Deep Space Network

Chief

Data Controls

Mars Exploration Rover

THE MARTIAN

1

00:00:06,299 --> 00:00:09,310

For me it's more about the spirit of the people who do it.

2

00:00:09,310 --> 00:00:11,340

Who do this type of thing.

3

00:00:11,340 --> 00:00:13,320

That is why I wanted to make the movie.

4

00:00:13,320 --> 00:00:19,039

I think that's what's so great about the book is underneath all of it is the characters

5

00:00:19,039 --> 00:00:23,810

great since of humor, and the way he handles all these situations and how he's pretty

6

00:00:23,810 --> 00:00:24,810

unflappable.

7

00:00:24,810 --> 00:00:36,780

Like that concept of self-sacrifice and that willingness to put everything you know sojourn

8

00:00:36,780 --> 00:00:40,329

everything in your life put the mission ahead of everything.

9

00:00:40,329 --> 00:00:47,680

And it's all about pushing that envelope to see, to further our kind of human experience.

10

00:00:47,680 --> 00:00:58,170

And the survival of this species is dependent on one day getting off this planet and going

11

00:00:58,170 --> 00:01:06,000

out and we're in the you know infancy of

that but in many ways it's so dangerous

12

00:01:06,000 --> 00:01:18,490

and it that explorer mentality that these folks have it's just awesome.

13

00:01:18,490 --> 00:01:24,860

Hopefully the message in a movie like this is one that really galvanizes participation

14

00:01:24,860 --> 00:01:29,460

in stuff like this and makes people excited about science.

15

00:01:29,460 --> 00:01:35,490

I mean the writer of the movie when I first met with him said I see this as a love letter

16

00:01:35,490 --> 00:01:42,430

to science and that's really what I want to make and that's a cool thing to put out

17

00:01:42,430 --> 00:01:46,810

into the world right now.

18

00:01:46,810 --> 00:01:53,740

I have four little kids and love it if they, if something like this could be part of the

19

00:01:53,740 --> 00:01:58,860

rest of their experience kind of push them towards life in this type of world, that'd

20

00:01:58,860 --> 00:02:05,430

be great.

21

00:02:05,430 --> 00:02:10,660

Thank you for what you've done and what you're doing.

22

00:02:10,660 --> 00:02:18,240

And those of us that aren't brave or smart
enough to be doing this kind of work are extremely
