EXPO 2017
Астана 2017

ISS

1
00:00:11,360 --> 00:00:20,150
um

2
00:00:25,670 --> 00:00:21,349
good morning

3
00:00:27,990 --> 00:00:25,680
are you ready

4
00:00:29,669 --> 00:00:28,000
ready

5
00:00:38,709 --> 00:00:29,679
do you know the plan

6
00:00:46,549 --> 00:00:39,990
a very

7
00:00:50,310 --> 00:00:48,470
we're going to take a look

8
00:00:56,069 --> 00:00:50,320
we eliminated the issues that you

9
00:00:56,079 --> 00:01:00,150
do you have any comments for us

10
00:01:10,230 --> 00:01:03,189
no everything is going to be recorded in

11
00:01:13,830 --> 00:01:12,149
so there are two options uh everything

12
00:01:15,749 --> 00:01:13,840
is going on according to the plan we

13
00:01:19,429 --> 00:01:15,759

don't know the plan and the second

14

00:01:31,429 --> 00:01:20,390

okay

15

00:01:31,439 --> 00:01:49,830

foreign

16

00:01:49,840 --> 00:02:07,030

is

17

00:02:22,550 --> 00:02:09,749

come on

18

00:02:22,560 --> 00:02:46,390

i didn't

19

00:02:46,400 --> 00:03:11,670

cheers

20

00:03:15,110 --> 00:03:13,750

one question during your third flight

21

00:03:18,869 --> 00:03:15,120

training

22

00:03:20,949 --> 00:03:18,879

differ well

23

00:03:22,630 --> 00:03:20,959

i have a different crew tasks are

24

00:03:25,270 --> 00:03:22,640

different

25

00:03:26,630 --> 00:03:25,280

overall everything looks the same

26

00:03:29,110 --> 00:03:26,640

launch

27

00:03:31,509 --> 00:03:29,120

i sent to the station so but the

28

00:03:35,110 --> 00:03:31,519

contents are different

29

00:03:37,830 --> 00:03:35,120

so i just have a feeling that there is a

30

00:03:40,229 --> 00:03:37,840

change change over

31

00:03:41,910 --> 00:03:40,239

so there is a

32

00:03:44,470 --> 00:03:41,920

big

33

00:03:47,670 --> 00:03:44,480

test subjective compliment

34

00:03:49,830 --> 00:03:47,680

a question uh mr um i bet if you haven't

35

00:03:52,710 --> 00:03:49,840

flown for a while

36

00:03:56,710 --> 00:03:52,720

how was your training

37

00:03:59,270 --> 00:03:56,720

training uh for this specific flight i

38

00:04:01,990 --> 00:03:59,280

uh trained quickly within three months

39

00:04:05,190 --> 00:04:02,000

said previously i was undergoing

40

00:04:08,710 --> 00:04:05,200

training for six years so

41

00:04:19,670 --> 00:04:08,720

so i am fully trained and have the

42

00:04:23,990 --> 00:04:22,069

i felt like it's an old friend and a

43

00:04:25,990 --> 00:04:24,000

living being and i just

44

00:05:22,629 --> 00:04:26,000

felt the same right now i was convinced

45

00:05:22,639 --> 00:05:42,150

oh

46

00:06:07,590 --> 00:05:45,110

at lunch we can only see the kind eyes

47

00:06:07,600 --> 00:06:21,590

foreign

48

00:06:39,270 --> 00:06:23,430

that's how your eyes are closed okay

49

00:06:44,070 --> 00:06:42,390

we're glad to welcome you to our museum

50

00:06:46,469 --> 00:06:44,080

our traditional

51
00:06:47,350 --> 00:06:46,479
tour

52
00:06:49,270 --> 00:06:47,360
through

53
00:06:51,749 --> 00:06:49,280
the museum it's not going to be a big

54
00:07:05,189 --> 00:06:51,759
tour we're just going to show you the

55
00:07:11,589 --> 00:07:08,070
this is the first

56
00:07:32,150 --> 00:07:11,599
successful launch of the rocket

57
00:07:32,160 --> 00:07:50,469
um

58
00:07:50,479 --> 00:07:52,950
this

59
00:07:52,960 --> 00:07:59,430
is

60
00:07:59,440 --> 00:08:31,749
yes

61
00:08:35,829 --> 00:08:33,829
uh important event it was the 40th

62
00:08:38,630 --> 00:08:35,839
anniversary of the experimental flight

63
00:08:41,190 --> 00:08:38,640

apollo soyuz that was the first time

64

00:08:46,150 --> 00:08:41,200

when the two vehicles docked i always
