

1  
00:00:00,400 --> 00:00:03,810

What was once shrouded in fear and superstition...

2  
00:00:03,810 --> 00:00:07,529

now brings about a sense of wonder and delight.

3  
00:00:07,529 --> 00:00:09,610

This is a Total Solar Eclipse.

4  
00:00:09,610 --> 00:00:16,390

A period when the Moon passes exactly between the Sun and the Earth... and its shadow covers

5  
00:00:16,390 --> 00:00:18,280

portions of the globe.

6  
00:00:18,280 --> 00:00:23,699

In the early hours of March 8th and 9th, the shadow's Path of Totality will cross over

7  
00:00:23,699 --> 00:00:25,759

an area in Micronesia.
