

1  
00:00:00,000 --> 00:00:09,500

My name is Terry Fong. I run the Human Exploration Tele-Robotics Project at NASA. And what we're doing is

2  
00:00:20,000 --> 00:00:28,500

As humans go further and further into space as they go to Mars, one of the big things that we are going to need

3  
00:00:28,500 --> 00:00:34,500

You know if you think about being on Mars, one of the big challenges is, " How do you carry out work on the surface

4  
00:00:34,500 --> 00:00:38,700

So one of the things that we are trying to do, is to create robots that can work ahead of humans,
