

1
00:00:14,920 --> 00:00:57,830
uh sure

2
00:00:57,840 --> 00:01:18,469
um

3
00:01:18,479 --> 00:01:37,590
me

4
00:01:37,600 --> 00:01:40,630
okay

5
00:01:40,640 --> 00:02:20,309
it was before the launch of uh

6
00:02:20,319 --> 00:02:25,110
alert

7
00:02:25,120 --> 00:03:03,190
foreign

8
00:03:53,990 --> 00:03:42,949
um

9
00:04:46,629 --> 00:04:26,629
so

10
00:04:51,830 --> 00:04:48,629
international space station expedition

11
00:04:53,510 --> 00:04:51,840
47 flight engineer and 48 commander jeff

12
00:04:55,510 --> 00:04:53,520
williams we're here at red square and

13
00:04:57,510 --> 00:04:55,520

the kremlin you've just finished your

14

00:04:59,590 --> 00:04:57,520

final exams in the space station russian

15

00:05:01,270 --> 00:04:59,600

segment and in the soyuz how are you

16

00:05:02,629 --> 00:05:01,280

going to be spending your next week here

17

00:05:04,469 --> 00:05:02,639

in russia before you head off to

18

00:05:06,469 --> 00:05:04,479

baikonur for your mission well this is

19

00:05:08,150 --> 00:05:06,479

the few days that we have between final

20

00:05:10,710 --> 00:05:08,160

exams and then we do this traditional

21

00:05:12,629 --> 00:05:10,720

visit to red square and go on the bike

22

00:05:14,469 --> 00:05:12,639

in our well half almost a week where i

23

00:05:16,070 --> 00:05:14,479

kind of get things in order i'm going to

24

00:05:18,870 --> 00:05:16,080

be spending some time on the phone of

25

00:05:20,790 --> 00:05:18,880

course with with family and friends

26

00:05:22,150 --> 00:05:20,800

as they finish their final plans to come

27

00:05:23,189 --> 00:05:22,160

to the launch and of course i have to

28

00:05:25,189 --> 00:05:23,199

get my

29

00:05:28,390 --> 00:05:25,199

things together to get ready for the

30

00:05:30,070 --> 00:05:28,400

trip down to baikonur next week

31

00:05:32,629 --> 00:05:30,080

this is going to be your third trip to

32

00:05:34,150 --> 00:05:32,639

the international space station is there

33

00:05:36,310 --> 00:05:34,160

anything different about your

34

00:05:38,390 --> 00:05:36,320

preparations this time or your emotions

35

00:05:39,830 --> 00:05:38,400

or your feelings in general about what's

36

00:05:40,950 --> 00:05:39,840

going to make this special and different

37

00:05:43,270 --> 00:05:40,960

for you

38

00:05:45,670 --> 00:05:43,280

well it occurred to me that my first

39

00:05:48,070 --> 00:05:45,680

visit to the space station was in 2000

40

00:05:50,629 --> 00:05:48,080

and i was there twice as you said for

41

00:05:53,909 --> 00:05:50,639

long stays since then and now i'm going

42

00:05:56,230 --> 00:05:53,919

back for the third long visit

43

00:05:58,390 --> 00:05:56,240

and it occurred to me that i've had the

44

00:05:59,909 --> 00:05:58,400

opportunity to really cover the history

45

00:06:02,629 --> 00:05:59,919

of the building of the international

46

00:06:04,550 --> 00:06:02,639

space station and now its assembly is

47

00:06:06,950 --> 00:06:04,560

complete we finished it up about the

48

00:06:09,590 --> 00:06:06,960

time i was there last

49

00:06:11,590 --> 00:06:09,600

my visit before that was halfway through

50

00:06:13,830 --> 00:06:11,600

so now it's in full utilization mode and

51

00:06:16,390 --> 00:06:13,840

i look forward to

52

00:06:18,870 --> 00:06:16,400

personally sort of completing the the

53

00:06:21,350 --> 00:06:18,880

story of the international space station

54

00:06:23,430 --> 00:06:21,360

with that in mind i've also

55

00:06:25,270 --> 00:06:23,440

decided that i'm going to try to bring

56

00:06:27,590 --> 00:06:25,280

the history of the space station space

57

00:06:30,230 --> 00:06:27,600

station to the folks that are following

58

00:06:33,430 --> 00:06:30,240

using social media and other media

59

00:06:34,870 --> 00:06:33,440

to remind folks just how incredible

60

00:06:37,510 --> 00:06:34,880

the station is and what an

61

00:06:40,309 --> 00:06:37,520

accomplishment it is

62

00:06:42,629 --> 00:06:40,319

among this international partnership

63

00:06:44,230 --> 00:06:42,639

how can your fans and the public follow

64

00:06:45,909 --> 00:06:44,240

you on social media

65

00:06:48,070 --> 00:06:45,919

well with some help

66

00:06:50,390 --> 00:06:48,080

with some of my friends in houston we've

67

00:06:52,150 --> 00:06:50,400

got a facebook page up and running and

68

00:06:54,309 --> 00:06:52,160

of course i'll be using twitter as well

69

00:06:56,629 --> 00:06:54,319

to get the word out as we go through the

70

00:06:59,270 --> 00:06:56,639

different milestones of the mission

71

00:07:01,990 --> 00:06:59,280

and also to do a little retrospective

72

00:07:04,230 --> 00:07:02,000

look back at the different significant

73

00:07:05,909 --> 00:07:04,240

milestones as we
