270  
hello and welcome to our expedition 43

2  
00:00:08,710 --> 00:00:06,640  
and 44 change of command ceremony uh i'm

3  
00:00:10,790 --> 00:00:08,720  
nasa astronaut terry virts expedition 43

4  
00:00:12,789 --> 00:00:10,800  
commander and i just want to say

5  
00:00:16,070 --> 00:00:12,799  
a few words real quick thank you to our

6  
00:00:19,590 --> 00:00:16,080  
ground support teams in houston moscow

7  
00:00:20,950 --> 00:00:19,600  
around the world in japan europe canada

8  
00:00:22,870 --> 00:00:20,960  
to our science support teams in

9  
00:00:24,550 --> 00:00:22,880  
huntsville and other places it was

10  
00:00:26,710 --> 00:00:24,560  
because of your support and watching

11  
00:00:28,710 --> 00:00:26,720  
over us every day and helping us to

12  
00:00:31,029 --> 00:00:28,720  
execute our plan that this mission was

13  
00:00:32,790 --> 00:00:31,039

so successful so thank you first of all

14

00:00:34,709 --> 00:00:32,800

to our ground teams

15

00:00:36,389 --> 00:00:34,719

thank you also to our families at home

16

00:00:39,110 --> 00:00:36,399

that support us and make this

17

00:00:40,709 --> 00:00:39,120

long-duration space flight possible

18

00:00:43,350 --> 00:00:40,719

the sacrifices that you make are very

19

00:00:45,029 --> 00:00:43,360

important to us and we appreciate it

20

00:00:46,549 --> 00:00:45,039

i'd like to say a few words about my

21

00:00:48,950 --> 00:00:46,559

crew that i launched into space with

22

00:00:50,869 --> 00:00:48,960

anton and samantha my brother and sister

23

00:00:53,430 --> 00:00:50,879

i could not have asked for a better crew

24

00:00:55,350 --> 00:00:53,440

you guys are the best and um we got to

25

00:00:57,910 --> 00:00:55,360

spend 200 days in space together a few

26

00:00:59,110 --> 00:00:57,920

bonus days but that was uh you just

27

00:01:01,830 --> 00:00:59,120

couldn't ask for a better group of

28

00:01:05,509 --> 00:01:01,840

people to spend this time and space with

29

00:01:07,590 --> 00:01:05,519

and a few words about the follow-on crew

30

00:01:10,230 --> 00:01:07,600

gennady scott and misha

31

00:01:11,270 --> 00:01:10,240

they are uh just the best of the best we

32

00:01:12,870 --> 00:01:11,280

have two

33

00:01:15,510 --> 00:01:12,880

uh scott and miesha who are going to be

34

00:01:17,109 --> 00:01:15,520

here for a year and gennady in just a

35

00:01:19,429 --> 00:01:17,119

few weeks is going to set the record for

36

00:01:21,749 --> 00:01:19,439

the most days in space so you could not

37

00:01:24,070 --> 00:01:21,759

ask for a more capable and competent

38

00:01:26,070 --> 00:01:24,080

crew but most importantly they were they

39

00:01:28,390 --> 00:01:26,080

were just really fun to be with and

40

00:01:29,670 --> 00:01:28,400

great friends and we had a memorable

41

00:01:32,950 --> 00:01:29,680

experience

42

00:01:34,710 --> 00:01:32,960

and uh so now expedition 43 is in the

43

00:01:37,830 --> 00:01:34,720

history books we turn it over to a new

44

00:01:41,990 --> 00:01:37,840

chapter in expedition 44.

45

00:01:42,000 --> 00:01:47,670

dante

46

00:01:52,149 --> 00:01:49,510

thank you very much terry for this very

47

00:01:53,270 --> 00:01:52,159

great and good words and in our address

48

00:01:54,550 --> 00:01:53,280

and

49

00:01:56,230 --> 00:01:54,560

to the ground

50

00:01:58,709 --> 00:01:56,240

and from our crew i would like to

51

00:02:00,789 --> 00:01:58,719

express our gratefulness

52

00:02:03,510 --> 00:02:00,799

and to you pearson and

53

00:02:05,510 --> 00:02:03,520

to samantha to anton

54

00:02:07,109 --> 00:02:05,520

uh for working together for keeping

55

00:02:09,910 --> 00:02:07,119

space station a great operational

56

00:02:12,150 --> 00:02:09,920

condition for getting all well together

57

00:02:14,309 --> 00:02:12,160

for conducting a lot of experiments on

58

00:02:16,710 --> 00:02:14,319

behalf of our agencies

59

00:02:18,949 --> 00:02:16,720

a special thanks to you and your crew

60

00:02:21,350 --> 00:02:18,959

for giving us many many details

61

00:02:23,030 --> 00:02:21,360

especially upon arrival at the beginning

62

00:02:25,110 --> 00:02:23,040

of our mission because

63

00:02:27,430 --> 00:02:25,120

no matter how many flights you have but

64

00:02:29,190 --> 00:02:27,440

it's always like a new station like a

65

00:02:30,869 --> 00:02:29,200

first flight

66

00:02:32,710 --> 00:02:30,879

uh hopefully everything will be

67

00:02:33,910 --> 00:02:32,720

scheduled and we'll be looking forward

68

00:02:36,150 --> 00:02:33,920

to meeting

69

00:02:36,949 --> 00:02:36,160

next clue of our increment i'm speaking

70

00:02:38,070 --> 00:02:36,959

about

71

00:02:39,350 --> 00:02:38,080

alec

72

00:02:41,910 --> 00:02:39,360

michel and

73

00:02:44,790 --> 00:02:41,920

kemiya and from our crew i would like to

74

00:02:48,229 --> 00:02:44,800

wish you and samantha and
