

1  
00:00:32,549 --> 00:00:29,669  
this is mission control houston we now

2  
00:00:34,950 --> 00:00:32,559  
have confirmation that the soyuz tma-17m

3  
00:00:37,190 --> 00:00:34,960  
spacecraft has landed the search and

4  
00:00:39,990 --> 00:00:37,200  
recovery forces reporting from the

5  
00:00:42,470 --> 00:00:40,000  
landing site that the soyuz was found on

6  
00:00:46,229 --> 00:00:42,480  
its side not unusual

7  
00:00:48,150 --> 00:00:46,239  
for a windy uh landing condition the

8  
00:00:51,110 --> 00:00:48,160  
words up on the front screen here in the

9  
00:00:52,790 --> 00:00:51,120  
mission control center yes posadka

10  
00:00:54,470 --> 00:00:52,800  
they've landed

11  
00:00:55,910 --> 00:00:54,480  
video now being received from the

12  
00:00:57,270 --> 00:00:55,920  
landing site to the northeast of

13  
00:01:00,069 --> 00:00:57,280

jessica's gone

14

00:01:01,510 --> 00:01:00,079

a good view of kimia yui who's being

15

00:01:04,310 --> 00:01:01,520

hoisted

16

00:01:07,030 --> 00:01:04,320

in his reclining chair he'll be placed

17

00:01:09,350 --> 00:01:07,040

in an all-terrain vehicle to be driven

18

00:01:12,870 --> 00:01:09,360

to one of the helicopters that has

19

00:01:14,950 --> 00:01:12,880

arrived at the landing site we are also

20

00:01:17,270 --> 00:01:14,960

told that alec kononenko was removed

21

00:01:18,149 --> 00:01:17,280

from the soyuz capsule uh chell lindgren

22

00:01:20,870 --> 00:01:18,159

to be

23

00:01:24,469 --> 00:01:20,880

removed next

24

00:01:26,710 --> 00:01:24,479

extraction of the crew is in progress

25

00:01:27,910 --> 00:01:26,720

with kononenko and yui having been

26  
00:01:30,230 --> 00:01:27,920  
extracted

27  
00:01:37,749 --> 00:01:30,240  
and uh chell lindgren now in the process

28  
00:01:44,550 --> 00:01:40,550  
and a good view of chell lindgren having

29  
00:01:47,270 --> 00:01:44,560  
returned from space 141 days on his

30  
00:01:48,710 --> 00:01:47,280  
first mission just two days ago he was

31  
00:01:50,389 --> 00:01:48,720  
at the controls at the robotics

32  
00:01:52,870 --> 00:01:50,399  
workstation in the cupola of the

33  
00:01:55,749 --> 00:01:52,880  
international space station using the

34  
00:01:58,789 --> 00:01:55,759  
canadarm2 robotic arm to grapple the

35  
00:02:01,109 --> 00:01:58,799  
orbital atk cygnus resupply vehicle

36  
00:02:03,190 --> 00:02:01,119  
48 hours later he's back on earth with

37  
00:02:04,310 --> 00:02:03,200  
his crewmates salad kononenko and kamiya

38  
00:02:06,630 --> 00:02:04,320

yui

39

00:02:08,469 --> 00:02:06,640

uh looking uh hail and hardy

40

00:02:11,350 --> 00:02:08,479

they will be uh loaded into uh

41

00:02:12,630 --> 00:02:11,360

helicopters uh for about a 35 minute or

42

00:02:14,470 --> 00:02:12,640

so flight

43

00:02:16,869 --> 00:02:14,480

to jez kuzgan

44

00:02:19,750 --> 00:02:16,879

where they will wind up uh ultimately

45

00:02:22,150 --> 00:02:19,760

being flown in a nasa gulfstream jet

46

00:02:23,750 --> 00:02:22,160

that would be lindgren and yui

47

00:02:25,350 --> 00:02:23,760

back to

48

00:02:26,630 --> 00:02:25,360

houston

49

00:02:28,470 --> 00:02:26,640

the uh

50

00:02:30,550 --> 00:02:28,480

third crew member the soyuz commander

51  
00:02:33,509 --> 00:02:30,560  
oleg kononenko having completed his

52  
00:02:36,470 --> 00:02:33,519  
third flight into space and 533 days

53  
00:02:38,550 --> 00:02:36,480  
aggregate total to be flown back to

54  
00:02:41,430 --> 00:02:38,560  
tcoloski airfield

55  
00:02:43,589 --> 00:02:41,440  
near star city the gagarin cosmonaut

56  
00:02:44,470 --> 00:02:43,599  
training center air base and training

57  
00:02:47,110 --> 00:02:44,480  
center

58  
00:03:10,630 --> 00:02:47,120  
he will be flown back to be reunited

59  
00:03:10,640 --> 00:03:21,190  
oh

60  
00:03:21,200 --> 00:03:34,070  
foreign

61  
00:03:34,080 --> 00:03:44,229  
how are you doing

62  
00:03:48,149 --> 00:03:46,070  
a good view of chell lidgren at the

63  
00:03:49,750 --> 00:03:48,159

landing site uh

64

00:03:51,190 --> 00:03:49,760

he um

65

00:03:53,509 --> 00:03:51,200

is talking on a satellite phone

66

00:03:56,470 --> 00:03:53,519

presumably to his family back in houston

67

00:03:58,630 --> 00:03:56,480

that's a typical and commonplace uh the

68

00:04:00,710 --> 00:03:58,640

landing site is floodlit but there will

69

00:04:02,309 --> 00:04:00,720

be no erection of a medical tent uh on

70

00:04:05,429 --> 00:04:02,319

this particular evening

71

00:04:07,270 --> 00:04:05,439

uh since uh the landing occurred uh

72

00:04:09,670 --> 00:04:07,280

under uh rather

73

00:04:11,110 --> 00:04:09,680

harsh conditions uh with a thick

74

00:04:13,190 --> 00:04:11,120

overcast

75

00:04:15,030 --> 00:04:13,200

the search and recovery forces deploying

76  
00:04:17,830 --> 00:04:15,040  
only four helicopters to the landing

77  
00:04:21,270 --> 00:04:17,840  
site and several all-terrain vehicles

78  
00:04:22,390 --> 00:04:21,280  
alek kononenko and kamiya yui already

79  
00:04:25,749 --> 00:04:22,400  
having been

80  
00:04:27,670 --> 00:04:25,759  
placed inside all-terrain vehicles

81  
00:04:43,270 --> 00:04:27,680  
to move

82  
00:04:47,430 --> 00:04:45,030  
this is the first

83  
00:04:49,830 --> 00:04:47,440  
post sunset landing uh for a soyuz

84  
00:04:50,790 --> 00:04:49,840  
vehicle in international space station

85  
00:04:53,670 --> 00:04:50,800  
history

86  
00:04:56,310 --> 00:04:53,680  
the sixth night landing overall the last

87  
00:04:58,550 --> 00:04:56,320  
one occurring an hour before sunrise

88  
00:05:00,550 --> 00:04:58,560

back in november 2012 when the

89

00:05:02,550 --> 00:05:00,560

expedition 33 crew

90

00:05:04,950 --> 00:05:02,560

brought its mission to an end sunny

91

00:05:06,150 --> 00:05:04,960

williams yuri malenchenko and aki

92

00:05:08,550 --> 00:05:06,160

hoshide

93

00:05:10,710 --> 00:05:08,560

now lindgren being lifted to be carried

94

00:05:13,749 --> 00:05:10,720

to an all-terrain vehicle and a short
