1
00:00:04,330 --> 00:00:10,230

Earlier this year, NASA Administrator Charles Bolden visited Bally Ribbon Mills, a Pennsylvania

2
00:00:10,230 --> 00:00:16,859

company that manufactures military honor ribbons, medical textiles, industrial fabrics and more.

3
00:00:16,859 --> 00:00:21,930

This company today is creating the advanced woven thermal protection systems used in the

4
00:00:21,930 --> 00:00:27,580

Orion spacecraft, laying the groundwork for future human missions to the Red Planet.

5
00:00:27,580 --> 00:00:33,660

This is an example of the heart and soul of everything that NASA does. We don't... You

6
00:00:33,660 --> 00:00:39,750

know we have big contractors that do big projects like Lockheed and Boeing and others but when

7
00:00:39,750 --> 00:00:44,290

you get right down to the fine points right down to the components they are generally

8
00:00:44,290 --> 00:00:49,739

done by an American small business. We can not get to Mars without the types of material

9
00:00:49,739 --> 00:00:51,300

that's being developed here.

10
00:00:51,300 --> 00:00:56,309

Everyday NASA celebrates and supports the contributions of small businesses across the

11

00:00:56,309 --> 00:01:02,859

country and on Saturday November 28th we invite you to join us in celebrating Small Business

12

00:01:02,859 --> 00:01:08,060

Saturday and all that small businesses do for their communities.

13

00:01:08,060 --> 00:01:13,049

Participate on social media by following NASA's Office of Small Business Programs

14

00:01:13,049 --> 00:01:16,799

Narrator:

This weekend join in by sharing your small
