

KOICHI TAMAKI

PLIZ JAXA

PLIZ JAXA

PLIZ JAXA

1  
00:00:05,910 --> 00:00:02,310  
station this is houston are you ready

2  
00:00:11,830 --> 00:00:09,830  
i'm ready for you uh event thank you

3  
00:00:14,470 --> 00:00:11,840  
copy that japanese aerospace exploration

4  
00:00:16,710 --> 00:00:14,480  
agency this is mission control houston

5  
00:00:23,429 --> 00:00:16,720  
please call station for a voice check

6  
00:00:23,439 --> 00:00:28,870  
this is jaxa how do you hear me

7  
00:00:28,880 --> 00:00:33,910  
i did you loud and clear how me

8  
00:00:33,920 --> 00:00:38,069  
station

9  
00:00:45,029 --> 00:00:41,430  
yes so thank you nissan so we will start

10  
00:00:49,670 --> 00:00:48,069  
would now like to start at the in orbit

11  
00:00:51,990 --> 00:00:49,680  
press conference

12  
00:01:02,069 --> 00:00:52,000  
first can we ask astronaut yui to say a

13  
00:01:05,509 --> 00:01:04,149

first i'd like to thank all of you for

14

00:01:08,070 --> 00:01:05,519

joining me

15

00:01:10,550 --> 00:01:08,080

despite the late hour

16

00:01:13,429 --> 00:01:10,560

and your busy schedule

17

00:01:16,310 --> 00:01:13,439

well i have been here for more than two

18

00:01:19,190 --> 00:01:16,320

weeks ever since i arrived on the soyuz

19

00:01:19,990 --> 00:01:19,200

well looking back since the launch lift

20

00:01:22,149 --> 00:01:20,000

off

21

00:01:25,190 --> 00:01:22,159

many people have made

22

00:01:27,830 --> 00:01:25,200

safety checks and therefore the soyuz

23

00:01:30,469 --> 00:01:27,840

liftoff was quite smooth and successful

24

00:01:33,590 --> 00:01:30,479

and ever since i arrived here at iss

25

00:01:36,310 --> 00:01:33,600

i have adapted very well to the space

26

00:01:38,789 --> 00:01:36,320

environment i think that this is thanks

27

00:01:41,109 --> 00:01:38,799

to the support from many many people i'm

28

00:01:43,510 --> 00:01:41,119

really thankful for that

29

00:01:45,270 --> 00:01:43,520

well um i've grown accustomed to this

30

00:01:46,950 --> 00:01:45,280

environment after two weeks and i'm

31

00:01:48,630 --> 00:01:46,960

working very hard

32

00:01:51,270 --> 00:01:48,640

but um

33

00:01:52,830 --> 00:01:51,280

gave me some advice and that after three

34

00:01:54,630 --> 00:01:52,840

weeks

35

00:01:57,749 --> 00:01:54,640

you get

36

00:01:59,670 --> 00:01:57,759

to be adapted at an even higher level

37

00:02:01,749 --> 00:01:59,680

and i think that

38

00:02:05,350 --> 00:02:01,759

around three weeks

39

00:02:07,830 --> 00:02:05,360

i will be undertaking this hdv-5

40

00:02:10,389 --> 00:02:07,840

important mission

41

00:02:12,949 --> 00:02:10,399

will be launched and arrive at

42

00:02:16,309 --> 00:02:12,959

iss and as a japanese astronaut for the

43

00:02:19,110 --> 00:02:16,319

first time i will be capturing it and

44

00:02:24,710 --> 00:02:19,120

therefore i think that because i'm

45

00:02:28,710 --> 00:02:26,630

very well and therefore i hope to be

46

00:02:31,270 --> 00:02:28,720

able to fulfill my responsibility of

47

00:02:33,750 --> 00:02:31,280

this major mission and then after using

48

00:02:36,070 --> 00:02:33,760

the tools here i would like to carry out

49

00:02:37,750 --> 00:02:36,080

a lot of experiments and maintenance

50

00:02:43,910 --> 00:02:37,760

work

51

00:02:46,309 --> 00:02:43,920

continue to support me

52

00:02:47,750 --> 00:02:46,319

so i think this is enough for me if you

53

00:02:50,949 --> 00:02:47,760

have any questions i'll be more than

54

00:02:52,470 --> 00:02:50,959

happy to answer them please

55

00:02:57,910 --> 00:02:52,480

thank you very much

56

00:03:04,470 --> 00:03:00,710

astronaut yui and we have about 10

57

00:03:06,149 --> 00:03:04,480

questions um prepared so

58

00:03:08,070 --> 00:03:06,159

those have questions please state your

59

00:03:09,670 --> 00:03:08,080

name and affiliation before asking your

60

00:03:13,350 --> 00:03:09,680

question

61

00:03:18,710 --> 00:03:15,589

well um it's a little more than two

62

00:03:21,270 --> 00:03:18,720

weeks since you arrived at iss can you

63

00:03:33,190 --> 00:03:21,280

share with us um more in detail as to

64

00:03:37,030 --> 00:03:35,190

ever since i arrived here

65

00:03:38,869 --> 00:03:37,040

well it was the first time i experienced

66

00:03:42,229 --> 00:03:38,879

them this environment in space i was a

67

00:03:44,149 --> 00:03:42,239

bit concerned but i'm physically fit and

68

00:03:46,390 --> 00:03:44,159

because of that i've been able to carry

69

00:03:48,309 --> 00:03:46,400

out my work sufficiently and whenever i

70

00:03:50,949 --> 00:03:48,319

have time i have time to observe the

71

00:03:53,750 --> 00:03:50,959

earth taking photographs and tweeting

72

00:03:56,070 --> 00:03:53,760

and therefore i think um that i'm

73

00:03:58,309 --> 00:03:56,080

finding it very meaningful here

74

00:04:00,390 --> 00:03:58,319

well i'm having come here i'm very

75

00:04:01,509 --> 00:04:00,400

impressed with the iss

76

00:04:03,990 --> 00:04:01,519

and the

77

00:04:06,710 --> 00:04:04,000

skill of space so well you cannot live

78

00:04:08,710 --> 00:04:06,720

in space as it is but um in creating an

79

00:04:10,309 --> 00:04:08,720

environment where people can live and

80

00:04:11,910 --> 00:04:10,319

carry out experiments in this

81

00:04:14,390 --> 00:04:11,920

environment is something that has really

82

00:04:16,229 --> 00:04:14,400

struck me and also observing the earth

83

00:04:19,030 --> 00:04:16,239

the earth is beautiful

84

00:04:20,789 --> 00:04:19,040

but the earth appears to be very small

85

00:04:23,830 --> 00:04:20,799

and we have to

86

00:04:29,990 --> 00:04:23,840

preserve this small earth that's how i

87

00:04:30,000 --> 00:04:35,110

my name is suzuki from nhk television

88

00:04:40,550 --> 00:04:37,350

so on the 16th the kono tori will be

89

00:04:42,629 --> 00:04:40,560

launched launched and you will be doing

90

00:04:44,550 --> 00:04:42,639

the capture work using the robot arm for

91

00:04:47,350 --> 00:04:44,560

the first time

92

00:04:49,510 --> 00:04:47,360

so dr wakata will be working on the

93

00:04:51,749 --> 00:04:49,520

ground at the control center and then

94

00:04:54,710 --> 00:04:51,759

you will also be working with the

95

00:04:56,950 --> 00:04:54,720

japanese team in tsukuba

96

00:05:00,070 --> 00:04:56,960

any particular feelings about this

97

00:05:01,110 --> 00:05:00,080

upcoming effort and how you plan to go

98

00:05:08,230 --> 00:05:01,120

into

99

00:05:13,110 --> 00:05:11,189

thank you very much for your interest

100

00:05:14,310 --> 00:05:13,120

i certainly agree

101  
00:05:17,029 --> 00:05:14,320  
in the past

102  
00:05:18,629 --> 00:05:17,039  
space development in japan is about kibo

103  
00:05:20,790 --> 00:05:18,639  
and htv

104  
00:05:22,390 --> 00:05:20,800  
and of course other japanese people have

105  
00:05:24,629 --> 00:05:22,400  
come before me

106  
00:05:26,390 --> 00:05:24,639  
and of course the control team and the

107  
00:05:28,550 --> 00:05:26,400  
training team have

108  
00:05:30,390 --> 00:05:28,560  
also

109  
00:05:32,230 --> 00:05:30,400  
had achievements

110  
00:05:34,070 --> 00:05:32,240  
so their performance has been highly

111  
00:05:36,310 --> 00:05:34,080  
recognized by the international space

112  
00:05:38,790 --> 00:05:36,320  
community and of course

113  
00:05:41,510 --> 00:05:38,800

this is a big event that's coming up the

114

00:05:43,510 --> 00:05:41,520

konotori will be launched and it will be

115

00:05:45,830 --> 00:05:43,520

delivering a cargo so we will be

116

00:05:49,350 --> 00:05:45,840

capturing that over here

117

00:05:51,990 --> 00:05:49,360

i will be the capture assignment and

118

00:05:53,830 --> 00:05:52,000

then dr wakata will handle the gopher

119

00:05:55,670 --> 00:05:53,840

capture mission

120

00:05:57,990 --> 00:05:55,680

we also have a team in japan working on

121

00:06:02,629 --> 00:05:58,000

this so i'm really hoping that we can

122

00:06:06,629 --> 00:06:04,230

everything that japan has to offer

123

00:06:08,230 --> 00:06:06,639

because we're proud of what we can do

124

00:06:10,390 --> 00:06:08,240

and i think that it will be encouraging

125

00:06:12,469 --> 00:06:10,400

to other japanese people involved in

126

00:06:14,469 --> 00:06:12,479

this kind of endeavor so of course i

127

00:06:15,909 --> 00:06:14,479

want to showcase what japan can do to

128

00:06:17,510 --> 00:06:15,919

the world

129

00:06:18,790 --> 00:06:17,520

this isn't the kind of thing that we can

130

00:06:21,189 --> 00:06:18,800

do alone

131

00:06:23,350 --> 00:06:21,199

in japan however i think that by showing

132

00:06:25,430 --> 00:06:23,360

what we can do we will be able to elicit

133

00:06:26,950 --> 00:06:25,440

more support and cooperation from others

134

00:06:29,110 --> 00:06:26,960

and i think that this will definitely be

135

00:06:32,830 --> 00:06:29,120

a big milestone for us so i'm very

136

00:06:36,390 --> 00:06:32,840

intent on being able to carry out my

137

00:06:39,830 --> 00:06:36,400

responsibility news well yesterday you

138

00:06:42,710 --> 00:06:39,840

test tasted the space grown lettuce well

139

00:06:44,629 --> 00:06:42,720

you're from kami um nagano prefecture

140

00:06:46,150 --> 00:06:44,639

famous for lettuce

141

00:06:48,550 --> 00:06:46,160

how did it taste

142

00:06:53,430 --> 00:06:48,560

and also this experiment

143

00:06:55,430 --> 00:06:53,440

um will this um be beneficial for the

144

00:06:58,309 --> 00:06:55,440

mars expedition which will run for a

145

00:07:00,469 --> 00:06:58,319

long time so was there anything you felt

146

00:07:02,469 --> 00:07:00,479

having tasted the space grown lettuce

147

00:07:07,830 --> 00:07:02,479

for the first time anything good about

148

00:07:12,230 --> 00:07:09,670

thank you very much for the question yes

149

00:07:13,830 --> 00:07:12,240

just yesterday we harvested the lettuce

150

00:07:17,189 --> 00:07:13,840

and edit

151

00:07:18,230 --> 00:07:17,199

and it tasted very good it was fresh

152

00:07:20,950 --> 00:07:18,240

and

153

00:07:24,390 --> 00:07:20,960

we don't get to taste fresh vegetables

154

00:07:27,749 --> 00:07:24,400

every day and in the space environment

155

00:07:29,510 --> 00:07:27,759

to eat lettuce has been grown in space i

156

00:07:31,749 --> 00:07:29,520

thought i was very lucky

157

00:07:34,070 --> 00:07:31,759

and eating the lettuce i did think about

158

00:07:36,870 --> 00:07:34,080

my hometown and also about japan and

159

00:07:38,710 --> 00:07:36,880

also about the earth

160

00:07:41,670 --> 00:07:38,720

well in the future

161

00:07:44,869 --> 00:07:41,680

yes um once um there will be um the

162

00:07:47,830 --> 00:07:44,879

expeditions to mars and longer distances

163

00:07:51,270 --> 00:07:47,840

i think that fresh vegetable will need

164

00:07:55,029 --> 00:07:51,280

to be grown for the astronauts and

165

00:07:57,189 --> 00:07:55,039

therefore i think iss well naturally we

166

00:08:00,230 --> 00:07:57,199

are doing research which will benefit

167

00:08:02,790 --> 00:08:00,240

earth the people on earth but also i

168

00:08:04,629 --> 00:08:02,800

think that we are also making progress

169

00:08:07,990 --> 00:08:04,639

in terms of carrying out experiments for

170

00:08:10,469 --> 00:08:08,000

future ex-space expedition i think that

171

00:08:12,950 --> 00:08:10,479

we have a good balance some here we are

172

00:08:14,790 --> 00:08:12,960

also we are serving the earth as well as

173

00:08:17,189 --> 00:08:14,800

other future expeditions and this is a

174

00:08:23,670 --> 00:08:17,199

very good example i think yesterday was

175

00:08:29,510 --> 00:08:25,749

my name is yamakoshi from shinano

176

00:08:34,949 --> 00:08:32,630

in addition to kawakami village many

177

00:08:37,269 --> 00:08:34,959

people from your home area of nagano

178

00:08:39,829 --> 00:08:37,279

prefecture are looking up into the skies

179

00:08:42,550 --> 00:08:39,839

and hoping for a successful konotori

180

00:08:45,190 --> 00:08:42,560

mission can you see

181

00:08:47,590 --> 00:08:45,200

your hometown and uh gazing down on your

182

00:08:49,030 --> 00:08:47,600

hometown from high above in the heavens

183

00:08:50,389 --> 00:08:49,040

what kind of feelings are going through

184

00:08:59,590 --> 00:08:50,399

your mind can you share with us a

185

00:09:03,509 --> 00:09:01,350

yes well when i

186

00:09:06,070 --> 00:09:03,519

saw japan and it wasn't just nagano

187

00:09:09,110 --> 00:09:06,080

prefecture it struck me how beautiful it

188

00:09:13,110 --> 00:09:09,120

is i said that the earth is small

189

00:09:17,670 --> 00:09:15,509

living in this small country

190

00:09:20,949 --> 00:09:17,680

for all of us to work together to

191

00:09:23,350 --> 00:09:20,959

cooperate and to live

192

00:09:25,030 --> 00:09:23,360

and together the people who were

193

00:09:27,670 --> 00:09:25,040

devastated in the earthquake are now

194

00:09:29,430 --> 00:09:27,680

working hard on the reconstruction so it

195

00:09:30,389 --> 00:09:29,440

was very moving for me

196

00:09:33,110 --> 00:09:30,399

i could

197

00:09:36,230 --> 00:09:33,120

feel the tears welling up it was very

198

00:09:38,790 --> 00:09:36,240

emotional for me a very intense kind of

199

00:09:40,790 --> 00:09:38,800

inspiration that i felt

200

00:09:41,910 --> 00:09:40,800

now my hometown is full of green it's

201  
00:09:43,509 --> 00:09:41,920  
very lush

202  
00:09:45,430 --> 00:09:43,519  
and

203  
00:09:48,389 --> 00:09:45,440  
i'm sensing again how

204  
00:09:50,389 --> 00:09:48,399  
valuable nature is to us from kawakami

205  
00:09:53,269 --> 00:09:50,399  
village my hometown

206  
00:09:55,829 --> 00:09:53,279  
there's a river called chikuma river it

207  
00:09:57,990 --> 00:09:55,839  
flows into the shinano river

208  
00:09:59,990 --> 00:09:58,000  
and of course

209  
00:10:02,829 --> 00:10:00,000  
seeing how japan is surrounded by waters

210  
00:10:05,509 --> 00:10:02,839  
i can realize how important water is to

211  
00:10:08,630 --> 00:10:05,519  
us that's a great experience

212  
00:10:09,670 --> 00:10:08,640  
and i've tweeted about my emotions

213  
00:10:11,190 --> 00:10:09,680

to

214  
00:10:13,750 --> 00:10:11,200  
others

215  
00:10:15,670 --> 00:10:13,760  
of course for the people in nagano i

216  
00:10:17,030 --> 00:10:15,680  
appreciate all of their support and

217  
00:10:18,870 --> 00:10:17,040  
encouragement

218  
00:10:20,790 --> 00:10:18,880  
and i'm just going to sing this a little

219  
00:10:25,110 --> 00:10:20,800  
bit

220  
00:10:29,030 --> 00:10:26,389  
is

221  
00:10:32,069 --> 00:10:29,040  
a free country i'm

222  
00:10:37,269 --> 00:10:32,079  
reminded of this song that praises my

223  
00:10:42,550 --> 00:10:38,870  
how do you do

224  
00:10:45,350 --> 00:10:42,560  
now you tweeted that you think of the

225  
00:10:47,829 --> 00:10:45,360  
earth as mother earth at the same time

226

00:10:49,430 --> 00:10:47,839

on earth we see that um there are a

227

00:10:51,829 --> 00:10:49,440

number of people who are thinking and

228

00:10:54,790 --> 00:10:51,839

praying for peace

229

00:10:57,590 --> 00:10:54,800

now having stayed in outer space has

230

00:11:00,710 --> 00:10:57,600

your thoughts towards the earth changed

231

00:11:13,110 --> 00:11:00,720

and also can you share with us your

232

00:11:18,550 --> 00:11:16,150

well i think that the importance of

233

00:11:20,710 --> 00:11:18,560

peace is something that i've constantly

234

00:11:23,190 --> 00:11:20,720

felt throughout my life when i was at

235

00:11:26,230 --> 00:11:23,200

the self-defense force and even today

236

00:11:28,710 --> 00:11:26,240

and what i think now is that

237

00:11:29,990 --> 00:11:28,720

iss presence is huge

238

00:11:34,710 --> 00:11:30,000

well there are a number of things

239

00:11:36,630 --> 00:11:34,720

happening on earth but and at iss um our

240

00:11:38,870 --> 00:11:36,640

nationalities mean nothing we are

241

00:11:41,110 --> 00:11:38,880

working together as a single team

242

00:11:44,150 --> 00:11:41,120

working towards a single goal so i think

243

00:11:46,069 --> 00:11:44,160

that this is what's wonderful about iss

244

00:11:48,790 --> 00:11:46,079

and i think that accumulation of such

245

00:11:50,389 --> 00:11:48,800

efforts will lead the way to peace

246

00:11:51,190 --> 00:11:50,399

iss

247

00:11:54,150 --> 00:11:51,200

is

248

00:11:58,949 --> 00:11:57,269

road map towards peace

249

00:12:00,949 --> 00:11:58,959

well um looking

250

00:12:03,590 --> 00:12:00,959

at the earth from outer space we don't

251

00:12:06,629 --> 00:12:03,600

see any national borders it's a small

252

00:12:09,509 --> 00:12:06,639

planet you really don't know where which

253

00:12:12,230 --> 00:12:09,519

country is where um looking at the earth

254

00:12:15,269 --> 00:12:12,240

from outer space there are no national

255

00:12:16,790 --> 00:12:15,279

borders seen from outer space

256

00:12:18,230 --> 00:12:16,800

and therefore though there are a number

257

00:12:20,629 --> 00:12:18,240

of problems

258

00:12:23,430 --> 00:12:20,639

i think that mutual understanding needs

259

00:12:25,509 --> 00:12:23,440

to be promoted um so that we can create

260

00:12:27,990 --> 00:12:25,519

a peaceful earth

261

00:12:31,750 --> 00:12:28,000

and i hope that we can cooperate towards

262

00:12:31,760 --> 00:12:38,310

my name is takahashi from tv tokyo

263

00:12:42,870 --> 00:12:40,550

dream has come true to become an

264

00:12:46,389 --> 00:12:42,880

astronaut and now you are at the

265

00:12:50,829 --> 00:12:48,150

the first day that you arrived i'm sure

266

00:12:53,990 --> 00:12:50,839

that you were extremely excited

267

00:12:56,470 --> 00:12:54,000

exhilarated so that first night were you

268

00:12:58,710 --> 00:12:56,480

able to sleep well and

269

00:13:01,110 --> 00:12:58,720

i also would like to ask what was the

270

00:13:15,750 --> 00:13:01,120

first dream that you actually saw in

271

00:13:21,110 --> 00:13:18,150

when i got to outer space my first

272

00:13:23,590 --> 00:13:21,120

impression was i was overwhelmed by how

273

00:13:26,710 --> 00:13:23,600

great the iss is but i was also very

274

00:13:29,030 --> 00:13:26,720

tired because up until then i was very

275

00:13:31,430 --> 00:13:29,040

nervous and tense and of course i had to

276  
00:13:34,310 --> 00:13:31,440  
help with the command center as soon as

277  
00:13:37,509 --> 00:13:34,320  
we were done with the press interview

278  
00:13:40,150 --> 00:13:37,519  
we actually all went to bed right away i

279  
00:13:41,990 --> 00:13:40,160  
was able to sleep really well it's

280  
00:13:44,710 --> 00:13:42,000  
almost like you're floating on a very

281  
00:13:47,430 --> 00:13:44,720  
expensive mattress i think maybe i slept

282  
00:13:49,829 --> 00:13:47,440  
for 12 14 hours people around me were

283  
00:13:52,550 --> 00:13:49,839  
getting worried i slept so long the

284  
00:13:53,750 --> 00:13:52,560  
first dream that i saw and i think i

285  
00:13:56,310 --> 00:13:53,760  
must have

286  
00:13:58,069 --> 00:13:56,320  
felt that i needed to share my feelings

287  
00:14:00,710 --> 00:13:58,079  
with everyone i dreamed that i was

288  
00:14:02,790 --> 00:14:00,720

tweeting to others so then after i woke

289

00:14:05,189 --> 00:14:02,800

up i remembered my dream and then

290

00:14:07,430 --> 00:14:05,199

tweeted again so it's kind of strange

291

00:14:10,389 --> 00:14:07,440

perhaps i my first dream out here was

292

00:14:17,509 --> 00:14:13,990

nha global media service ito here and um

293

00:14:18,870 --> 00:14:17,519

i met you in houston well six years ago

294

00:14:21,750 --> 00:14:18,880

um when you

295

00:14:24,230 --> 00:14:21,760

were selected as the astronaut um six

296

00:14:27,030 --> 00:14:24,240

years ago you said that you will take

297

00:14:29,590 --> 00:14:27,040

the dream of one thousand colleagues

298

00:14:31,430 --> 00:14:29,600

with you going to outer space can you

299

00:14:39,269 --> 00:14:31,440

share with me your thoughts about that

300

00:14:46,230 --> 00:14:43,030

well yes i said this before but i'm here

301  
00:14:47,350 --> 00:14:46,240  
but i did bring everyone's dream with me

302  
00:14:49,750 --> 00:14:47,360  
coming here

303  
00:14:51,750 --> 00:14:49,760  
well the reason why i was chosen i

304  
00:14:54,230 --> 00:14:51,760  
really don't know um anyone could have

305  
00:14:56,629 --> 00:14:54,240  
been chosen i think thinking about the

306  
00:14:59,910 --> 00:14:56,639  
candidates i was just lucky

307  
00:15:03,030 --> 00:14:59,920  
and um well anyone could have come here

308  
00:15:05,269 --> 00:15:03,040  
and taken everyone's dream and realized

309  
00:15:10,150 --> 00:15:05,279  
everyone's dream together but having

310  
00:15:12,230 --> 00:15:10,160  
said that i was chosen and i really

311  
00:15:15,030 --> 00:15:12,240  
i want to communicate my feeling to

312  
00:15:17,189 --> 00:15:15,040  
everyone and i also am determined to

313  
00:15:18,389 --> 00:15:17,199

make this mission a success for the sake

314

00:15:20,949 --> 00:15:18,399

of others

315

00:15:24,150 --> 00:15:20,959

and i will do my best and once i get

316

00:15:26,470 --> 00:15:24,160

back i will talk to everyone about my

317

00:15:29,749 --> 00:15:26,480

experience so that the other applicants

318

00:15:32,550 --> 00:15:29,759

will feel that uae was a good choice

319

00:15:34,150 --> 00:15:32,560

well what i promised to my colleagues um

320

00:15:37,030 --> 00:15:34,160

will be fulfilled

321

00:15:51,749 --> 00:15:37,040

and i would like to prove to them that i

322

00:15:55,269 --> 00:15:53,509

it looks quite busy

323

00:15:57,670 --> 00:15:55,279

and what are the experiments that you're

324

00:15:58,870 --> 00:15:57,680

looking forward to

325

00:16:01,430 --> 00:15:58,880

also about

326  
00:16:03,590 --> 00:16:01,440  
living at iss and then how that balances

327  
00:16:16,310 --> 00:16:03,600  
out with your experiment work please

328  
00:16:21,189 --> 00:16:18,310  
and i'm really looking forward to

329  
00:16:23,269 --> 00:16:21,199  
working with these devices

330  
00:16:30,230 --> 00:16:23,279  
one thing i'm personally looking forward

331  
00:16:48,069 --> 00:16:32,870  
when the htv gets here we will be able

332  
00:16:53,269 --> 00:16:50,310  
we are planning on doing an experiment

333  
00:16:55,430 --> 00:16:53,279  
to have some small animals so i will be

334  
00:16:57,749 --> 00:16:55,440  
assembling the device and then i need to

335  
00:17:00,470 --> 00:16:57,759  
make sure that it will function

336  
00:17:03,030 --> 00:17:00,480  
properly which is a important piece of

337  
00:17:05,829 --> 00:17:03,040  
work so i'm looking forward to that

338  
00:17:08,549 --> 00:17:05,839

living at iss it's very busy we have a

339

00:17:10,870 --> 00:17:08,559

minute-by-minute schedule

340

00:17:13,029 --> 00:17:10,880

and then saturdays and sundays so i have

341

00:17:15,189 --> 00:17:13,039

maybe half a day off on saturday and

342

00:17:19,110 --> 00:17:15,199

then on sunday usually i don't have a

343

00:17:20,870 --> 00:17:19,120

lot of tasks so i spend my personal time

344

00:17:23,750 --> 00:17:20,880

taking photographs

345

00:17:27,510 --> 00:17:25,350

and

346

00:17:29,510 --> 00:17:27,520

using my personal time for my hobby

347

00:17:31,669 --> 00:17:29,520

which is taking photographs and tweeting

348

00:17:32,950 --> 00:17:31,679

about it

349

00:17:35,510 --> 00:17:32,960

thank you

350

00:17:38,549 --> 00:17:35,520

lastly astronaut yui

351  
00:17:40,870 --> 00:17:38,559  
can you share with us your aspiration

352  
00:17:42,710 --> 00:17:40,880  
for the remainder of your mission and

353  
00:17:57,990 --> 00:17:42,720  
please also give a message to the

354  
00:18:01,350 --> 00:17:59,350  
and also

355  
00:18:04,390 --> 00:18:01,360  
looking at the internet news

356  
00:18:06,710 --> 00:18:04,400  
and i really feel strongly the

357  
00:18:08,470 --> 00:18:06,720  
expectations held towards me by the

358  
00:18:12,070 --> 00:18:08,480  
japanese people

359  
00:18:13,909 --> 00:18:12,080  
i really have to produce results because

360  
00:18:17,110 --> 00:18:13,919  
i think this will lead the way to the

361  
00:18:19,990 --> 00:18:17,120  
future of japan space activities and i

362  
00:18:22,470 --> 00:18:20,000  
think i need to showcase what the japan

363  
00:18:23,830 --> 00:18:22,480

can do to the international community

364

00:18:25,909 --> 00:18:23,840

and also

365

00:18:27,830 --> 00:18:25,919

live up to the expectation of the

366

00:18:29,430 --> 00:18:27,840

japanese people i'm slow

367

00:18:32,470 --> 00:18:29,440

like a turtle

368

00:18:35,350 --> 00:18:32,480

but i am working hard and i know it's

369

00:18:41,029 --> 00:18:35,360

hot there so i hope that you'll stay

370

00:18:44,150 --> 00:18:42,470

thank you very much

371

00:18:54,950 --> 00:18:44,160

and with this would like to conclude the
