

1  
00:00:00,000 --> 00:00:08,000

Corey Harrell, I'm an Air Space Engineer, I work for Safety Mission Assurance, I support RS25 testing for the S

2  
00:00:20,020 --> 00:00:27,880

What excites me about this project is the fact that I get to be one of many to make my mark in supporting RS25

3  
00:00:27,880 --> 00:00:34,600

Through testing with the RS25 engine, we first test with the development engines and we also test with our her

4  
00:00:34,700 --> 00:00:40,860

By testing with both, we set certain test objectives that meet those requirements that will eventually give us the

5  
00:00:40,860 --> 00:00:49,500

The most exciting technology on its way to Mars is of course the RS25 engines. The RS25 engines play a very
