00:00:04,830 --> 00:00:15,110

Hi, I'm Miguel DeJesus, and I'm from San Juan the Puerto Rico.

2

00:00:15,110 --> 00:00:22,060

I'm the Marshall Space Flight Center Safety Manager at Michoud Assembly Facility, or MAF

3

00:00:22,060 --> 00:00:23,450

a we know it.

4

00:00:23,450 --> 00:00:31,010

We are coordinating all aspects & phases of Industrial Safety program here at the MAF.

5

00:00:31,010 --> 00:00:37,110

There are many aspects for such an important program as the one we have here, building

6

00:00:37,110 --> 00:00:43,879

the next generation of rockets, the Space Launch System, which will pave our way to

7

00:00:43,879 --> 00:00:48,400

Mars

I count with the support of an excellent team,

8

00:00:48,400 --> 00:00:53,190

which is fully committed to the mission, quality, and the utmost safety of our products and

9

00:00:53,190 --> 00:00:56,850

more importantly - our people.

10

00:00:56,850 --> 00:01:03,059

Diversity is everything here at MAF .

You do not want to hear the same points of

11

00:01:03,059 --> 00:01:08,250

view all of the time

We have found that our experiences and background

12

00:01:08,250 --> 00:01:15,300

gives us different perspectives when it comes to solving such high technical problems as

13

00:01:15,300 --> 00:01:24,990

the one we face here on a day to day basis  
We are in the business of facilitating solutions,

14

00:01:24,990 --> 00:01:35,560

creating new ideas, finding new and novel ways of approaching and solving problems.

15

00:01:35,560 --> 00:01:42,380

Such is life living in the frontier of knowledge and technology.

16

00:01:42,380 --> 00:01:49,130

I come from a very extensive family  
Family means all to me; It's my reason to

17

00:01:49,130 --> 00:01:58,600

get up every morning, and accomplish our mission, knowing that we are leaving a better world

18

00:01:58,600 --> 00:02:00,530

for those who follow us.

19

00:02:00,530 --> 00:02:05,510

They might someday, be the ones driving my rocket.

20

00:02:05,510 --> 00:02:11,769

I promise myself every morning that I'll do everything humanly possible to get back

21

00:02:11,769 --> 00:02:17,220

to them safe and sound at the end of each

and everyday.

22

00:02:17,220 --> 00:02:26,010

My mother instilled in me a passion for excellence,  
and from my Dad I've learned that nothing

23

00:02:26,010 --> 00:02:31,430

is impossible if you are willing to never  
give up.
